OUTLINE HISTORY OF NEW JERSEY.

Within the limits of what is now the State of New Jersey, aside from any evidences of the presence of prehistoric man in the "Trenton Gravels," the original inhabitants of the commonwealth were Lenni Lenape, or Delaware, Indians. This subdivision of the great Algonkin family occupied the river valleys of the State, had made some progress in agriculture and in elementary arts, were peaceable but small in numbers, and at last have become totally extinct in this portion of the United States.

In its settlement, New Jersey was not an English colony. The claims of the Crown, based upon early discovery and various grants, were totally ignored by two great commercial nations of Europe—Holland and Sweden. It was not until 1664, practically a half century after the first occupancy of New Jersey by a white man, that England had aught more than a slight influence upon the destinies of the State. In settlement, Holland was first to send out planters, under the auspices of the Dutch West India Company. Claiming both the valleys of the Hudson and the Delaware, by virtue of the explorations of Hudson and Mey, land was taken up upon the banks of the Hudson, Passaic, Hackensack, Raritan and smaller streams tributary to New York harbor, as well as at Gloucester upon the Delaware. By 1630 these claims were well established by occupancy, and by the creation of a centre of local government in what is now New York city. Upon the rapidly growing influence of Holland, Sweden looked with jealous eye. Gustavus Adolphus, in his plan to make Sweden a world-power, saw the Dutch to be dangerous rivals in America. In 1638 there was equipped a Swedish expedition to settle the valley of the Delaware. What is now the State of Delaware, the valley of the Schuylkill and isolated portions of the west bank of the Delaware River were occupied, civil and military government was established, and the colony of farmers and traders entered upon a brief career of prosperity. The death of Gustavus Adolphus, internal dissensions in Sweden, the inherent weakness of the Delaware settlements, and the constantly increasing power of Holland brought matters to a crisis. In 1655 New Sweden was conquered by New Netherlands,

and for nine years the soil of New Jersey was absolutely under Dutch control.

Emerging from the interregnum of the Cromwells, the restoration of the House of Stuart brought peace to England. On the 12th of March, 1664, Charles II., with royal disregard for previous patents, grants and charters, deeded to his brother James, Duke of York, a vast tract embracing much of New England, New York and all of what is now New Jersey. This was accompanied by active preparations to drive the Dutch from America, as they, in alien claims to New Jersey, practically separated the New England colonies from Virginia, Maryland and the Carolinas. In the summer of 1664 armed vessels appeared in New York harbor. After negotiations, the Dutch surrendered and the power of Holland in North America became simply a matter of history. In the meantime James, Duke of York, transferred to two favorites of the House of Stuart—John, Lord Berkeley, and Sir George Carteret—practically what is now the State of New Jersey. In honor of Carteret's defense of the Island of Jersey (Caesarea) during the Parliamentary wars, the territory was called New Jersey (Nova Caesarea).

Carteret and Berkeley, in granting a liberal frame of government and extolling the advantages of their colony so well located for agriculture, commerce, fishing and mining, attracted settlers not only from England, but from Scotland and New England, particularly Long Island and Connecticut. These planters were largely Calvinists, from Presbyterian and Congregational communities, and mainly occupied land in Newark, Elizabeth and upon the north shore of Monmouth county. The valley of the Delaware remained unsettled. The Calvinists brought into East Jersey distinctive views upon religious and civil matters. Early legislatures punished many crimes by death, the penalties being similar to those of the Jewish dispensation, while the "town-meeting" strengthened the individual action of the small communities. There was an intense individualism in every phase of political and religious development, the life of the people centering around the church and the school house, the head of both, as in New England, being the minister.

In 1676 a division of the interests of Carteret and Berkeley occurred. In the meantime Berkeley had disposed of his rights to a company of English Quakers, a conflict had ensued, and to establish the claims of all parties concerned, the two colonies of East and West Jersey came into existence. A line was drawn from a point in Little Egg

Harbor to the Delaware Water Gap, Berkeley and his assigns retaining West Jersey as their moiety, Carteret obtaining East Jersey.

By Berkeley's transfer the dominant influence in West Jersey was that of the Society of Friends. Salem was settled in 1675, Burlington, Gloucester and the site of Trenton about five years later, while within ten years thereafter the "shore" communities of Cape May and Tucker-ton came into existence. The Society of Friends established in West Jersey a series of communities in which the life of the people was different from that of East Jersey. As East Jersey resembled New England in civil government, so West Jersey resembled Virginia. The political and social centres of the large plantations were the shire-towns, slave owning was common, a landed aristocracy was established, prominent families intermarried, and under the advice of William Penn and his friends good faith was kept with the Indians. Capital punishment was practically unknown and disputes were settled frequently by arbitration.

Two elements of discord marked the genesis of East Jersey and of West Jersey. One, external, was the attitude of the Duke of York after he became James II. In 1673 New Jersey was recaptured by the Dutch, who held the colony until the early spring of 1674. A question arose as to the Duke of York's title after 1674, reconveyances were made, but in spite of past assurances, James II. claimed the proprietary right of government. To that end Sir Edmund Andros was commissioned Governor of New Jersey, and a climax was reached in 1680 when the proprietary governor of East Jersey was carried prisoner to New York. In 1681 the Crown recognized the justice of the proprietors' contention, and local government was re-established, but not before the seeds of discontent were sown that bore fruit in the Revolutionary War.

An internal disturbance was a contest between the Boards of Proprietors and the small land owners. Both in East and West Jersey, Carteret and Berkeley and their assigns had transferred to wealthy combinations of capitalists—most of whom were non-residents—much of the broad acreage of the colonies. With the land went the right of selection of Governors and of members of Executive Councils, which right Berkeley and Carteret had derived from the Crown. This, with "quit-rent" agitations in East Jersey, led to much bitterness. Finally, disgusted with turmoil, and viewing a sentiment of revolt on the part of the people, the Boards of Proprietors sur-

rendered to the Crown, in 1702, their rights of government, retaining only their interest in the soil, East and West Jersey were united, and the two provinces became the royal colony of New Jersey.

From 1702 until the outbreak of the Revolution the political history of the colony was quite uneventful. Throughout the period of seventy-five years there was almost constant friction between the Legislature and the Governor and his Council. The governors, in the main, were Crown favorites sent over the sea without a personal knowledge of the colony and with but an ill-concealed ambition to wrest from the people as much money as could be secured for the support of themselves and the executive office. The Councils, composed of wealthy land owners of the Society of Friends and rich merchants from East Jersey, were quiescent, and even the members of the popular branch of the Legislature were chosen by those possessing property qualifications. The small non-voting farmers raised the cry of "aristocracy," and the equivalent of "taxation without representation," and while loyal to the Crown were open in their expressions of dissatisfaction to the personal attitude of their governors. In 1738 New Jersey, in recognition of this sentiment, was given a governor separate from the one appointed jointly for the colonies of New York and New Jersey.

During this period the farm was the centre of the activities of the life of the people; particularly was this true in the western part of the colony, where favoring climate and soil, slave labor and the proximity of Philadelphia led to abundant crops and a good market. In East Jersey a commercial spirit was more active. Perth Amboy threatened to rival New York, and Jersey ships from Newark, Elizabeth and the Monmouth villages were to be found from Boston to Charleston. The repressive economic policy of the Crown precluded the development of manufactures. In the southern part of the State, sand and unlimited forests of oak and pine led to the development of glass making, while "bog iron," with abundance of lime from oyster shells, gave an impetus to the erection of forges and bloomaries. These, as well as the copper mines of the trap rock region, were throttled by adverse Parliamentary legislation. Ship building was a recognized industry, and cedar was extensively "mined" from the sunken forests of the tide-water district. Whaling and other fisheries were unhampered, and were profitable, as was also the trade in skins and in hay from the salt meadows of the coast.

Throughout the years from 1702 to 1776 gold and silver and copper money was scarce. In obedience to the demand of the English merchants that competition should be crushed, legislation was enacted to draw "hard" money away from the colony. An inflated paper currency, first issued in 1707 to provide ways and means to aid the Canadian expedition against the French, poured from the printing presses. Trade was reduced to barter, and gold, silver and copper were practically at a premium for nearly three generations.

Of the more prominent incidents during the period were the organized attempts to suppress piracy in New York and Delaware bays, the growth of a well-defined system of transportation by land and water between New York and Philadelphia, the establishment of ferries and post roads, the reclamation of waste land, the injection of Huguenot, Scotch-Irish and Palatinate German elements into the settled population, the chartering of Princeton University and Rutgers College, the religious revival led by Whitefield, the propagation of abolition doctrines by Woolman, the erection of a series of barracks owing to the French and Indian war, and what is probably of supreme importance, the growth of a sentiment of independence fostered by the stupid policy of the Crown, and carried from hamlet to hamlet, as much by itinerant hawkers and by "Redemptioners," who had served their time, as by any other cause.

The opening of the Revolution found New Jersey's sentiment unevenly crystalized. Few, if any, were favoring absolute independence. There were three elements. One, the Tory party, was led by Governor William Franklin, the illegitimate son of Benjamin Franklin. This conservative class embraced nearly all the Episcopalians, a vast proportion of the non-combatant members of the Society of Friends and some East Jersey Calvinists. Another element was composed of men of various shades of belief, some in favor of continual protest, others desirous of compromise. This included at the outbreak of the struggle most of the Calvinists, some few Quakers of the younger generation, and the Scotch-Irish. The third party drew its support from a few bold, aggressive spirits of influence whose following included men who believed that war for independence would benefit their fortunes.

The part played in the Revolution by New Jersey has been frequently told. Events passed rapidly after the affairs of Trenton and Princeton; Monmouth and Red Bank will never be forgotten, while the raids at Salem, Spring-

field, Elizabeth, in the valley of the Hackensack, and the winter at Morristown are a part of national history. Occupying a position between New York and Philadelphia, its soil was a theatre where the drama of war was always presented. At no time was the Tory element suppressed, finding its expression in open hostility, or in the barbaric cruelties of the "Pine Robbers" of Monmouth, Burlington, Gloucester and Salem counties. Though under suspicion, the Society of Friends were neutral, for conscience sake, remaining close to the teachings of their creed.

The close of the struggle found the people of New Jersey jubilant and not disposed to relinquish their sovereignty. The Articles of Confederation were weak and had become a by-word and a jest. There was much State pride and much aristocratic feeling among the old families who continued to dominate State politics. The Constitution of 1776, adopted by New Jersey as a makeshift war measure, provided that all State officers of prominence should be elected by a Legislature, which was chosen by voters possessing property qualifications. As in the colony, the Governor was Chancellor, and class distinctions were closely drawn. In spite of agitation, all proposed changes were rejected, and a strong federal union with the other States was viewed with dislike and suspicion. The State, in a quarrel with New York, at one time refused to obey the requests of Congress, and, in the exercise of her sovereignty, established a Court of Admiralty and coined money.

While the spirit of "State rights" was dominant, it was recognized by leaders of public thought that New Jersey was too weak to stand alone. She entered the Annapolis convention called to revise the Articles of Confederation, and whose lasting monument was the present Federal Constitution adopted in Philadelphia in 1787. Upon the 15th of June of that year the "New Jersey Plan" was presented, which, while lost as a measure, led to the famous compromise upon representation, whereby in the Senate of the United States the States were given equal vote, with a representation based on population in the House.

The adoption of the Constitution of the United States led to the rapid growth of political parties in New Jersey as elsewhere. In spite of the intense conservatism of the State, led by the Quakers of West Jersey, who were Federalists almost to a man, the anti-Federalist sentiment developed rapidly, spurred by a virulent party press, the death of men who had been trained in colonial methods of thought and the democratic tendency of the Methodist Episcopal Church, which grew in strength in West Jersey.

In the eastern part of the State there was among the individualistic Calvinists a strong anti-Federal spirit. This, in 1800, led to the election of Thomas Jefferson as President of the United States, and in 1801 the election of his political ally, Joseph Bloomfield, as Governor of the State of New Jersey. The death of Hamilton at the hands of Burr, and the death of Livingston, the "war" Governor, tore down the strongest pillars of Federalism in New Jersey, and led to the absolute domination of the State by the anti-Federalists, who held power until the outbreak of the second war with England.

The period from 1790 to 1812 in New Jersey was marked by a demand for internal improvements and better transportation. The agitation concerning the Delaware and Raritan Canal, Stevens' experiments in 1802 with steam, along the lines laid down in 1785 by Fitch, the project of the Society for Establishing Useful Manufactures at Paterson as early as 1791, and highways conducted through the northwest portion of the State, indicate the trend of public sentiment.

The second war with England was not altogether a popular measure in New Jersey. The Federalists, the "Peace Party," secured control of the Legislature and elected their Governor. Nevertheless the State furnished her quota of troops. The one permanent effect of the struggle upon the State was indirect. Owing to the movement of supplies and the necessity of quick transportation between Philadelphia and the exposed port of New York, the wagon roads between Bordentown and Perth Amboy, and between Trenton, New Brunswick, Metuchen, Rahway, Elizabeth and Newark, were improved and their advantages as "short routes" demonstrated. Upon these lines two later railroads, now a part of the Pennsylvania Railroad system, were constructed.

The era following the close of the war of 1812 until the opening of the Civil War was one of stupendous activity. Interrupted only by the financial depressions of 1817 and 1837, and slightly retarded by the Mexican War, the progress of the State was beyond the wildest dreams of the enthusiast, Alexander Hamilton. In the eastern part of the State, aided by a constantly increasing foreign population, Jersey City rose from the marshes, Newark grew toward her present greatness, Paterson became a centre of industry, while in the west, Camden was recognized as an available site for manufactures. The public school system was established and extended, reforms in the caring for the criminal, defective, delinquent and dependent

classes were instituted, railroads were reaching every town of size, in the vicinity of New York and Philadelphia, ferries were erected, banks established, post offices opened and newspapers printed. In 1844, when social unrest was most marked, the present State Constitution was adopted by a large popular majority and needed reforms tending to elevate the legal position of married women, imprisoned debtors and bankrupts were adopted.

The year 1860 brought a termination to the then impending conflict. While every other State north of Mason and Dixon's line by 1850 had set the black man free, there were still 236 negroes in bondage in New Jersey. The abolition movement made slow progress and an anti-war party had a decided following. But when the die was cast New Jersey responded to the call for men and money. She furnished 88,305 men, or within 10,501 of her entire militia. For organizing, subsisting, supplying, supporting and transporting her troops she paid \$2,894,385, and upon the field sustained the reputation for bravery she had won during the days of Trenton and Monmouth.

Since the Civil War New Jersey has become the centre of marvelous activity in nearly every line of human progress. Her mills clothe multitudes; within her borders are found the termini of every railroad system of the United States, with one exception, penetrating the South and West; her market gardens feed 5,000,000 people; a series of cities arisen upon the desolate sands of the sea shore furnish health and pleasure to hundreds of thousands of visitors; her mines supply iron, zinc and copper; her fisheries are world-famous, and her farms and dairies are models.

DECLARATION OF INDEPENDENCE

OF THE

UNITED STATES.

When, in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident: that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty and the pursuits of happiness. That, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that whenever any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it, and to institute a new government, laying its foundations on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and accordingly, all experience hath shown that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But, when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security. Such has been the patient sufferance of these colonies, and such is now the necessity which constrains them to alter their former systems of government. The history of the present king of Great Britain is a history of repeated injuries and usurpations, all having in direct object, the establishment of an absolute tyranny over these States. To prove this, let facts be submitted to a candid world:

He has refused his assent to laws the most wholesome and necessary for the public good.

He has forbidden his Governors to pass laws of immediate and pressing importance, unless suspended in their operations till his assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other laws for the accommodation of large districts of people, unless those people would relinquish the right of representation in the Legislature—a right inestimable to them, and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable and distant from the repository of their public records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved representative houses repeatedly, for opposing, with manly firmness, his invasions on the rights of the people.

He has refused, for a long time after such dissolutions, to cause others to be elected; whereby the legislative powers, incapable of annihilation, have returned to the people at large for their exercise; the State remaining, in the meantime, exposed to all the dangers of invasions from without, and convulsions within.

He has endeavored to prevent the population of these States; for that purpose, obstructing the laws for the naturalization of foreigners; refusing to pass others to encourage their migration hither, and raising the conditions of new appropriations of lands.

He has obstructed the administration of justice, by refusing his assent to laws for establishing judiciary powers.

He has made judges dependent on his will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of new offices, and sent hither swarms of officers to harass our people, and eat out their substance.

He has kept among us in times of peace, standing armies, without the consent of our Legislatures.

He has affected to render the military independent of, and superior to, the civil power.

He has combined, with others, to subject us to a jurisdiction foreign to our constitutions, and unacknowledged by our laws; giving his assent to their acts of pretended legislation:

For quartering large bodies of armed troops among us;

For protecting them, by a mock trial, from punishment, for any murders which they should commit on the inhabitants of these States;

For cutting off our trade with all parts of the world;

For imposing taxes on us without our consent;

For depriving us, in many cases, of the benefit of trial by jury;

For transporting us beyond seas to be tried for pretended offenses;

For abolishing the free system of English laws in a neighboring province, establishing therein an arbitrary government, and enlarging its boundaries, so as to render it at once an example and fit instrument for introducing the same absolute rule into these colonies;

For taking away our charters, abolishing our most valuable laws, and altering, fundamentally, the forms of our governments;

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated government here, by declaring us out of his protection, and waging war against us.

He has plundered our seas, ravaged our coasts, burned our towns, and destroyed the lives of our people.

He is, at this time, transporting large armies of foreign mercenaries to complete the works of death, desolation and tyranny, already begun, with circumstances of cruelty and perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the head of a civilized nation.

He has constrained our fellow-citizens, taken captive on the high seas, to bear arms against their country, to become the executioners of their friends and brethren, or to fall themselves by their hands.

He has excited domestic insurrection among us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these oppressions, we have petitioned for redress, in the most humble terms; our repeated petitions have been answered only by repeated injury. A prince whose character is thus marked by every act which may define a tyrant, is unfit to be the ruler of a free people.

Nor have we been wanting in our attentions to our British brethren. We have warned them, from time to time, of attempts by their Legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them, by the ties of our common kindred, to disavow these usurpations, which would inev-

itably interrupt our connections and correspondence. They, too, have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our separation, and hold them, as we hold the rest of mankind, enemies in war, in peace, friends.

We, therefore, the representatives of the United States of America, in General Congress assembled, appealing to the Supreme Judge of the World for the rectitude of our intentions, do, in the name and by the authority of the good people of these colonies, solemnly publish and declare, that these United Colonies are, and of right ought to be, Free and Independent States; that they are also absolved from all allegiance to the British crown, and that all political connection between them and the State of Great Britain, is, and ought to be, totally dissolved; and that, as Free and Independent States, they have full power to levy war, conclude peace, contract alliances, establish commerce, and do all other acts and things which Independent States may of right do. And, for the support of this declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other, our lives, our fortunes and our sacred honor.

CONSTITUTION

OF THE

UNITED STATES OF AMERICA.*

We, the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution of the United States of America.

The actual enumeration shall be made within three years after the first meeting of the congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of representatives shall not exceed one for every thirty thousand, but each State shall have at least one representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to choose three; Massachusetts, eight; Rhode Island and Providence Plantations, one; Connecticut, five; New York, six; New Jersey, four; Pennsylvania, eight; Delaware, one; Maryland, six; Virginia, ten; North Carolina, five; South Carolina, five; and Georgia, three.

FILLING OF VACANCIES.

4. When vacancies happen in the representation of any State, the executive authority thereof shall issue writs of election to fill such vacancies.

OFFICERS—IMPEACHMENT.

5. The house of representatives shall choose their speaker and other officers, and shall have the sole power of impeachment.

SENATE—HOW COMPOSED.

Section III.

1. The senate of the United States shall be composed of two senators from each State, chosen by the legislature thereof, for six years, and each senator shall have one vote.

ROTATION OF SENATORS.

2. Immediately after they shall be assembled, in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the senators of the first class shall be vacated at the expiration of the second year; of the second class, at the expiration of the fourth year; and of the third class, at the expiration of the sixth year, so that one-third may be chosen every second year. And if vacancies happen by resignation, or otherwise, during the recess of the legislature of any State, the executive thereof may make temporary appointments until the next meeting of the legislature, which shall then fill such vacancies.

THEIR QUALIFICATIONS.

3. No person shall be a senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State for which he shall be chosen.

PRESIDENT OF THE SENATE.

4. The Vice-President of the United States shall be president of the senate, but shall have no vote unless they be equally divided.

SENATE OFFICERS.

5. The senate shall choose their other officers, and also a president pro tempore, in the absence of the Vice-President, or when he shall exercise the office of President of the United States.

THE SENATE'S POWERS.

6. The senate shall have the sole power to try all impeachments. When sitting for that purpose, they shall be on oath or affirmation. When the President of the United States is tried, the chief justice shall preside. And no person shall be convicted without the concurrence of two-thirds of the members present.

7. Judgment, in cases of impeachment, shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust or profit under the United States; but the party convicted shall, nevertheless, be liable and subject to indictment, trial, judgment and punishment according to law.

MEMBERS OF CONGRESS—HOW ELECTED.

Section IV.

1. The times, places and manner of holding elections for senators and representatives shall be prescribed in each State, by the legislature thereof; but the congress may, at any time, by law, make or alter such regulations, except as to the places of choosing senators.

WHEN CONGRESS SHALL MEET.

2. Congress shall assemble at least once in every year; and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

POWERS AND DUTIES OF EACH HOUSE.

Section V.

1. Each house shall be the judge of the elections, returns and qualifications of its own members; and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members, in such manner and under such penalties as each house may provide.

RULES, &C.

2. Each house may determine the rules of its proceedings, punish its members for disorderly behavior, and, with the concurrence of two-thirds, expel a member.

JOURNALS.

3. Each house shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may, in their judgment, require secrecy; and the yeas and nays of the members of each house, on any question, shall, at the desire of one-fifth of those present, be entered on the journal.

ADJOURNMENT.

4. Neither house, during the session of congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two houses shall be sitting.

COMPENSATION, PRIVILEGES AND INCAPACITIES.

Section VI.

1. The senators and representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the treasury of the United States. They shall, in all cases, except treason, felony, and breach of the peace, be privileged from arrest during their attendance at the session of their respective houses, and in going to and returning from the same; and for any speech or debate in either house, they shall not be questioned in any other place.

APPOINTMENT TO OFFICE.

2. No senator or representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States, which shall have been created, or the emoluments whereof shall have been increased, during such time; and no person holding any office

under the United States, shall be a member of either house during his continuance in office.

REVENUE BILLS.

Section VII.

1. All bills for raising revenue shall originate in the house of representatives; but the senate may propose or concur with amendments, as on other bills.

PASSING BILLS, &C.

2. Every bill which shall have passed the house of representatives and the senate, shall, before it become a law, be presented to the President of the United States; if he approve, he shall sign it; but if not, he shall return it, with his objections, to that house in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If, after such reconsideration, two-thirds of that house shall agree to pass the bill, it shall be sent, together with the objections, to the other house, by which it shall likewise be reconsidered, and if approved by two-thirds of that house, it shall become a law. But in all such cases the votes of both houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each house respectively. If any bill shall not be returned by the President within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law, in like manner as if he had signed it, unless the congress, by their adjournment, prevent its return, in which case it shall not be a law.

ORDERS AND RESOLUTIONS.

3. Every order, resolution or vote, to which the concurrence of the senate and house of representatives may be necessary (except on the question of adjournment), shall be presented to the President of the United States, and before the same shall take effect, shall be approved by him, or, being disapproved by him, shall be re-passed by two-thirds of the senate and house of representatives, according to the rules and limitations prescribed in the case of a bill.

POWERS OF CONGRESS.

Section VIII.

The congress shall have power:

1. To lay and collect taxes, duties, imposts and excises, to pay the debts and provide for the common defense, and

general welfare of the United States; but all duties, imposts and excises shall be uniform throughout the United States.

2. To borrow money on the credit of United States;
3. To regulate commerce with foreign nations, and among the several States, and with the Indian tribes;

18. To make all laws which shall be necessary and proper,

for carrying into execution the foregoing powers and all other powers vested by this constitution in the government of the United States, or in any department or officer thereof.

LIMITATIONS OF THE POWERS OF CONGRESS.

Section IX.

1. The migration or importation of such persons as any of the States now existing shall think proper to admit, shall not be prohibited by the congress, prior to the year one thousand eight hundred and eight, but a tax or duty may be imposed on such importation, not exceeding ten dollars for each person.

2. The privilege of the writ of habeas corpus shall not be suspended, unless, when in cases of rebellion or invasion, the public safety may require it.

3. No bill of attainder, or ex post facto law shall be passed.

4. No capitation or other direct tax shall be laid, unless in proportion to the census or enumeration hereinbefore directed to be taken.

5. No tax or duty shall be laid on articles exported from any State. No preference shall be given, by any regulation of commerce or revenue, to the ports of one State over those of another; nor shall vessels bound to or from one State, be obliged to enter, clear or pay duties in another.

6. No money shall be drawn from the treasury, but in consequence of appropriations made by law; and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.

7. No title of nobility shall be granted by the United States; and no person holding any office of profit or trust under them, shall, without the consent of the congress, accept of any present, emolument, office or title of any kind whatever, from any king, prince or foreign State.

LIMITATIONS OF THE POWERS OF INDIVIDUAL STATES.

Section X.

1. No State shall enter into any treaty, alliance or confederation; grant letters of marque and reprisal; coin money; emit bills of credit; make anything but gold and silver coin a tender in payment of debts; pass any bill of attainder, ex post facto law, or law impairing the obligation of contracts; or grant any title of nobility.

2. No State shall, without the consent of the congress,

lay any imposts or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws; and the net produce of all duties and imposts laid by any State on imports or exports, shall be for the use of the treasury of the United States; and all such laws shall be subject to the revision and control of the congress.

3. No State shall, without the consent of congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another State, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit delay.

ARTICLE II.

THE EXECUTIVE POWER.

Section I.

1. The executive power shall be vested in a President of the United States of America. He shall hold his office during the term of four years, and, together with the Vice-President, chosen for the same term, be elected as follows:

HOW ELECTED.

2. Each State shall appoint, in such manner as the legislature thereof may direct, a number of electors equal to the whole number of senators and representatives to which the State may be entitled in congress; but no senator or representative, or person holding an office of trust or profit under the United States, shall be appointed an elector.

ELECTORAL COLLEGES.

3. The electors shall meet in their respective States, and vote by ballot, for two persons, of whom one, at least, shall not be an inhabitant of the same State with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each; which list they shall sign and certify, and transmit, sealed, to the seat of the government of the United States, directed to the president of the senate. The president of the senate shall, in the presence of the senate and house of representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the President, if such number be a majority of the whole number of electors appointed; and if there be more than one who have such majority, and have an equal number of votes, then the house of representatives shall immediately

choose by ballot, one of them for President; and if no person have a majority, then from the five highest on the list, the said house shall in like manner choose the President. But in choosing the President, the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of the States shall be necessary to a choice. In every case, after the choice of the President, the person having the greatest number of votes of the electors, shall be the Vice-President. But if there should remain two or more who have equal votes, the senate shall choose from them, by ballot, the Vice-President. [See XIIth amendment.]

4. The congress may determine the time of choosing the electors, and the day on which they shall give their votes, which day shall be the same throughout the United States.

WHO MAY BE ELECTED PRESIDENT.

5. No person except a natural born citizen, or a citizen of the United States at the time of the adoption of this constitution, shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years, and been fourteen years a resident within the United States. [See XIIth amendment.]

ON THE DEATH, REMOVAL, &C., OF THE PRESIDENT, THE POWERS AND DUTIES DEVOLVE UPON THE VICE-PRESIDENT.

6. In case of the removal of the President from office, or of his death, resignation or inability to discharge the powers and duties of the said office, the same shall devolve on the Vice-President; and the congress may, by law, provide for the case of removal, death, resignation or inability, both of the President and Vice-President, declaring what officer shall then act as President, and such officer shall act accordingly, until the disability be removed, or a President shall be elected.

COMPENSATION OF THE PRESIDENT.

7. The President shall, at stated times, receive for his services a compensation which shall neither be increased nor diminished during the period for which he shall have been elected; and he shall not receive, within that period,

any other emolument from the United States or any of them.

8. Before he enters on the execution of his office, he shall take the following oath or affirmation:

THE OATH.

"I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States, and will, to the best of my ability, preserve, protect and defend the constitution of the United States."

POWERS, &C., OF THE PRESIDENT.

Section II.

1. STATE CONSTITUTION.

A CONSTITUTION agreed upon by the delegates of the people of New Jersey, in convention begun at Trenton on the fourteenth day of May, and continued to the twenty-ninth day of June, in the year of our Lord one thousand eight hundred and forty-four, ratified by the people at an election held on the thirteenth day of August, A. D. 1844, and amended at a special election held on the seventh day of September, A. D. 1875, and at another special election held on the twenty-eighth day of September, A. D. 1897.

We, the people of the State of New Jersey, grateful to Almighty God for the civil and religious liberty which He hath so long permitted us to enjoy, and looking to Him for a blessing upon our endeavors to secure and transmit the same unimpaired to succeeding generations, do ordain and establish this Constitution:

ARTICLE I.

RIGHTS AND PRIVILEGES.

1. All men are by nature free and independent, and have certain natural and unalienable rights, among which are those of enjoying and defending life and liberty; acquiring, possessing and protecting property, and of pursuing and obtaining safety and happiness.

2. All political power is inherent in the people. Government is instituted for the protection, security and benefit of the people, and they have the right at all times to alter or reform the same, whenever the public good may require it.

3. No person shall be deprived of the inestimable privilege of worshiping Almighty God in a manner agreeable to the dictates of his own conscience; nor, under any pretense whatever, to be compelled to attend any place of worship contrary to his faith and judgment; nor shall any person be obliged to pay tithes, taxes or other rates for building or repairing any church or churches, place or places of worship, or for the maintenance of any minister or ministry, contrary to what he believes to be right, or has deliberately and voluntarily engaged to perform.

4. There shall be no establishment of one religious sect in preference to another; no religious test shall be required as a qualification for any office or public trust; and no person shall be denied the enjoyment of any civil right merely on account of his religious principles.

5. Every person may freely speak, write and publish his sentiments on all subjects, being responsible for the abuse of that right. No law shall be passed to restrain or abridge the liberty of speech or of the press. In all prosecutions or indictments for libel, the truth may be given in evidence to the jury; and if it shall appear to the jury that the matter charged as libelous is true, and was published with good motives and for justifiable ends, the party shall be acquitted; and the jury shall have the right to determine the law and the fact.

6. The right of the people to be secure in their persons, houses, papers and effects, against unreasonable searches and seizures, shall not be violated; and no warrant shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched and the papers and things to be seized.

7. The right of a trial by jury shall remain inviolate; but the legislature may authorize the trial of civil suits, when the matter in dispute does not exceed fifty dollars, by a jury of six men.

8. In all criminal prosecutions the accused shall have the right to a speedy and public trial by an impartial jury; to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel in his defense.

9. No person shall be held to answer for a criminal offense, unless on the presentment or indictment of a grand jury, except in cases of impeachment, or in cases cognizable by justices of the peace, or arising in the army or navy; or in the militia, when in actual service in time of war or public danger.

10. No person shall, after acquittal, be tried for the same offense. All persons shall, before conviction, be bailable by sufficient sureties, except for capital offenses, when the proof is evident or presumption great.

11. The privilege of the writ of habeas corpus shall not be suspended, unless in case of rebellion or invasion the public safety may require it.

12. The military shall be in strict subordination to the civil power.

13. No soldier shall, in time of peace, be quartered in

any house without the consent of the owner; nor in time of war, except in a manner prescribed by law.

14. Treason against the State shall consist only in levying war against it, or in adhering to its enemies, giving them aid and comfort. No person shall be convicted of treason, unless on the testimony of two witnesses to the same overt act, or on confession in open court.

15. Excessive bail shall not be required, excessive fines shall not be imposed, and cruel and unusual punishments shall not be inflicted.

16. Private property shall not be taken for public use without just compensation; but land may be taken for public highways as heretofore, until the legislature shall direct compensation to be made.

17. No person shall be imprisoned for debt in any action, or on any judgment founded upon contract, unless in cases of fraud; nor shall any person be imprisoned for a militia fine in time of peace.

18. The people have the right freely to assemble together, to consult for the common good, to make known their opinions to their representatives, and to petition for redress of grievances.

19. No county, city, borough, town, township or village shall hereafter give any money or property, or loan its money or credit, to or in aid of any individual association or corporation, or become security for or be directly or indirectly the owner of any stock or bonds of any association or corporation.

20. No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever.

21. This enumeration of rights and privileges shall not be construed to impair or deny others retained by the people.

ARTICLE II.

RIGHT OF SUFFRAGE.

1. Every male citizen of the United States, of the age of twenty-one years, who shall have been a resident of this State one year, and of the county in which he claims his vote five months, next before the election, shall be entitled to vote for all officers that now are, or hereafter may be, elective by the people; provided, that no person in the military, naval or marine service of the United States shall be considered a resident in this State, by being sta-

tioned in any garrison, barrack, or military or naval place or station within this State; and no pauper, idiot, insane person, or person convicted of a crime which now excludes him from being a witness unless pardoned or restored by law to the right of suffrage, shall enjoy the right of an elector; and provided further, that in time of war no elector in the actual military service of the State, or of the United States, in the army or navy thereof, shall be deprived of his vote by reason of his absence from such election district; and the legislature shall have power to provide the manner in which, and the time and place at which, such absent electors may vote, and for the return and canvass of their votes in the election districts in which they respectively reside.

2. The legislature may pass laws to deprive persons of the right of suffrage who shall be convicted of bribery.

ARTICLE III.

DISTRIBUTION OF THE POWERS OF GOVERNMENT.

1. The powers of the government shall be divided into three distinct departments—the legislative, executive and judicial; and no person or persons belonging to, or constituting one of these departments, shall exercise any of the powers properly belonging to either of the others, except as herein expressly provided.

ARTICLE IV.

LEGISLATIVE.

Section I.

1. The legislative power shall be vested in a senate and general assembly.

2. No person shall be a member of the senate who shall not have attained the age of thirty years, and have been a citizen and inhabitant of the State for four years, and of the county for which he shall be chosen one year, next before his election; and no person shall be a member of the general assembly who shall not have attained the age of twenty-one years, and have been a citizen and inhabitant of the State for two years, and of the county for which he shall be chosen one year next before his election; provided, that no person shall be eligible as a member of either house of the legislature, who shall not be entitled to the right of suffrage.

3. Members of the senate and general assembly shall be elected yearly and every year, on the first Tuesday after the first Monday in November; and the two houses shall meet separately on the second Tuesday in January next after the said day of election, at which time of meeting the legislative year shall commence; but the time of holding such election may be altered by the legislature.

Section II.

1. The senate shall be composed of one senator from each county in the State, elected by the legal voters of the counties, respectively, for three years.

2. As soon as the senate shall meet after the first election to be held in pursuance of this constitution, they shall be divided as equally as may be into three classes. And members-elect of the senate or general assembly are hereby empowered to administer to each other the said oath or affirmation.

ARTICLE V.

EXECUTIVE.

1. The executive power shall be vested in a governor.

2. The governor shall be elected by the legal voters of this State. The person having the highest number of votes shall be the governor; but if two or more shall be equal and highest in votes, one of them shall be chosen governor by the vote of a majority of the members of both houses in joint meeting. Contested elections for the office of governor shall be determined in such manner as the legislature shall direct by law. When a governor is to be elected by the people, such election shall be held at the time when and at the places where the people shall respectively vote for members of the legislature.

3. The governor shall hold his office for three years, to commence on the third Tuesday of January next ensuing the election for governor by the people, and to end on the

Monday preceding the third Tuesday of January, three years thereafter; and he shall be incapable of holding that office for three years next after his term of service shall have expired; and no appointment or nomination to office shall be made by the governor during the last week of his said term.

4. The governor shall be not less than thirty years of age, and shall have been for twenty years, at least, a citizen of the United States, and a resident of this State seven years next before his election, unless he shall have been absent during that time on the public business of the United States or of this State.

5. The governor shall, at stated times, receive for his services a compensation which shall be neither increased nor diminished during the period for which he shall have been elected.

6. 7. Every bill which shall have passed both houses shall be presented to the governor; if he approve he shall sign it, but if not, he shall return it, with his objections, to the house in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it; if, after such reconsideration, a majority of the whole number of that house shall agree to pass the bill, it shall be sent, together with the objections, to the other house, by which it shall likewise be reconsidered, and if approved of by a majority of the whole number of that house, it shall become a law; but in neither house shall the vote be taken on the same day on which the bill shall be returned to it; and in all such cases, the votes of both houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each house respectively. If any bill shall not be returned by the governor, within five days (Sunday excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the legislature by their adjourn-

If any bill presented to the governor contain several items of appropriations of money, he may object to one or more of such items while approving of the other portions of the bill. In such case he shall append to the bill, at the time of signing it, a statement of the items to which he objects, and the appropriation so objected to shall not take effect. If the legislature be in session he shall transmit to the house in which the bill originated, a copy of such statement, and the items objected to shall be separately reconsidered. If, on reconsideration, one or more of such items be approved by a majority of the members elected to each house, the same shall be a part of the law, notwithstanding the objections of the governor. All the provisions of this section in relation to bills not approved by the governor shall apply to cases in which he shall withhold his approval from any item or items contained in a bill appropriating money.

8. No member of congress, or person holding an office under the United States, or this State, shall exercise the office of governor; and in case the governor, or person administering the government shall accept any office under the United States or this State, his office of governor shall thereupon be vacant. 9. The governor, or person administering the government, shall have power to suspend the collection of fines and forfeitures, and to grant reprieves, to extend until the expiration of a time not exceeding ninety days after conviction; but this power shall not extend to cases of impeachment.

10. 11. The governor and all other civil officers under this State shall be liable to impeachment for misdemeanor in office during their continuance in office, and for two years thereafter.

being, until another governor shall be elected and qualified; but in such case another governor shall be chosen at the next election for members of the legislature, unless such death, resignation or removal shall occur within thirty days immediately preceding such next election, in which case a governor shall be chosen at the second succeeding election for members of the legislature. When a vacancy happens, during the recess of the legislature, in any office which is to be filled by the governor and senate, or by the legislature in joint meeting, the governor shall fill such vacancy and the commission shall expire at the end of the next session of the legislature, unless a successor shall be sooner appointed; when a vacancy happens in the office of clerk or surrogate of any county, the governor shall fill such vacancy, and the commission shall expire when a successor is elected and qualified. No person who shall have been nominated to the senate by the governor for any office of trust or profit under the government of this State, and shall not have been confirmed before the recess of the legislature, shall be eligible for appointment to such office during the continuance of such recess.

13. In case of the impeachment of the governor, his absence from the State or inability to discharge the duties of his office, the powers, duties and emoluments of the office shall devolve upon the president of the senate; and in case of his death, resignation or removal, then upon the speaker of the house of assembly for the time being, until the governor, absent or impeached, shall return or be acquitted, or until the disqualification or inability shall cease, or until a new governor be elected and qualified.

[L. S.] hand and affixed my official seal, this twenty-sixth

seven.

BILLS AND JOINT RESOLUTIONS.

14. When a memorial or bill is referred to a committee praying or providing for an act of incorporation, or for any other act, notice of the application for which is required by law to be previously advertised, the committee shall not have leave to report such bill unless satisfactory evidence has been presented to the committee that the application for such act has had a bona fide advertisement according to law; and all committees reporting such bills referred to them shall certify to the Senate that such proof has been presented and is deemed satisfactory.

15. The titles of all bills and the parts of bills affected by amendments, together with the amendments, shall be entered on the Journal.

16. When leave is asked to bring in a bill, its title shall be read for the information of the Senate, and if objected to it shall be laid over for one day; and all public and pri-

vate bills and joint resolutions shall, after the first reading, be printed for the use of the Senate, but no other paper or document shall be printed without special order.

17. All bills and special reports of committees shall be numbered by the Secretary as they are severally introduced, and a list made of the same, and such bills and reports shall be called up by the President for consideration, in the order in which they are reported and stand upon the calendar, unless otherwise ordered; and the Secretary shall read from the said list or calendar, and not from the files of bills or reports.

18. No bill shall be committed or amended until it shall have been ordered to a second reading, after which it may be referred to a committee.

19. All bills may be made the order of a particular day, and public bills when called for shall have the preference of private bills; and when two or more bills shall be called for by Senators, they shall be taken up according to their seniority, reckoning from the date of their introduction.

20. On the second and third readings of bills and joint resolutions, printed copies thereof shall be used.

21. When bills or joint resolutions are introduced, the Secretary of the Senate shall forthwith deliver the same to the Supervisor of Bills, who shall prepare them for printing, in conformity with the rules defining the duties of said officer.

22. Original bills and joint resolutions, after being printed, shall be delivered by the Supervisor of Bills to the Secretary.

23. Bills and joint resolutions originating in and passed by the Senate and amended by the House, when concurred in by the Senate, shall be delivered by the Secretary to the Supervisor of Bills for re-printing.

24. Bills and joint resolutions which have passed their second reading, together with all amendments thereto, shall be delivered by the Secretary to the Supervisor of Bills, who shall see that the same are in proper form for printing for third reading.

25. When the Supervisor of Bills receives from the printer the bill or joint resolution ordered to a third reading and the same shall be found correct, he shall affix his official stamp to each page of the copy to be used as the official copy and intended to be submitted to the Governor for his approval, and shall deliver the same to the Secretary.

26. Two copies of every bill and of every joint resolution ordered to a third reading shall be printed on good bond

paper, to be approved by the Supervisor of Bills, one of which copies shall be retained in his office and the other of which shall be delivered to the Secretary to be used thereafter as the official copy of said bill or joint resolution.

27. The Supervisor of Bills shall have printed for the use of the members of the Legislature at least one hundred copies of every bill or joint resolution ordered to a third reading, which shall be known and designated as "Official Copy Re-print." The Supervisor of Bills shall deliver twenty-one copies of all bills and joint resolutions designated as "Official Copy Re-print" to the Secretary of the Senate, and sixty copies to the Clerk of the House, and he shall retain the remainder in his own custody for the use of State and Legislative officers.

28. Except as otherwise provided, the system and procedure which have heretofore prevailed shall be followed in the preparation of all bills and joint resolutions for their various readings as far as practicable.

29. The consent of the majority of the Senators present shall be sufficient to print or re-print any bill or joint resolution, but no bill or joint resolution shall pass unless there shall be a majority of all the Senators personally present and agreeing thereto, and the yeas and nays of Senators voting on the final passage of any bill or joint resolution shall be entered on the Journal and the like entry on any other question shall be made at the desire of any Senator.

30. Every bill and joint resolution shall receive three readings previous to its being passed; and the President shall give notice at each reading whether it be the first, second or third, which readings shall be on three different days; but no bill or joint resolution reported adversely by the committee to which it shall have been referred shall receive a second reading except upon motion for that purpose made by or in the presence of the introducer of such bill or joint resolution and concurred in by a majority of all the Senators.

31. The final question upon the second reading of every bill or joint resolution originating in the Senate shall be whether it shall be read a third time; and no amendment shall be received at the third reading unless by unanimous consent of the Senators present, but it shall be in order, before the final passage of any such bill or joint resolution, to move its recommitment, and should such recommitment take place and any amendment be reported by the committee, the said bill or resolution shall be again read a second time and considered and the aforesaid question again put.

32. When a bill or joint resolution shall have been lost, and reconsidered and lost again, the same shall not again be reconsidered but by the unanimous consent of the Senate.

33. Bills and joint resolutions, when passed by the Senate, shall be signed by the President.

34. When a Senate bill or joint resolution shall have been passed, the same shall be signed, taken to the House of Assembly, and its concurrence therein requested, without a motion for that purpose.

35. When a bill or resolution passed by the Senate shall be carried to the House of Assembly, all papers and documents relating thereto on the files of the Senate shall be carried by the Secretary, with such bill or resolution, to the House of Assembly.

MOTIONS AND THEIR PRECEDENCE.

36. When a motion shall be made, it shall be reduced to writing by the President or any Senator, and delivered to the Secretary at his table and read before the same shall be debatable.

37. All motions entered on the Journal of the Senate shall be entered in the names of the Senators who make them.

38. If the question in debate contains several points, any Senator may have the same divided; but a motion to strike out and insert, or to commit with instructions, shall not be divided.

39. The rejection of a motion to strike out and insert one proposition shall not prevent a motion to strike out and insert a different proposition, nor prevent a subsequent motion simply to strike out; nor shall the rejection of a motion simply to strike out prevent a subsequent motion to strike out and insert.

40. On filling blanks the question shall be first taken on the largest sum, the greatest number, and the most distant day.

41. When motions are made for reference of the same subject to a Select Committee, and to a Standing Committee, the question of reference to a Standing Committee shall be put first.

42. When a question is before the Senate, no motion shall be received but—

1. To adjourn.
2. To proceed to the consideration of Executive business.
3. To lay on the table.
4. To postpone indefinitely.
5. To postpone to a certain day.
6. To commit.
7. To amend.

Which several motions shall have precedence in the order in which they stand arranged.

43. The motion to adjourn, or to fix a day to which the Senate shall adjourn, shall always be in order, except when a vote is being taken or while a Senator is addressing the Senate.

44. The motions to adjourn, to proceed to the consideration of Executive business, and to lay on the table, shall be decided without debate.

45. A motion to strike out the enacting clause of a bill shall have precedence of a motion to amend, and if carried shall be equivalent to its rejection.

46. When a motion shall have been once made and carried in the affirmative or negative, it shall be in order for any Senator who voted on the prevailing side to move a reconsideration thereof on the same day or next succeeding day of actual session; but no motion for the reconsideration of any vote shall be in order after a bill, resolution, message, report, amendment or motion upon which the vote was taken, announcing their decision, shall have gone from the possession of the Senate, and they shall not pass from the possession of the Senate until the expiration of the time in which a reconsideration is permitted; and every motion for reconsideration shall be decided by a majority of votes, except a motion to reconsider the vote on the final passage of a bill or joint resolution, which shall require the same majority as is necessary for their final passage.

MEMBERS.

47. The seats within the bar shall be reserved exclusively for the Senators, the officers of the Senate, and the reporters of the press who may have seats assigned them.

48. No Senator shall speak in any debate without rising, nor more than three times on any subject of debate, unless he shall first obtain leave of the Senate.

49. Every Senator, in speaking, shall address the President, confine himself to the question under debate, and avoid personality.

50. Any Senator may change his vote before the decision of the question shall have been announced by the Chair.

51. No Senator shall have his vote recorded on any question, when the yeas and nays are called, unless he shall be present to answer to his name.

MESSAGES.

52. All messages shall be sent to the House of Assembly by the Secretary, under the direction of the President, as a standing order, without a vote thereon.

53. Messages may be delivered at any stage of the business, except when a vote is being taken.

54. When a message shall be sent from the Governor or House of Assembly to the Senate, it shall be announced at the door by the Sergeant-at-Arms.

SENATE BILLS IN THE HOUSE.

55. When an amendment made in the Senate to a bill from the House of Assembly shall be disagreed to by that House, and not adhered to by the Senate, the bill shall be considered as standing on a third reading.

56. An amendment of the House of Assembly to a Senate bill shall not be divisible.

57. In case of disagreement between the Senate and House of Assembly, the Senate may either recede, insist and ask a conference, or adhere, and motions for such purposes shall take precedence in that order.

58. When a Senate bill shall be returned, amended by the House of Assembly, the sections of the bill so amended, together with the amendments, shall be read by the Secretary for a first reading and be entitled to a second reading without special motion, at which reading the proposed amendments shall be open to the action of the Senate. And if, at its third reading, upon the question being put by the President, "Will the Senate concur in the House amendment to Senate bill No. —?" a majority of the whole Senate should, by a vote of yeas and nays, concur, the question shall then be upon ordering the bill to be re-printed. If so ordered, the bill shall be re-printed, the amendments embodied therein and the re-printed bill examined and reported by the Committee on Printed Bills and read in open Senate, to the end that it may be known to be correctly printed, and shall be then signed and certified as other bills.

DISORDER.

59. In case of any disturbance in the gallery or lobby, the President shall have power to order the same to be cleared.

60. The Sergeant-at-Arms shall aid in the enforcement of order, under the direction of the President.

61. No Senator, in speaking, shall mention a Senator then present by his name.

SPECIAL ORDERS.

62. When the hour shall have arrived for the consideration of a special order, the same shall be taken up, and

the Senate shall proceed to consider it, unless it shall be postponed by the Senate.

63. The unfinished business in which the Senate shall have been engaged at the last preceding adjournment shall have the preference in the special order of the day.

64. No concurrent resolution shall pass unless by the consent of a majority of the Senators elected.

SECRET SESSION.

65. On motion made and seconded to shut the doors of the Senate on the discussion of any business which may, in the opinion of a Senator, require secrecy, the President shall direct the chamber to be cleared, and during the discussion of such motion the doors shall remain shut.

RULES.

66. No standing rule or order of the Senate shall be suspended unless by the consent of two-thirds of the Senators elected, nor rescinded or amended but by the same number, and one day's notice shall be given of the motion for rescission or amendment.

EXECUTIVE SESSION.

67. When nominations shall be made by the Governor to the Senate, they shall, unless otherwise ordered by the Senate, be referred to appropriate committees; and the final question on every nomination shall be, "Will the Senate advise and consent to this nomination?" which question shall not be put on the same day on which the nomination is received, nor on the day on which it may be reported by a committee, unless by the unanimous consent of the Senate.

68. When acting on Executive business the Senate shall be cleared of all persons except the Senators and Secretary.

69. All information or remarks concerning the character or qualifications of any persons nominated by the Governor to office shall be kept a secret.

70. The Legislative and Executive proceedings of the Senate shall be kept in separate and distinct books.

71. All nominations approved by the Senate, or otherwise definitely acted on, shall be transmitted by the Secretary to the Governor, with the determination of the Senate thereon, from day to day, as such proceedings may occur; but no further extract from the Executive journal shall be furnished, published or otherwise communicated, except by special order of the Senate.

HOUSE OF ASSEMBLY.

RULES ADOPTED THIS YEAR.

OF THE MEETING OF THE HOUSE.

1. Any member or members less than a quorum may meet and adjourn the House from day to day, when necessary.

2. Every member shall attend in his place precisely at the hour to which the House was last adjourned; and in case of neglect, he shall be subject to a reprimand from the Chair, unless excused by the House; nor shall any member absent himself from the House for more than the space of a quarter of an hour without leave previously obtained.

3. In case a less number of members than a quorum shall be present after the arrival of the hour to which the House stood adjourned, they are hereby authorized to send their Sergeant-at-Arms, or any other person or persons by them authorized, with a warrant duly executed, for any and all absent members, as the majority of such as are present may agree, and at the expense of such absent members, respectively, unless such excuse for non-attendance shall be rendered as the House, when a quorum is convened, shall judge sufficient. Immediately after the appointment of the Standing Committees, the members shall arrange among themselves their several seats appropriated to their counties; and in case of disagreement, the same shall be decided by lot.

OF THE DUTIES OF THE SPEAKER.

4. He shall take the chair at the hour to which the House shall have adjourned, and immediately call the members to order; and on the appearance of a quorum, shall cause the journal of the preceding day to be read, which may then be corrected by the House.

5. He shall preserve order and decorum, and in debate shall prevent personal reflections, and confine members to the question under discussion; but he shall not engage in any debate, nor propose his opinion on any question, without first calling on some member to occupy the chair. When two or more members rise at the same time, he shall name the one entitled to the floor.

6. He shall decide questions of order, subject to an appeal to the House, when demanded by any four members, on which appeal no member shall speak more than once, unless by leave of the House.

7. All questions before the House shall be stated by the Speaker, and distinctly put in the following form, to wit: "As many as are in favor of (the question) will say aye;" and after the affirmative is expressed, "Those of a contrary opinion, no." If the Speaker doubts, or a division be called for, the House shall divide; those in the affirmative of the question shall first rise from their seats, and afterwards those in the negative; and in case of an equal division, the Speaker shall decide.

8. All Committees shall be appointed by the Speaker, unless otherwise specially directed by the House.

9. All acts, addresses and joint resolutions shall be signed by the Speaker; and all writs, warrants and subpoenas issued by the order of the House shall be under his hand and seal, and attested by the Clerk. If the Speaker be absent, a less number of members than a quorum may appoint a Speaker pro tempore, who may sign any warrants, or perform any act requisite to bring in absent members.

10. He shall have a general direction of the hall, and he may name a member to perform the duties of the Chair; but such substitution shall not extend beyond a second adjournment.

OF THE ORDER OF BUSINESS.

11. After the reading of the journal, the business of the first meeting of each day shall be conducted in the following manner, to wit:

I. Letters, petitions and memorials, remonstrances and accompanying documents may be presented and disposed of.

II. Reports of Committees may be read.

III. Original resolutions may be offered and considered; items of unfinished business referred; motions to reconsider and to appoint additional members of Committees made; and leave of absence, leave to withdraw documents, and leave to introduce bills asked.

LEAVE FOR BILLS AND TO INTRODUCE BILLS.

IV. Bills and joint resolutions on a third reading may be taken up.

V. The House shall then proceed in the order of the day, preference being always given to the unfinished business of the previous sitting; after which bills and joint resolu-

tions on a second reading shall be taken in their order; and the House, in its afternoon session, will proceed to business as though there had been no adjournment of its morning session, excepting that original resolutions, and leave to introduce bills of Committees, be the first business in the afternoon session; and shall, on demand of the majority, proceed with the order of the day.

12. The Clerk shall make a list of all public bills and joint resolutions. He shall keep a separate calendar of private bills. No bills for granting, continuing, altering, amending, or renewing a charter for any corporation, other than a municipal corporation, shall be placed on the calendar of public bills. All bills, public and private, shall be numbered according to the time of their introduction into the House. They shall be taken up and considered in the order of time in which they were reported, or ordered to a third reading, as appears by the calendar; and the calendar shall be proceeded in until all the bills thereon are called up before the commencement of the calendar anew. The Clerk shall post in a conspicuous place in his office a list of all hearings to be held on bills.

13. All messages shall be sent from this House to the Senate by the Clerk.

OF DECORUM AND DEBATE.

14. When a member is about to speak in debate, or communicate any matter to the House, he shall rise from his seat and respectfully address himself to the Speaker, confining himself to the question under debate, and avoiding personality.

15. If any member in debate transgress the rules of the House, the Speaker shall, or any member may, call him to order, in which case the member so called to order shall immediately sit down, unless permitted to explain. The House shall, if appealed to, decide on the case, but without debate; if there be no appeal, the decision of the Chair shall be submitted to. If the decision be in favor of the member called to order, he shall be at liberty to proceed; if otherwise, he shall not be permitted to proceed without leave of the House, and if the case require it, he shall be liable to censure of the House.

16. If a member be called to order for words spoken in debate, the person calling him to order shall repeat the words excepted to, and they shall be taken down in writing at the Clerk's table; and no member shall be held to answer, or be subject to the censure of the House, for words spoken in debate, if any other member has spoken,

or other business has intervened after the words spoken, and before exception to them shall have been taken.

17. No member shall speak more than twice, or longer than five minutes each time, without leave of the House.

18. While the Speaker is putting any question, or addressing the House, none shall walk out of or across the hall; nor in such case, or when a member is speaking, shall anyone entertain private discourse; nor shall anyone, while a member is speaking, pass between him and the Chair.

19. No member shall vote on any question in the event of which he is particularly interested, nor in any case where he was no. within the bar of the House when the question was put.

20. Every member who shall be in the House when the question is put shall give his vote, unless the House for special reasons shall excuse him. All motions to excuse a member from voting shall be made before the House divides, or before the call of the yeas and nays is commenced; any member requesting to be excused from voting may make a brief verbal statement of the reasons for such request, and the question shall then be taken without further debate.

21. Petitions, memorials and other papers addressed to the House shall be presented by the Speaker, or by a member in his place; a brief statement of the contents thereof shall be made by the introducer, and, if called upon, he shall declare that it does not, in his opinion, contain any indecent or reproachful language, or any expressions of disrespect to the House, or any committee of the same.

22. It shall be the duty of the Sergeant-at-Arms, at all times, not to allow any person to smoke in the Assembly chamber.

ON MOTIONS.

23. Every motion shall be reduced to writing, if the Speaker or any member desire it.

24. When a motion is made and seconded, it shall be stated by the Speaker, or being in writing, it shall be handed to the Chair and read aloud by the Clerk, when it shall be deemed to be in the possession of the House and open to debate; but it may be withdrawn at any time before a decision or amendment.

25. When a question is under debate no motion shall be received but—

1. To adjourn.
2. A call of the House.

3. To lay on the table.
4. For the previous question.
5. To postpone indefinitely.
6. To postpone to a day certain.
7. To go into a Committee of the Whole on the pending subject immediately.
8. To commit to a Committee of the Whole.
9. To commit to a Standing Committee.
10. To commit to a Select Committee.
11. To amend.

Which several motions shall have precedence in the order in which they are stated, and no motion to postpone to a day certain, to commit, or to postpone indefinitely, being decided, shall be again allowed on the same day, and at the same stage of the bill or proposition.

26. A motion to strike out the enacting clause of a bill or joint resolution shall have precedence of a motion to amend, and if carried shall be considered equivalent to its rejection.

27. A motion to adjourn shall be always in order, except when the House is voting, or while a member is addressing the House, or immediately after the question to adjourn has been negatived; that, and the motion to lay on the table, shall be decided without debate.

28. Any member may call for a division of the question, which shall be divided if it comprehends questions so distinct that one being taken away from the rest may stand entire for the decision of the House; a motion to strike out and insert shall be deemed indivisible; but a motion to strike out being lost, shall preclude neither amendment nor a motion to strike out and insert.

29. When any motion shall be made and seconded, the same shall, at the request of any two members, be entered on the Journal of the House.

30. When a motion has been once made and carried in the affirmative or negative, it shall be in order for any member who voted with the prevailing party to move for the reconsideration thereof, on the same day or on the next day of actual session of the House thereafter; all motions may be reconsidered, by a majority of the members present; but bills, to be reconsidered, must have the same majority that would be necessary to pass them; and such vote, on motion to reconsider, shall be by taking the yeas and nays.

31. When a blank is to be filled, the question shall first be taken on the largest sum, or greatest number, and remotest day.

32. The yeas and nays shall be entered on the Journal of the House, when moved for and seconded by five members, and in taking the yeas and nays the names of the members, including the Speaker, shall be called alphabetically.

33. The previous question shall be put in this form: "Shall the main question be now put?" It shall only be admitted when demanded by a majority of the members present, and its effect shall be, if decided affirmatively, to put an end to all debate, and bring the House to a direct vote upon amendments reported by a committee, if any, then upon pending amendments, and then upon the main question; if decided in the negative, to leave the main question and amendments if any, under debate for the residue of the sitting, unless sooner disposed of by taking the question, or in some other manner. All incidental questions of order arising after a motion is made for the previous question, and pending such motion, shall be decided, whether on appeal or otherwise, without debate.

34. After the Clerk has commenced calling the yeas and nays on any question, no motion shall be received until a decision shall have been announced by the Chair.

40. The rules of proceeding in the House shall be observed, as far as practicable, in Committee of the Whole, except that any member may speak oftener than twice on the same subject, but shall not speak a second time until every member choosing to speak shall have spoken; nor shall a motion for the previous question be made therein.

41. All amendments made in Committee of the Whole shall be noted by the Clerk, but need not be read by the

Speaker on his resuming the chair, unless required by the House.

ON BILLS AND JOINT RESOLUTIONS.

42. All bills and joint resolutions shall be introduced by motion for leave, or on the report of a committee, and the member offering the same shall indorse his name on them, that the committee may confer with him should they so desire.

43. Every bill and joint resolution shall receive three separate readings in the House previous to its passage, but no bill or joint resolution shall be read twice on the same day, without special order of the House.

44. All bills and joint resolutions shall, after their first reading, be printed for the use of the members, and referred to their appropriate committees.

45. All bills and joint resolutions may be made the order of a particular day, on which day they shall be taken up in preference to others on the calendar; and the calendar of private bills shall not be taken up until the calendar of public bills shall have been gone through with.

46. All bills and joint resolutions, previous to their final passage by the House, all petitions, motions and reports, may be committed at the pleasure of the House. And the recommitment of any bill or resolution, when the same has been ordered to a third reading, shall have the effect of placing the same upon the second reading.

47. Printed bills and joint resolutions shall be used on their second and third readings, and no amendment shall be received to any bill or joint resolution on its third reading.

48. When bills or joint resolutions are introduced, the Clerk of the House shall forthwith deliver the same to the Supervisor of Bills, who shall prepare them for printing in conformity with the rules defining the duties of said officer.

51. Bills and joint resolutions which have passed their second reading, together with all amendments thereto, shall be delivered by the Clerk to the Supervisor of Bills

who shall see that the same are in proper form for printing for third reading.

52. When the Supervisor of Bills receives from the printer the bill or joint resolution ordered to a third reading and the same shall be found correct, he shall affix his official stamp to each page of the copy to be used as the official copy and intended to be submitted to the Governor for his approval and shall deliver the same to the Clerk.

53. Two copies of every bill and of every joint resolution ordered to a third reading shall be printed on good bond paper, to be approved by the Supervisor of Bills, one of which copies shall be retained in his office and the other of which shall be delivered to the Clerk, to be used thereafter as the official copy of said bill or joint resolution.

54. The Supervisor of Bills shall have printed, for the use of the members of the Legislature, at least one hundred copies of every bill or joint resolution ordered to a third reading, which shall be known and designated as "Official Copy Re-print." The Supervisor of Bills shall deliver twenty-one copies of all bills and joint resolutions designated as "Official Copy Re-print" to the Secretary of the Senate, and sixty copies to the Clerk of the House, and he shall retain the remainder in his own custody, for the use of State and Legislative officers.

55. Except as otherwise provided, the system and procedure which have heretofore prevailed shall be followed in the preparation of all bills and joint resolutions for their various readings, as far as practicable.

56. On a motion to strike out any item in the incidental bill, the question to be submitted to the House shall be, "Shall the item be retained in the bill?" and a majority of all the members of the House shall be necessary to adopt the same.

57. After the introduction of any private bill, the applicants for said bill shall, at their own expense, furnish the usual number of copies for the use of the members, unless the printing thereof be dispensed with by a special order of the House.

58. On the question of the final passage of all bills and joint resolutions, the yeas and nays shall be entered on the Journal of the House.

59. Whenever a bill or resolution that has passed the House shall be carried to the Senate, all papers and documents relating thereto, on the files of the House, shall be carried with such bill or resolution to the Senate.

OF RULES.

60. No standing rule or order of the House shall be rescinded or changed without one day's notice being given of the motion therefor; nor shall any rule be suspended except by a vote of the majority of the whole number of members of the House.

61. When an Assembly bill is returned amended by the Senate, the report thereof by the Secretary of the Senate shall be taken as the first reading, and the same be entitled to a second reading, without a motion for that purpose; after its second reading, the question shall be, "Shall the Senate amendments to Assembly bill No. — have a third reading?" If ordered to a third reading, the amendments shall be read, but these readings shall be on different days; the question shall then be, "Will the House of Assembly concur in the Senate amendments to Assembly bill No. —?" upon which question the votes shall be by yeas and nays. If concurred in by a majority of the whole House, the bill shall be re-printed, the amendments embodied therein, and the re-printed bill examined and reported upon by the Committee on Printed Bills, and read in open Assembly, to the end that it may be known to be correctly printed, and then signed and certified as other bills.

62. Cushing's Manual shall in all cases, when not in conflict with the rules adopted by the House, be considered and held as standard authority.

63. No person shall be allowed on the floor of the House during its sessions except State officers and members and officers of the Senate, unless by written permission of the Speaker.

64. No committee of this House shall report a bill adversely without notifying the introducer of the bill; nor shall such adverse report be acted upon unless the introducer of the bill is in his seat.

65. After the calling of the roll has been commenced upon any question, no member shall be permitted to explain his vote.

66. Every bill amended in the House, after its report by the committee to which it was referred upon introduction, shall, when ordered to be printed and have a third reading, be delivered to the Committee on Bill Revision, whose duty it shall be to examine the same, and if it be found that such amendment agrees with the context the bill shall then be printed. If in the opinion of the committee such amendment is, as to form, improper, they shall report to

the House with such recommendation as they think fit. Such report shall be made promptly.

67. That hereafter any motion or resolution which will result in relieving a standing committee of a bill referred to it, shall not be entertained unless twenty-four hours' notice shall be given the House of the introduction of such motion or resolution; provided, however, that on a written request of fifteen members of the House, handed to the chairman of a committee, said committee shall, within two hours, report on the bill named in said request.

68. When a bill is introduced amending an existing law, it must, in the body of the bill, have all new matter underscored, and all portions of the law proposed to be omitted must be printed in its proper place, enclosed in black-faced brackets. Every bill which amends or supplements an existing law shall have printed thereon, under the number of the bill, the page of the General Statutes or the Pamphlet Laws at which is found the law proposed to be amended or supplemented.

All bills reported with amendments shall be immediately reprinted; the new matter must be underscored, and all matter proposed to be eliminated by amendment must be included in brackets.

It shall be the duty of the Speaker to direct the Clerk to cause any bill appearing on the calendar and not complying with this rule to be immediately amended and reprinted, so as to comply with the same, and when reprinted it shall be restored to its place on the calendar.

69. At each session of the House the Sergeant-at-Arms shall call the roll of officers and employes of the House, and shall report in writing, within twenty-four hours, to the chairman of the Committee on Incidental Expenses as to the attendance of said officers and employes.

The Committee on Incidental Expenses shall recommend such action as said report may show to be necessary.

JOINT RULES AND ORDERS

OF THE

SENATE AND GENERAL ASSEMBLY.

2. After each House shall have adhered to its disagreement, a bill or resolution shall be lost.

3. When a bill or resolution which shall have passed in one House is rejected in the other, notice thereof shall be sent to the House in which the same shall have passed.

4. Each House, in which any bill or resolution shall have passed, shall transmit therewith to the other House, all papers and documents relating to the same.

5. When a message shall be sent from either House to the other it shall be announced at the door of the House by the doorkeeper, and shall be respectfully communicated to the Chair by the person by whom it is sent.

6. The said committee shall report on the day of presentation to the Governor, which time shall also be carefully entered on the Journal of each House.

CONSTITUTIONAL COMMISSION OF 1873.

On April 4th, 1873, the Legislature passed a concurrent resolution empowering the Governor to appoint, by and with the advice of the Senate, a commission of two persons from each Congressional District, to suggest and propose amendments to the State Constitution for submission to and consideration by the next two Legislatures, and afterwards to be submitted to a vote of the people.

On April 24th, of the same year, Governor Parker nominated the following gentlemen, who were duly confirmed by the Senate:

First District—Benjamin F. Carter, Woodbury; Samuel H. Grey, Camden. Second District—Mercer Beasley, Trenton; John C. Ten Eyck, Mount Holly. Third District—Robert S. Green, Elizabeth; John F. Babcock, New Brunswick. Fourth District—Martin Ryerson and Jacob L. Swayze, both of Newton. Fifth District—Augustus W. Cutler, Morristown; Benjamin Buckley, Paterson. Sixth District—Theodore Runyon and John W. Taylor, both of Newark. Seventh District—Abraham O. Zabriskie and Robert Gilchrist, both of Jersey City.

Shortly afterwards Chief Justice Mercer Beasley declined to serve, and Philemon Dickinson, of Trenton, was appointed in his stead. Martin Ryerson resigned and Joseph Thompson, of Somerset, was appointed to fill the vacancy. Chancellor Theodore Runyon also declined and George J. Ferry, of Orange, was appointed in his stead. Ex-Chancellor Zabriskie was unanimously elected president of the Commission, and upon his decease, which occurred in a short time afterwards, Dudley S. Gregory, of Jersey City, was appointed to fill the vacancy in the Seventh District. John C. Ten Eyck was elected president, vice Zabriskie, deceased. The secretaries were Joseph L. Naar and Edward J. Anderson, both of Trenton. Subsequently Robert Gilchrist resigned and William Brinkerhoff, of Jersey City, was appointed in his place. John W. Taylor also resigned and Algernon S. Hubbell, of Newark, was appointed in his place.

The first session of the Commission was held on May 8th, 1873, and the last on December 23d, of the same year. The amendments submitted were partially adopted by the two succeeding Legislatures, and were ratified by a vote of the people at a special election held on September 7th, 1875.

CONSTITUTIONAL COMMISSION

1894.

In pursuance of a Joint Resolution of the Legislature, approved on May 17th, 1894, "for the appointment of Commissioners to report amendments of the system of jurisprudence of this State, and provide for the election of certain officers by the people," Governor Werts sent the following nominations to the Senate, all of which were confirmed:

At Large—John P. Stockton, Trenton; Allan L. McDermott, Jersey City; Samuel H. Grey, Camden; and William Walter Phelps, Englewood.

First District—George Hires, Salem; Howard Carrow, Camden. Second District—William M. Lanning, Trenton; Edward D. Stokes, Mount Holly. Third District—Henry Mitchell, Asbury Park; George C. Ludlow, New Brunswick. Fourth District—John Franklin Fort, East Orange; Carman F. Randolph, Morristown. Fifth District—Garret A. Hobart, Paterson; John D. Probst, Englewood. Sixth District—Edward Balbach, Jr., and Frederick Frelinghuysen, Newark. Seventh District—Edwin A. Stevens, Hoboken; Joseph D. Bedle, Jersey City. Eighth District—John Kean, Jr., Elizabeth; John McC. Morrow, Newark.

Messrs. Hobart and Balbach declined to serve on the Commission, and their places were filled by the appointment of Eugene Emley, of Paterson, and E. Cortlandt Drake, of Newark.

On Tuesday, June 5th, the Commission met in the Senate Chamber, at Trenton, and organized by the election of Samuel H. Grey as President; George C. Ludlow, Vice President, and Joseph L. Naar, of Trenton, Secretary. The last session of the Commission was held on September 25th. Several amendments were suggested by the Commission and submitted, through the Governor, to the Legislature, none of which were adopted by that body.

STATE INSTITUTIONS.

THE STATE CAPITOL.

This edifice, a massive structure, erected at sundry times and various periods, is located on West State street, at the corner of Delaware street, running thence westerly along State street to the grounds of the late ex-Chancellor Green, and southerly to the Water Power. The location is a good one, and the building presents a very imposing appearance.

The seat of Government was fixed at Trenton by an act of the Legislature, approved November 25th, 1790. James Cooper, Thomas Lowery, James Ewing, Maskell Ewing, George Anderson, James Mott and Moore Furman were appointed commissioners to select, purchase or accept so much land as was needed, and to erect thereon suitable buildings for the use of the Legislature. They purchased the present site, containing about three and three-quarters acres—a frontage on Second street (now West State street) of 247 feet and 6 inches, and a depth from the front to low water line of the Delaware river of 666 feet—at a cost of £250 5s. The old State House was a plain, bare-looking, rough-cast building, and was erected at a cost of £3,992 3s. ½d. By an act of March 4th, 1795, a building was erected to serve as an office for the Secretary of State, and for the preservation of the public records, at a cost of £620 19s. 10d. Numerous improvements and repairs were made, and on March 3d, 1806, an act was passed appointing commissioners to make certain repairs to the State House, to provide and hang a suitable bell, &c. This was done, and the bell was used for informing the members of both houses, as well as the courts, of the hour of meeting. The bell was eventually discarded, and an American flag substituted, which waves from the building unto this day, when the Legislature is in session, and upon holidays and State occasions. In 1848, the State House was altered by the removal of the rough-casting, and changing the front to the style of the Mercer County Court House, placing neat porticoes over the front and rear entrances, and erecting two additional buildings adjoining the main one, as offices for the Clerks of the Chancery and Supreme Courts. The rotunda was also erected, and the grounds fenced, graded, laid out and shade trees planted, all at a cost of \$27,000. The commis-

sloners under whose direction the work was completed, were Samuel R. Gummere, Samuel R. Hamilton and Stacy A. Paxson. In 1863, '64 and '65, appropriations were made and expended in building additions for the State Library, Executive Chambers, &c. In 1871, Charles S. Olden, Thomas J. Stryker and Lewis Perrine were appointed commissioners to cause a suitable addition to be built—more commodious apartments for the Senate and Assembly, &c. The sum of \$50,000 was appropriated, and the buildings for the Legislature were ready for occupancy in time for the meeting of the Legislature in 1872. In 1872, \$120,000 was appropriated for completing the building, \$3,000 for fitting up the Executive Chamber, \$4,000 for fitting up the Chancery and Supreme Court rooms, and \$2,000 for fitting up the offices on the first floor of the east wing. In 1873, the sum of \$43,000 was appropriated for the improvement of the front of the building, completing unfinished repairs and improvements, and for fitting up the Library, &c. On March 18th, 1875, the sum of \$15,000 was appropriated for the purpose of putting a new three-story front to the building, and to fit up offices on the second floor for the Clerks of the Court of Chancery and Supreme Court, and for providing a suitable museum for geological specimens, and the battle-flags of New Jersey volunteer regiments, carried during the war of the Rebellion.

On March 21st, 1885, the front portion was destroyed by fire, and the Legislature appropriated \$50,000 for rebuilding, and, in 1886, an additional appropriation of \$225,000 was granted.

The new building was finished in 1889. It is of rectangular shape and of the Renaissance style of architecture, with a frontage of one hundred and sixty feet on State street, with a depth of sixty-seven feet, and three and a half stories high, with a rotunda thirty-nine feet across, which connects the new section of the Capitol with the original part. The rotunda is surmounted by a dome one hundred and forty-five feet high.

The building has about sixty feet more frontage than the former one, and approaches about ten feet nearer the street.

The walls are constructed of solid, fire-proof, brick masonry, faced with a light-colored stone from Indiana, known as Salem Oolitic, with foundations and trimmings of New Jersey free stone, from the Prallsville quarries, in Hunterdon county. The portico, door-head and trim-

mings about the door are of the same material. The portico, with balcony, is supported by massive pillars of polished granite and surmounted by the coat of arms of the State.

The apartments used for offices are very spacious, fitted throughout in the most approved modern style, and each department is supplied with one or more of the finest fire-proof vaults. The first and second stories are set aside for offices, and the entire third story is used for the State Library.

The old State Library apartments have been improved and extended, and are now used as offices for the Attorney-General, State Superintendent of Public Instruction and Commissioner of Banking and Insurance. A new story was added, which is used for the Geological Museum and State offices.

In 1891, a new Assembly Chamber was erected. The old one was too small and poorly ventilated, and besides, there was a lack of suitable committee rooms. The Legislature of 1891 passed a Joint Resolution, which was approved on March 20th, authorizing the Governor "to provide a suitable chamber and committee rooms for the use of the General Assembly of this State," &c., and also, "to make such additions and alterations as will afford the necessary accommodations for the Supreme Court and Court of Errors and Appeals, or for other State offices, and sufficient money is hereby appropriated for that purpose, to be paid by the Treasurer of this State on the warrant of the Comptroller, after approval by the Governor."

The new chamber was built by James W. Lanning, of Trenton, from plans prepared by James Moylan, of Jersey City, and under the superintendency of Bernard J. Ford of Newark. It covers the site of the former chamber, and extends beyond it to Delaware street on the east and to the water power on the south. It has a frontage on Delaware street of 120 feet and a depth of 75 feet. The exterior finish and design of the building are similar to the adjoining portion of the Capitol. The foundation is of brown stone, from the Stockton quarries, and the trimmings of light Indiana stone. The interior is finished in Trenton tile, quartered oak and Italian statuary marble. It is a fire-proof building throughout, and is specially ventilated. The committee rooms are ample and convenient, and the interior design arrangement and finish make it a model legislative chamber. It cost the

State \$140,500. The cost of the steam heating and ventilating systems was about \$25,000.

The other new addition to the Capitol provides a consultation room for the Judges of the Supreme Court and the Court of Errors and Appeals and a private room for the Governor, a room for the Museum of the Geological Survey, and other offices, and cost \$34,500.

An electric light apparatus was also placed in the Capitol, which cost \$23,000. Every department in the building is now lighted by electricity.

Two Otis elevators have been placed in the building, which gives easy access to all the upper floors.

In 1900 the Legislature appropriated \$96,000 for additions and alterations to the Capitol, which included the cost of an electric light plant.

A new Senate Chamber was erected in 1903, and was ready for occupancy in 1904, at a cost of about \$182,000. In 1904 about \$60,000 was expended for other improvements in the Capitol.

Another addition was made to the Capitol in 1907 at a cost of about \$100,000. It is a massive structure of a classical style of architecture and is finished in stucco to match the rest of the Capitol. It contains four stories above a deep basement. The construction is fire-proof, consisting of solid brick walls, steel beams and columns and concrete floors. The exterior is attractive with its classic lines and Indiana limestone trimmings. The structure was designed and all the plans drawn by George E. Poole, State Architect.

THE STATE LIBRARY.

This valuable collection of books is located on the third floor of the State Capitol. The old saying, "Great oaks from little acorns grow," most appropriately applies to this institution.

The first library of the State was a case ordered to be procured by Maskell Ewing, Clerk of the House of Assembly, for the keeping and preservation of such books as belonged to the Legislature. It was ordered by a resolution passed March 18th, 1796. This was the nucleus of the present extensive library. On February 18th, 1804, William Coxe, of Burlington; Ezra Darby, of Essex, and John A. Scudder, of Monmouth, were appointed a Committee on Rules to make a catalogue; they reported that there were 168 volumes belonging to the State, and presented a code of seven rules, which was adopted. On

February 10th, 1813, an act (the first one) was passed, entitled "An act concerning the State Library." Up to 1822 it appears that the Clerk of the House had charge of the books, as Librarian, and, on November 16th, 1822, an act was passed for the appointment of a State Librarian, annually, by joint meeting. In 1846, on April 10th, an act was passed making the term of office three years. The Law Library at that time belonged to the members of the Law Library Association. The only persons allowed the use of the Library were members of the Association, the Chancellor, and the judges of the several courts. Stacy G. Potts was Treasurer and Librarian of the Association. The Law Library was kept in the Supreme Court room until 1837, when the Legislature authorized the State Librarian to fit up a room adjoining the Library for the care and reception of the books and papers belonging to the State Library. Thus the two Libraries were consolidated. On March 13th, 1872, \$5,000 per year for three years was appropriated for the Library by the Legislature, and by the act of March 15th, 1876, the sum of \$2,500 was appropriated for finishing and refurnishing the Library room. In 1890, the Library was removed to the third story of the new part of the Capitol.

In 1904 the Legislature made a special appropriation of \$15,000 for the installation of steel stacks, and the shelf-space was doubled. There is room now for more than 125,000 books and pamphlets. About the same time the decimal classification system was introduced and the work of making a modern card catalogue begun, which was practically finished in 1905.

THE STATE ARSENAL.

The building now used as the State Arsenal was formerly the old State Prison. It is situate on Second street, in the Sixth Ward of the city of Trenton, and has on its front the following inscription:

Labor, Silence, Penitence.
 The Penitentiary House.
 Erected by Legislative Authority.
 Richard Howell, Governor.
 In the XXII. Year of American
 Independence, MDCCXCVII.
 That Those Who Are Feared For Their
 Crimes May Learn to Fear the Laws
 And be Useful.
 Hic Labor, Hoc Opus.

In the messages of Governors P. D. Vroom and S. L. Southard, recommending the erection of the new prison, it was proposed that the old one be converted into an Arsenal for the safe keeping of the arms and military property of the State, which, previous to that time, had been kept in the old State Bank, corner of Warren and Bank streets, with accoutrements and camp and garrison equipage at the State House. After the removal of the State convicts from the old prison, permission was given to the county of Mercer to occupy it as a jail until its jail, then in course of completion, was finished, and when it was again vacated it was converted into an arsenal.

Among the stores, &c., at the Arsenal are one bronze gun, French, of the date of 1758; two bronze guns, English, four-pounders, and two iron six-pounders. There is also one gun captured at the battle of Trenton, December 26th, 1776, and two guns captured at Yorktown, October 19th, 1781. There are also a large quantity of fire-arms, ammunition, ordnance, tents, clothing, blankets, &c.

STATE HOSPITAL.

Trenton.

This institution is located on the right bank of the Delaware River, about two miles northwest of the City Hall. The buildings are constructed of reddish sandstone, obtained from quarries near the hospital, and are located on an elevation of about seventy-five feet above the river. The front of the Main, or Administration Building, is ornamented by a handsome porch of Ionic architecture, designed by the celebrated Notman, from which may be obtained one of the finest landscape views in the State.

In 1844, after repeated and unsuccessful attempts to cause action to be taken by the Legislature for the building of a State institution for the special care and treatment of the insane, a commission was appointed, chiefly through the earnest efforts of Dr. Lyndon A. Smith, of Essex, and Dr. Lewis Condict, of Morris, and the eminent philanthropist, Miss D. L. Dix, to select a site. An appropriation of \$35,000 was made to purchase the land and to commence the erection of the building. The present site was selected by the commissioners from among many that were offered in various sections of the State, because of

the large spring of excellent water found on the place. This spring was developed, and furnished a daily supply of about one-half million of gallons of pure water for many years. In the severe drought of 1880 the supply was greatly diminished, falling off nearly two hundred and fifty thousand gallons. In 1907 the city sewer, running about 200 feet from the spring, burst or overflowed, and this caused contamination of the water supply, resulting in a typhoid epidemic, so that it was necessary to discontinue the use of the spring. At present the hospital is supplied with water by six artesian wells, one of which gives 150 gallons of water per minute. The spring has been filled up, and thus an important landmark destroyed.

Work was commenced on the main building in November of 1845, and the hospital was opened for the reception of patients on the 15th day of May, 1848. Numerous additions have been made from time to time to the building, increasing its capacity from fifty patients, in 1848, to 1,348 in 1908.

In 1887 the Legislature passed an act appropriating \$100,000 for providing additional accommodations. The new building is a handsome structure of red sandstone, and similar to that used in the main building. This is five hundred feet long, three stories in height, and capable of accommodating three hundred patients, one hundred and fifty of each. The building is designed to accommodate the chronic incurable class, and was a great relief from the overcrowded state that existed in the main building prior to its completion. The building was completed within the appropriation, and opened for the reception of patients in the month of October, 1889.

Since the opening of the institution in May, 1848, there have been received and treated 13,480 patients. At the close of the fiscal year, October 31st, 1908, there were under care of the hospital 1,302 patients—654 men and 648 women. Much has been done for the comfort and pleasure of the patients. A greenhouse has been erected for the purpose of furnishing plants and flowers for the patients' corridors, handsome pictures adorn the walls, and everything about the hospital presents a comfortable and homelike appearance.

The institution possesses a library, one of the larg-

est, if not the largest, in this country, connected with a hospital for the insane. The books are accessible to all members of the household. They have been freely used, and do much to relieve the monotony of many an hour of hospital life. The library now consists of about 4,000 volumes, and is the result of the bequest of a former nurse (Anne Robinson) who, by will, bequeathed her earnings for several years as a nurse and attendant in this hospital. She made the bequest, as she herself expressed it when making her will, for the purpose of purchasing books to be used for the pleasure and benefit of those to whom she had, for so many years, endeavored to minister.

During the year 1898 a handsome amusement room, capable of seating about four hundred, was finished; also, a large and commodious chapel, in which religious exercises are held from time to time; various clergymen, without regard to denominational preference, officiate every Sunday. The new chapel is capable of seating about five hundred patients. In 1904-1905 an appropriation of \$250,000 was made for the erection of two additional wings to the annex building, which will accommodate 400 more patients. In 1905 the Legislature appropriated \$12,500 for the construction of fire escapes.

A few years ago a modern laboratory building was erected, and at the present time is fully equipped for scientific work.

In 1907 the new wings, spoken of above, were opened for the reception of patients, so that now the hospital is not overcrowded.

In 1908 the Legislature appropriated \$111,000 for extraordinary improvements, which included installation of modern plumbing throughout the buildings, also tiling for toilet rooms, water sections, etc.

The building for tuberculosis patients is now being erected, which will accommodate twenty-five, known as the "open air" ward.

Since January 1st, 1908, there has been no mechanical restraint of any kind used in the hospital. All restraint apparatus, chairs, straight jackets, straps, etc., have been removed from the hospital building, and are stored away where no one can get at them.

STATE HOSPITAL.

Morris Plains.

Further provision for the accommodation of the insane being made necessary by the overcrowded condition of the State Hospital at Trenton, the Legislature of 1871 appointed a commission to select a site and build a hospital in the northern part of the State.

At a cost of \$78,732.36 a tract of 408 acres of land, beautifully situated in the hills of Morris County, was purchased and work on the hospital buildings begun.

Additional tracts of land have since been purchased at a cost of \$32,318.00, making a total of 852 acres, at a total cost of \$111,050. The original building, now known as the "Main Building," was erected, at a cost of \$2,511,622. The "Dormitory Building" and a new reservoir, made necessary by its construction, cost, when completed, about \$650,000; a new laundry building the annual appraisal placed the personal property of the hospital at \$294,709, thus making the total cost of the entire plant approximately \$3,605,581.

The location is ideal for an institution caring for the mentally afflicted, and is unsurpassed in this particular by any similar institution in the United States. The buildings command a magnificent view of the surrounding country, and the air is cool and balmy in Summer and crisp and stimulating in Winter.

The main building, opened in 1876, is four stories in height, 1,243 feet in length, 542 in depth, and has ten acres of floor space. It contains the executive offices, reception rooms, medical library, chapel, amusement hall and forty wards, which, when crowded to their full capacity, will accommodate 1,200 patients.

In 1901 the dormitory building was completed. It is situated 1,200 feet in the rear of the main building, accommodates 600 patients, and is constructed on the day room and dormitory plan. On the fourth floor of the building are well-equipped pathological and chemical laboratories, five splendidly-lighted rooms on the top floor of the northeast tower being devoted to this work. The laboratories have been well equipped with many of the latest and best instruments for the prosecution of scientific, clinical and research work, and have proved to be a highly important adjunct to the purely psychiatric work of the hospital.

A cottage for nurses was built in 1906. This is a

three-story brick building, trimmed with sandstone, and is situated in front and to the south of the main group of buildings. It is within easy access of the female wards, and affords sleeping quarters for forty female nurses, who formerly, after working dally fifteen hours with the insane, were compelled to spend their nights in the wards, in close proximity to noisy and disturbed patients. In addition to furnishing accommodation for the night, the cottage has a reception room and library, where the nurses may spend their time when off duty.

A Training School for Nurses was established in 1894, and it has proved to be of great advantage to the hospital in the humane care and treatment of the insane. A graded two-years' course is given to the nurses, and consists of lectures and practical demonstrations given by the medical staff in anatomy, physiology, materia medica and therapeutics, chemistry and toxicology, obstetrics and gynecology, genito-urinary diseases, practice of medicine, minor surgery, practical bedside nursing and bandaging. The course is compulsory upon all who are employed as attendants, and since the establishment of the school 154 persons have been granted diplomas.

Further provision for the scientific treatment of patients has been made by the equipment of rooms, both in the male and in the female departments, with complete hydortherapeutic apparatus and by the installation of electrotherapeutic appliances, and a powerful static machine in a room in the main building, convenient to both male and female departments.

A room has also been set apart and fully equipped with instruments and appliances for the examination and treatment of patients suffering from diseased conditions of the eye, ear, nose and throat.

The medical library contains over 1,300 volumes of carefully-selected text books and reference works on medical and other scientific subjects, together with well-bound volumes of the annual reports of every hospital for the insane in the United States, Canada, South American States and many of the countries in Europe.

Among the many improvements added in recent years is a new system of keeping case records. The complete record of each patient from the time he enters the hospital until he is discharged is kept in a separate envelope, filed vertically in steel cabinets especially constructed for the purpose. The files are

thoroughly cross-indexed, which permits of needful information being rapidly and easily obtained in any given case.

Additional protection from fire is being provided for the patients by the installation of five spiral fire escapes of the most approved form.

In order to give the hospital a better mail service, the government, on March 23, 1908, established a new post office in the main building of the hospital, and named it Greystone Park. The mail matter of the institution was formerly handled at Morris' Plains post office, which is one and one-half miles from the building. This frequently occasioned considerable delay in the delivery of important letters, and the new office is found to be of great convenience to the hospital community.

Since the opening of the hospital, in 1876, 8,877 patients have been admitted, 2,133 have been cured, 1,389 discharged in a greatly improved mental condition, and 581 discharged unimproved. The institution has an average yearly increase of about fifty in population. On September 1, 1908, there were 1,950 patients under care and treatment in the hospital.

NORMAL AND MODEL SCHOOLS.

Trenton.

These schools are the property of the State, and are located at the junction of Perry street and Clinton avenue, Trenton. There are two buildings, the one for the schools located on the west side of Clinton avenue, the other, containing the boarding halls and dormitories, situated on the east side of the avenue. These schools were established in 1855 by an act of the Legislature. The purpose of the Normal School was defined to be "the training and education of its pupils in such branches of knowledge, and such methods of teaching and governing, as will qualify them for teachers of our common schools." The Model School was designed to be a place where "the pupils of the Normal School shall have opportunity to observe and practice the modes of instruction and discipline inculcated in the Normal School, and in which pupils may be prepared for the Normal School.

The following figures show the first cost to the State and the present valuation of the Normal School property. The first cost to the State has been supplemented from time to time by the contributions of private individuals, and by balances from the Boarding Hall receipts after meeting the annual expenses of the Hall.

THE MONTCLAIR STATE NORMAL SCHOOL.

Montclair, Essex County.

The increasing demand for professionally trained teachers, and the inability of the present State Normal School, at Trenton, to meet it, led to the passage of a resolution by the Legislature of 1902 directing the State Board of Education to investigate as to the need of increased normal school accommodations and how best to provide them, should the board find the present accommodations inadequate.

In its study of the question the board discovered that there were 7,561 teachers in the public schools of the State, and that of this number 2,224 were graduates of normal schools, 457 were college graduates, and 1,663 graduates of city training schools, leaving 3,217 teachers, or nearly one-half of the entire number, who had not had any special training. Of the graduates of normal schools employed, nearly forty per cent. came from other States, notwithstanding the fact that the New Jersey State Normal School was working to its full capacity.

In its report to the Legislature in 1903 the board recommended that a normal school be erected in the northern part of the State. In 1904 the Legislature appropriated \$25,000 for the purchase of a site. The board, after inspecting numerous sites, finally purchased a plot in the northern part of Montclair, in Essex County, at a cost of \$25,000. The plot contains twenty-five acres and is 400 feet above sea level, giving an uninterrupted view of Newark and surrounding towns and of the bridges and skyscrapers of New York City. The plot is large enough to accommodate the school building and dormitories, should it be found necessary in the future to provide them, and also to give a large campus and sufficient ground for illustrating methods of teaching agriculture, which will in the near future be as important a subject in the

ing, \$18,200; the nurses' cottage, \$20,000, and in 1907 curriculum of a well organized normal school as illustrating the methods of teaching chemistry or literature is at present. Within a radius of ten miles from the site selected there is a population of more than one million.

In 1906 the Legislature appropriated \$275,000 for the erection and furnishing of the building. The plans were prepared by State Architect George E. Poole and Assistant Architect Francis H. Bent, of the Department of Charities and Corrections. The mission style of architecture was adopted, and the material is brick covered with pure white stucco, the roof being red tile. The building is 334 feet long and 133 feet deep, the centre and wings projecting. In front is an esplanade 260 feet long and 44 feet wide, protected by a concrete wall from which steps descend to the lawn.

In the basement are the manual training and domestic science rooms, four rooms for observation classes, locker and dressing rooms, showers, recreation and lunch rooms.

On the main floor are the board room, the principal's offices, a library 32x60 feet, the study hall and gymnasium, each 57x76 feet, two large lecture rooms and eight class rooms. The study hall and gymnasium have ceilings twenty-five feet high, giving ample space for gallery and running track, respectively.

On the second floor is the drawing room, 32x60 feet, with high ceiling and north light, three lecture rooms, large laboratories for chemistry, physics, botany and zoology, and dark rooms for photography. Teachers' rooms are provided on each floor.

The finish is in hard pine, except the study hall, which is in white and gold. The study hall will also be used as the auditorium. The walls of the laboratories are of white tile and the floors of cement. The walls of the gymnasium are of cream-colored brick.

The heating and ventilating plant is in a separate structure, located some distance from the main building. The cost of the buildings, exclusive of furniture and grading, will be less than \$250,000.

The school was formally opened on Monday, September 28, 1908. Addresses were made by Governor Fort, President Hays, of the State Board of Education, Edward Russ, chairman of the Building Committee, and others.

The regular sessions of the school began September 15, 1908, with an attendance of 187 pupils.

The Principal is Dr. Charles S. Chapin, formerly Principal of the Rhode Island State Normal School.

The school may be reached in three ways:

1. By Erie Railroad—Greenwood Lake Division. The Montclair Heights station adjoins the grounds of the Normal School.

2. By D. L. and W. Railroad to Montclair station, thence by Valley Road trolley to the grounds.

3. By Bloomfield Avenue trolley with transfer at Valley Road to Valley Road trolley.

Passengers by the Pennsylvania Railroad to Newark can take Bloomfield Avenue trolley at Newark station.

Passengers by the Central Railroad of New Jersey to Newark can take Bloomfield Avenue trolley at corner of Market and Broad Streets, Newark.

THE STATE HOME FOR BOYS.

"The New Jersey State Reform School" was established by act of the Legislature approved April 6th, 1865. A farm of 490 acres was purchased for the purpose near Jamesburg, Middlesex county.

The first boy was received July 6th, 1867. Its first Superintendent was Rev. Luther H. Sheldon, who was in office from April 10th, 1867, till April 1st, 1874, and was succeeded by James H. Eastman, who was Superintendent from April 1st, 1874, till September 15th, 1884. Upon his withdrawal Ira Otterson was made acting Superintendent, and on December 10th, 1884, he was elected Superintendent. In 1902 Mr. Otterson was succeeded by John Wildes who, March 1, 1904, gave way to John C. Kalleen. In 1900 the name of The Reform School was changed to the State Home for Boys.

Since founding the school, beside the Administration building, there have been erected on the campus eight family buildings (two of them double buildings), capable of accommodating fifty boys each, a chapel, hospital, store and cook house, industrial building, electric light, heat and power, generating station and farm buildings, all of brick, many of the buildings constructed with bricks manufactured by the boys on the place.

Besides domestic and farm labor, all boys are instructed in the rudiments of an English school education, and

many receive instruction in different mechanical branches and band music.

In 1900 there was erected by boys' labor, under regular instructors, a building 40 by 100 feet, two stories high, in which are established schools for trade teaching. While in the past, so far as the accommodations would permit, a number of boys have received instruction in mechanical trades, and with the accommodations furnished in the new building, a greater number of boys receive a more thorough knowledge in lines of skilled handicraft, which will the better prepare them to become good citizens.

In 1908 there were 530 boys in the institution.

STATE HOME FOR GIRLS.

This institution is located on the line of the Trenton Branch of the Delaware and Bound Brook Railroad, in Ewing township, near the Trenton State Hospital, and is located on a farm of about 79 acres of land. A substantial building was erected at a cost of \$23,334, and other improvements since made bring the value of the place, with furniture, &c., up to \$140,000. Previous to the erection of the new building, the school was at "Pine Grove," in the Sixth Ward of the city of Trenton. This place had been leased so as to afford room for persons sentenced under the act of April 4th, 1871, and a subsequent act. The Legislature of 1900 appropriated \$30,000 for the erection of an additional building. In 1900 and 1901 about \$31,000 was spent for improvements and the Legislature of 1905 appropriated \$45,000 for the erection of a new cottage and about \$9,000 for various other improvements. The institution is for girls between the ages of ten and nineteen years who may be committed to it by the courts. In 1908 there were 170 inmates.

THE STATE PRISON.

The New Jersey State Prison, situated on the block enclosed by Federal, Third, Cass and Second streets, in the city of Trenton, is one of the finest institutions of its kind in the country. Its erection was authorized by an act of the Legislature passed February 13th, 1832, and it was completed in the year 1836, having 150 cells, at a cost of \$179,657.11. It was built of red sand-stone, from the Ewing quarries, and the style of its architecture is Egyptian, having four Egyptian columns in front of the main

entrance, on Third street. It consists of a main building, used as a residence for the Keeper and as reception rooms and offices. From time to time the prison has been enlarged, and although there is not sufficient room to afford separate confinement for each prisoner, as required by law, the provisions of the act are carried out as far as possible. The rules and regulations now in force have brought the internal affairs of the institution, as to cleanliness, discipline, victualing, &c., to a much higher standard than was ever before reached, and a visit thereto will convince the visitor that the management is as perfect as can be.

Previous to the year 1798 there was no State Prison, and prisoners were confined in the county jails. On March 1st, 1797, Jonathan Deane was appointed by an act of the Legislature as an agent to purchase a lot of land from Peter Hunt, situate at Lamberton, containing six and a half acres, and to erect suitable buildings thereon. This was done at an expense of £9,842 0s. 3d., and what is now the State Arsenal, at Second and Cass streets, is the result. Solitary confinement was not practiced previous to 1836, in which year the old prison was vacated and the present one occupied.

On March 4th, 1847, \$5,000 was appropriated to build an additional wing to the original building. On March 25th, 1852, \$15,000 was granted for the erection of a new wing for hospital purposes. On March 22d, 1860, the sum of \$17,000 was voted for the purpose of building an additional wing for cells, and on February 16th, 1861, a further sum of \$2,243.01 was appropriated to complete the same. On April 16th, 1868, \$6,000 was appropriated for the building of an additional wing to provide room for female convicts. An act passed April 2d, 1869, provided for the appointment of commissioners to extend the grounds of the prison to the wall of the State Arsenal, to build an additional wing and workshops, and made an appropriation of \$50,000 for that purpose, and in the same month \$9,734 was appropriated for the purpose of completing the wing of the female department. On April 4th, 1871, the sum of \$75,000 was appropriated for the purpose of completing the new or east wing, and on April 4th, 1872, a further sum of \$28,700 was appropriated for the completion of the same. March 3d, 1874, \$12,000 was voted for the construction of gas works for the supply of illuminating gas for the prison. On March 8th, 1877, the sum of \$100,000 was appropriated for the enlargement of the prison and

the purchase of a burial ground for deceased convicts. The north wing was remodeled out of this last appropriation and a burial ground purchased. The Legislature of 1895 appropriated \$150,000 for the enlargement and improvement of the prison. The Legislature of 1899 appropriated \$14,000 for alterations in the women's wing of the prison. In 1905 \$250,000 was appropriated for the erection of a new wing, and it was finished in 1907. The addition, which is at the northeast corner of the institution, is one of the most complete in the United States. There are five tiers, each having seventy cells. The interior is wholly of steel and concrete. The cells are separated from the outer walls by a passageway for the keepers and the entire section of each tier is completely enclosed in a cage of steel. Thirty-five cells are controlled by a combination locking device, although any one cell door or a series of doors can be thrown open by a lever system from the end of the corridor where the locking device is located. Between the cell sections there is a narrow utility court from which the ventilation is controlled and where the sanitary parts can be reached without any necessity for going into the cells. Each cell has a steel cot, porcelain washstand and sanitary arrangement and is lighted by electricity. Special attention has been given to ventilation. A death house was also built on the prison grounds in 1907 to comply with the law regarding the electrocution of persons condemned to death.

THE NEW JERSEY HOME FOR DISABLED SOLDIERS.

This institution is located in Kearny, Hudson county. It originated in the mind of Governor Marcus L. Ward just before the close of the Civil War. His petition to the Legislatures of 1863-64 resulted in the passage of an act on April 12th, 1864, appointing himself, ex-Governors Daniel Haines, William A. Newell and Charles S. Olden, and Edwin A. Stevens and Rynear H. Veghte as commissioners to examine into and report on the subject. On February 1, 1865, they made their report to Governor Parker and the Legislature appropriated \$50,000 for the desired purpose. Grounds were purchased in the city of Newark and in March, 1866, the same commissioners were appointed managers of the Home. The board appointed Colonel A. N. Dougherty, Commandant; Rev. Samuel T.

Moore, Superintendent and Chaplain, and Dr. A. M. Mills, Surgeon, of the Home. It was opened for reception on July 4th, 1866. For twenty-two years the Home remained in Newark, when a new site was selected in Kearny. This comprises about sixteen acres and \$225,000 was appropriated for the buildings, furnishings, &c. On October 4th, 1888, the old home was vacated and the new home occupied. The New Jersey Home is the parent of similar institutions throughout the country. In order to gain admission to the Home the applicant must have served in the army, navy or marine service and been honorably discharged therefrom. He must have lived in the State for at least two years next preceding date of application, and must be unable to earn a living for himself by manual labor. Since 1888 various additions have been made at a cost of about \$58,000.

NEW JERSEY HOME FOR DISABLED SOLDIERS, SAILORS OR MARINES AND THEIR WIVES.

Vineland.

This Home was organized in 1898, the sum of \$5,000 having been appropriated for the purpose. A plot of ground, comprising 20 acres, and a building containing about 75 rooms and basement, situated in the town of Vineland, were purchased for a Home, and in 1899 an additional appropriation of \$21,500 was made to pay for the property. In the same year the sum of \$20,000 was appropriated for altering, repairing and furnishing the buildings. In 1900 a special appropriation of \$13,000 was made for new floors, porches, laundry machinery, engine and boiler and furniture. The Home was opened in December, 1899, for the admission of inmates and the first were admitted January 2d, 1900. In 1901 the sum of \$7,700 was appropriated for an elevator, alterations and appliances, making the cost of building and land \$67,200. In 1903 nine acres of additional land was purchased at a cost of \$2,000 and the same year an act was passed by the Legislature providing for the care and maintenance of widows of veterans, and the sum of \$28,000 was appropriated for the construction and furnishing of buildings necessary to carry out the provisions of the act. An additional sum of \$2,500 was appropriated for extra work and the building was completed and ready for occupancy in July, 1904. Since then two new wings, each eighty feet long and containing some 120 rooms, have been added, and a

separate boiler house in the rear of the main buildings erected. A new heating and lighting plant has been installed, and other marked improvements for the care and comforts of the inmates completed. Even with these large additions, the Home is filled to its capacity, the membership at the close of the last fiscal year, October 31, 1908, being 249 persons—85 males and 164 females.

SCHOOL FOR THE DEAF.

This institution, which is located at Trenton, is a part of the public school system of the State, and is open to deaf residents of the State between the ages of six and twenty-one years. The pupils are instructed in the branches of common-school education, and are also trained in some handicraft. Speech is taught to all who can acquire it, and with such success that in some classes it becomes the principal means of communication.

The industrial department is larger and better equipped than in most schools of this kind. From the printing office is issued monthly a paper, the *Silent Worker*, which, in point of mechanical execution and of quality of contents, ranks as the best issued from any institution in the country. All the work on this paper is performed by pupils of the school.

The wood-working department, under the charge of a graduate of a technical school of high rank, has a course in which theory and practice are united in an unusual degree.

A course of kindergarten work, especially adapted to the deaf child, has been worked out in the school, and has been followed by some of the best schools of the kind in this country.

A building for hospital purposes, designed in accordance with the best modern practice and ample to meet any possible need, was opened in 1899.

The attendance of pupils has risen from 125 in June, 1896, until at the present time it is about 160.

The school possesses a well chosen library, which at present contains about 4,000 volumes, and is rapidly growing.

HOME FOR THE CARE AND TRAINING OF FEEBLE-MINDED WOMEN.

Vineland.

This institution was established by virtue of the act of March 27th, 1883, the late S. Olin Garrison, who drafted the original law, being its first superintendent. On November 7th, of the same year, he was succeeded by Mary J. Dunlap, M. D., the present incumbent. Upon organization of the first board of managers, the late Hon. Alexander G. Catell, of Camden county, was chosen President, a place he acceptably filled until his death. He was succeeded by the Hon. Benjamin F. Lee, of Mercer county, Clerk of the Supreme Court, who has since occupied the position. Mrs. Emily E. H. Williamson, of Union county, has been secretary of the board from its organization. The first treasurer was the Hon. Belmont Perry, of Gloucester county, he being succeeded by ex-Senator Philip P. Baker, of Cumberland county; the late Senator Barton F. Thorn, of Burlington county, and George B. Thorn, Esq., of Burlington county, the present incumbent.

As its official title suggests, this institution has for its object the care and training of feeble minded women. Its location in a peculiarly healthful and fertile portion of the State, the plan and scope of the buildings, as well as their equipment and the employment of modern administrative methods, make the Home a subject for favorable comparison with any similar institution in the country. The property consists of about 50 acres.

The most conspicuous building of the Home is that devoted to purposes of administration and instruction, including dormitories and a gymnasium. There is also a laundry, a power-house, with heating apparatus, and pump for raising the sewage of the home into the Vineland system. Fire escapes and a water tower give protection to the State's wards. All the buildings are lighted with gas or electricity.

For Board of Managers see list of State officers.

TRAINING SCHOOL FOR FEEBLE-MINDED CHILDREN.

Vineland.

This public institution is an outgrowth of a private one, which Prof. S. Olin Garrison established in Millville, Cumberland county, on September 1st, 1887. It was opened at

Vineland, on March 1st, 1888, with an enrollment of ten inmates. Adjacent properties were soon acquired and a handsome building, costing about \$18,000, was erected in 1890-91. There are eleven cottages, besides a hospital, large barns, shops and manual training rooms, located on a farm of 250 acres. The school has a fine assembly hall, seating over 600, and also containing seven school rooms, drill room and a gymnasium. The Department of Research has a well equipped laboratory, where studies as to the cause and prevention of feeble-mindedness are carried on.

The plan and scope of training and education by the school, require fourteen teachers in English, Kindergarten, Music, Physical Culture and Manual Trades departments, thereby indicating the special and comprehensive fields of instruction. There is also a custodial department for the idiotic.

The property is worth over \$250,000, real and personal, with a debt of only \$21,000. Besides very good property acquisitions at low cost, at least \$150,000 have been donated to the school since its organization, to aid in the current expenses, in improvements and new buildings.

On November 1st, 1908, there were 375 boys and girls in the institution.

STATE VILLAGE FOR EPILEPTICS.

Skillman, Somerset County.

This village is located in Montgomery township, Somerset county, about one mile from Skillman Station, on the line of the Philadelphia and Reading Railroad. The location is one of the most beautiful and healthful in the State, and is admirably adapted for the purposes of this kind of an institution. The managers have secured three adjoining farms containing in all about five hundred acres.

The three farm houses are now being used, one for the Administration building, one for male and one for female patients.

In 1884 Dr. John W. Ward, Superintendent of the State Hospital at Trenton, realizing the necessity of separating the epileptics from the insane, went before a legislative committee and strongly urged the appropriation of \$50,000 to erect a building upon the grounds of that institu-

tion for the proper care of the epileptics. The late Prof. S. Olin Garrison, Principal of the New Jersey Training School for Feeble-Minded Children, at Vineland, early recognized the necessity of separate provision for the epileptics in that institution, and was indefatigable in his efforts to establish the present village.

For a number of years the subject was agitated, and in 1895, in accordance with a resolution passed by the Legislature, the Governor appointed a commission to investigate the number and condition of epileptics in the State. The report of the commission was presented to the Legislature of 1896 and a bill was introduced for the establishment of a colony on a plan recommended by the commission. The bill failing to become a law, the New Jersey State Medical Society, by resolution at their annual meeting in 1896, endorsed the necessity of such legislation. In 1897 the President, Dr. Thomas J. Smith, of Bridgeton, most ably presented the necessity of providing for the epileptics, and urged that the State authorities be importuned most earnestly to revive the movement initiated the year before to establish an industrial epileptic colony in our State. The Society reaffirmed its position, and appointed a committee to urge the matter further.

Through the combined efforts of those interested and with the zealous co-operation of Senator Stokes, of Cumberland, who had charge of the legislation, an act was passed by the Legislature of 1898, and promptly signed by Acting Governor Voorhees, making the necessary provisions for the establishment of the institution. The sum of \$15,000 was appropriated for the purchase of a site and to pay for the equipment and maintenance of the village. The "Maplewood Farm," containing about 187 acres, was purchased for \$11,500, and the village was opened for the reception of male patients November 1st, of the same year.

The Legislature of 1900 appropriated \$30,000 for the erection of two cottages for patients, and \$16,000 for the purchase of two farms adjoining the property. Additional appropriations were made in 1901, '02, '03, '04 and '05, aggregating about \$200,000 for extensions and improvements. All epileptics of either sex, over five years of age, and not insane, are admitted.

NEW JERSEY REFORMATORY.

Rahway.

In 1895 the Legislature passed an act, approved by Governor Werts on March 28 of that year, providing for the appointment of a commission to consist of six persons, who were charged with the duty of building an intermediate prison for the criminal classes. The commission was authorized to set apart the property known as the Edgar farm, located in Union and Middlesex Counties, and then belonging to the State Sinking Fund.

If it were found necessary they were authorized to purchase adjoining property for the completion of the site at a cost not to exceed ten thousand dollars, but this authority was not availed of.

The institution, when completed, was designed to accommodate not less than one thousand inmates, and the sum of one hundred thousand dollars was appropriated to begin the work.

The site now comprises about eighty-five acres. That which is not occupied by the buildings or enclosed within a stockade surrounding the same, furnishes occupation to the inmates, and is devoted to the purpose of tillage, to supply farm products and sustain the animals used by the institution.

The original Commissioners were Patrick Farrelly, George S. Mott, David M. Chambers, William A. Ure, John T. Daly and Thomas M. Gopsill.

According to the plans originally adopted, the building, when completed, was to have four wings, capable of accommodating 1,024 inmates. The first wing and centre were completed in the year 1901, and inmates were then first received.

Offenders only are admitted between the ages of sixteen and thirty years.

The criminal courts of the State are empowered in their discretion to commit offenders to the Reformatory instead of State Prison. The original commission was replaced by the present Board of Commissioners, consisting of nine persons, including the Governor, and no more than four to be of the same political party.

The reformatory and grounds are located about one and a half miles south of the City of Rahway. The

buildings now erected comprise the guard-room building and northeast wing, with the southeast wing in course of construction and nearly completed, the domestic building and "Tie-to" building, connecting it with the Guard-room building, the industrial building, the power house, hospital for contagious diseases, tuberculous pavillion, barn, hennery, piggery, shelter station and cold storage warehouse.

The "Tie-to" building, the hospital, the pavilion, barn, hennery, piggery, shelter station and cold storage warehouse were constructed entirely by the inmates and without cost to the State, except for material.

The construction of a sewage disposal system was contracted for by the former Board of Managers, but has never been completed.

Up to the 1st of September, 1908, the total number committed has been 1,530, of whom 532 have been released on permanent parole and 439 are at large pending their final discharge. The total number of inmates present on the day last mentioned was 527, and as many as 573 have been in detention at one time.

The inmates are detailed to different trade classes, and do all the work required for betterments and repairs. They enjoy daily educational advantages and are regularly drilled in military tactics.

STATE TUBERCULOUS SANITARIUM.

This Sanitarium, which was completed in 1907, is located at Glen Gardner, near High Bridge, Hunterdon county. The site is on the slope of a mountain nearly 1,000 feet above the level of the sea, where the State has acquired about 600 acres. The slope has been cut away and leveled for a considerable space, and here the buildings were constructed. On a clear day the view from this point is one of the most magnificent in this picturesque section of North New Jersey. It looks away over a rolling country of wooded hills and cultivated farm lands to the mountains on the other side of the valley, which run at its foot. Away in the distance like a thin ribbon of silver is the South Branch river, and in whatever direction the eye turns some new and charming scene is encountered. The structure consists of a service building, administration building

and east and west wards. The service building is the source of supplies for the institution. It is 84x110 feet, three stories, including basement, in which is the boiler room, engine room and electric light plant. A cold storage is located in the basement. On the second floor is the main dining hall, which is 84x48 feet, the service room, bakery, kitchen, storeroom, butcher shop and cold storage. The third floor is fitted up with rooms for the doctors, employees' rooms, ironing, drying and linen rooms, coat rooms, sterilizing room, &c. All the buildings are built of field stone, stuccoed on the outside and finished with white plaster on the interior. The ward building is 32x150 feet and the administration building 52x120 feet. The buildings are so constructed that additions may be made from time to time as the necessity of the case demands. About 125 patients can be comfortably accommodated in the ward buildings. There are ten private wards in each of the ward buildings, which will accommodate three or four persons each. These are for those who can afford to pay for treatment. The water supply is derived from a large reservoir, which is kept supplied from the springs. The system of sewerage is among the most sanitary in existence. The total cost of the Sanitarium represents an outlay of about \$300,000.

The first impetus for caring for the State's consumptive poor was given in an address delivered in 1900 before the State Medical Society by Dr. Halsey, then president. A bill was drawn by a committee of the society, and was passed by the Legislature in 1902, when a Board of Managers was appointed by Governor Murphy. Of this Board, Dr. Charles J. Kipp of Newark was elected president, and for whom the mountain on which the State Sanitarium was built was named. The Legislature appropriated \$50,000 to carry the bill into effect. The Sanitarium is intended as a model institution, largely educational in character, which would give a practical demonstration of up-to-date methods of treating cases of tuberculosis and point the way for other institutions of a similar type, at the same time extending the direct benefits of its system to as large a number of cases as its necessarily limited facilities would enable it to care for. The institution expects to handle about five hundred cases annually. Its purpose is to arrest the disease in its incipient stage and dis-

charge the patient in such condition that, with the aid of the instruction he receives while at the institution, he may be reasonably certain of being able to effect his own cure. This instruction will prove valuable not only to himself, but to the public in general, as it becomes disseminated through his agency and that of the other patients who undergo treatment and go out again in the world at large. As a rule, the cases selected will be such as can be treated with reasonable expectancy of a cure.

BORDENTOWN INDUSTRIAL SCHOOL.

The Manual Training and Industrial School for Colored Youth located at Bordentown, N. J., is a State institution supported by appropriations from the State Treasury.

The objects and purposes of the school are to give a liberal industrial education to the colored boys and girls of the State of New Jersey. The work of the school is divided into four departments, namely, training in practical agriculture, manual training along the lines of work in the trades, home economics, including sewing, cooking and practical instruction in household management, and academic instruction supplementary to the industrial work.

Competent instructors are provided at the head of each of these departments. The school is under the immediate supervision and control of a special committee of the State Board of Education. It is equipped with a commodious administration building, one good dormitory, a fairly good barn and dairy house with numerous other small buildings.

The school is located upon the banks of the Delaware, and has in connection with it 225 acres of most excellent farm land. About one hundred students are now enrolled in the school and a considerable number are on the waiting list, this being all that can be accommodated under the present conditions. The instruction is free and the board is furnished at a nominal price to the students, making it possible for the poorest pupils to avail themselves of the advantages of this opportunity for industrial training.

PARTY PLATFORMS.

REPUBLICAN.

(Adopted at the State Convention held at Trenton, Thursday, September 19, 1907.)

The Republican party again presents to the people of New Jersey an account of its stewardship and offers its record of faithful execution of pledges as a guarantee of future performances.

We indorse the administration of President Roosevelt as courageous and patriotic, distinguished by intelligent, earnest and successful efforts to promote the welfare of all the people. Continued prosperity has been maintained in every branch of industry, and the position of the Nation at home and abroad is stronger and better than at any time in its history.

We also indorse the wise, progressive and successful administration of Governor E. C. Stokes.

The Republican party came into power after a long period of misrule, during which the State government had been administered in a spirit of partisan greed; actual dishonesty had marked many transactions; the State's money had been expended without authority of law, necessitating a diversion of the school fund to save the party then in power from the odium of a State tax; political power had been perpetuated by the creation of partisan officeholders, and by legislative gerrymanders; by the corruption of the ballot and by the wholesale pardon of convicted criminals.

To remedy these abuses and rescue the State from misrule and disgrace, the people called upon the Republican party. Its fourteen years' record is a story of faithful performance of this duty and of increasingly high standards of good government.

Republican administrations have pursued a consistent policy of advancement and reform.

Republican legislation drove the gamblers' vice from our State and pledged her constitution to its perpetual banishment.

It inaugurated a system of publicity in appropriations. It has inaugurated a policy of using the surplus of the treasury for the payment of local school taxes.

In the fulfillments of its pledges to give a fearless and thorough consideration to the long-standing problems of equal taxation as between railroads and other property, it has passed the laws declared valid by the courts of the State, which have increased the revenue of our municipalities and raised the State's income from less than \$1,000,000 to over \$3,500,000 per annum, \$2,500,000 of which is by law distributed to the local taxing districts for school purposes.

The Republican party has inaugurated a policy of taxation of corporate franchises and by which the State annually collects a large sum for distribution to the taxing districts. We favor such systems as will compel franchises to bear a just share of the burden of taxation as compared with corporate and individual property.

A Republican Senate has twice passed a civil service reform act which has been defeated by the present Democratic House of Assembly. We pledge ourselves to the enactment of a comprehensive civil service measure in the interest of higher efficiency in administrative affairs.

The Legislature has passed resolutions favoring an amendment to the federal constitution of the election of United States Senators by popular vote; and until such amendment has been adopted, we favor the enactment of a law for expression in some authoritative way by the voter of his choice for United States Senator.

We believe in the separation of State and municipal elections and to that end favor a constitutional amendment providing that national and State elections shall be held in even years and municipal elections in odd years.

We have enacted legislation for the reform of our petit jury system, and we pledge a continuance of our efforts for a better system of selecting grand juries.

Our primary law—a Republican enactment—has done away with violence and fraud at the primaries and has enabled voters to express their choice and exercise their will in the nominating conventions. We pledge ourselves to such amendments of this act as will simplify and improve our primary system. We favor the modification and simplification of the present primary law in the respects in which it is now cumbersome and intricate; and we believe that the most effective method to accomplish this purpose is a direct

primary for candidates for all municipal and county offices, including Senators and Assemblymen, and we favor such an amendment of the primary law as will accomplish this end, with proper provisions for judicial review and recount.

The party has already undertaken the question of supervision of public utility corporations, with a view of increasing the efficiency, safety and economy of service in the interests of the public. We pledge ourselves to enact a law providing for a commission with ample jurisdiction and powers to enable it to regulate such corporations effectively and authoritatively.

The Republican party has accomplished needed reform in excise legislation and pledges itself to the maintenance of it.

The policy of State aid for good roads was inaugurated by the Republican party, and this policy has placed New Jersey first in the nation in its road system. The Republican party stands pledged to its continuance.

We favor the pending amendment of the constitution providing for the creation of Assembly districts, passed by the present Legislature upon the recommendation of a Republican Governor.

We favor a law providing that all moneys collected for or belonging to the State shall be paid into the State treasury, and that no disbursements of State funds shall be made except upon the audit and warrants of the Comptroller.

We believe in simplicity of government and we favor consolidation of all departments and commissions of similar character, and regret the failure of the Democratic House of Assembly to co-operate with the Senate to this end.

We pledge ourselves to correct any and all abuses that may be found in any State department or institution, and to hold all officials to a strict accountability for faithful public service.

We call the attention of the people to the incompetency of the Democratic House of Assembly, to the disgraceful scenes that marked its proceedings, to its absolute control by the lobby, to its refusal to pass laws for the improvement of the civil service, to pass laws for the reform of the grand jury system, to permit the submission to the public of the question of separation of the State and municipal elections, and to the reform measures passed by the Republican Senate.

DEMOCRATIC.

(Adopted at the State Convention held at Trenton on Tuesday, September 17, 1907.)

The Democratic party of New Jersey, through its representatives in convention assembled at Trenton, this 17th day of September, 1907, makes this declaration of principles:

Virtue in State government depends upon and is measured by the integrity of its servants. The reprehensible practices of State officials of retaining and applying public funds to their personal advantage and to the detriment of the State, persistent and chronic failure to discharge official duties, commonly called "absenteeism," occupying dual positions, carrying double emoluments, but involving no increased labors, nepotism, the constant multiplication of commissions to discharge similar public functions, the extravagance and wastefulness of the State House Commission in the construction of public buildings, the non-feasance and gross mismanagement of the managers of State institutions, warrant unqualified condemnation and demand immediate correction, and to this end we favor and bind ourselves to the enactment of laws whereby:

Public funds shall be paid to and directly disbursed by the Treasurer of the State. "One State and one purse."

Public moneys shall be interest-bearing in all cases.

Public officials shall give daily attention to the discharge of their duties, and shall be permitted to hold but one office.

Public contracts shall be made and supplies purchased upon competitive bidding after due advertisement.

The numerous commissions now having charge of the public water supply, sewage and other matters pertaining to public health shall be abolished, and their powers and duties vested in a reorganized State board.

State boards and commissions exercising kindred functions shall be consolidated.

We reiterate the demands of the Democratic platforms for many years past for the equal taxation of all property not used for religious, charitable or educational purposes.

We declare for the taxation of the tangible property of railroad and canal companies where located, and the taxation of their franchises by the State, and we insist that the legislation on taxation enacted since the ascendancy of the Republican party in this State has been the result of Democratic initiative, but has not measured up to the constitutional requirement of equal taxation.

We declare for the taxation at local rates of the value of the franchises of public utility companies in place of the present inadequate taxation under the Voorhees law.

We favor the establishment of a commission, with ample powers for the proper regulation of steam and trolley railroads, electric light, gas, water, telegraph and telephone companies and all other public utility corporations.

We call attention to the constantly increasing cost of the State government under Republican rule, the yearly expenses having been increased from \$1,857,982 under the last Democratic administration to \$4,553,685.57 for the present year, and demand that rigid economy be exercised in future expenditures to the end that the surplus revenues may be applied to the lessening of the burden of taxation upon our citizens.

In recognition of the constitutional doctrine that all political power is inherent in the people, we favor the enactment of laws, and where necessary constitutional amendments, providing for:

The selection of United States Senators by popular suffrage.

The election of Assemblymen by districts.

The nominating of candidates for public office by direct primary vote, without the intervention of delegates or conventions.

The election by the people of the principal State and county officials.

In order to secure the true expression of the will of the voter we favor:

Municipal elections distinct from State and national elections.

The passage of stringent laws against bribery and corruption in all elections, primary and general.

The vesting of summary jurisdiction in the courts to settled disputes growing out of primary elections, with ample power to order recounts.

The abolition of the voting machines.

We favor the acquisition by our State and sister States of all toll bridges crossing inter-state boundaries, in order that the same may be made free for inter-state traffic.

We favor the greatest extension of the principle of home rule in municipal government, securing to each municipality the absolute control of all matters requiring local administration, without undue interference by the Legislature.

We favor the enactment of stringent anti-monopoly laws.

We favor the establishment of an elective civil service commission by an act which will take the employment of subordinate public officials out of politics.

We ask the support of all citizens favoring these principles.

case where it shall appear that the appropriation is insufficient to complete such building, buildings or work, the appropriation hereby made therefor shall not be applied toward the construction of such building or buildings, or prosecution of such work, but shall lapse and no payment shall be made therefrom.

4. No money shall be drawn from the treasury except for objects as hereinabove specifically appropriated, and except such sums which are by law devoted to specific purposes, namely, State school tax to Agricultural college, United States appropriation for disabled soldiers, United States appropriation for disabled soldiers, sailors, marines and their wives, Agricultural College fund and taxes for the use of taxing districts in this State, moneys received by the State from the taxation of railroad and canal property, which may be by law apportioned to the various counties of the State for school purposes, and loans to "State School Fund," which last-named sums shall be paid pursuant to the laws applicable thereto; this section shall not be construed to prohibit the payment due upon any contract made under an appropriation of the previous year, nor of any payments into the State Treasury by State institutions and commissions, pursuant to an act, entitled "An act regulating the receipt and disbursement of State moneys in certain cases, approved October 31, 1907 (chapter 288, laws of 1907), which moneys by the provisions of chapter 41, laws of 1908, are appropriated for the maintenance of said State institutions and commissions making such payments, but nothing herein shall be construed to apply to the payments into the State Treasury by the State Reformatory and State Prison of the receipts for the labor of the inmates of those institutions.

5. This act shall take effect on the 1st day of November, 1908.

Approved except as to the items disapproved as per memorandum hereto annexed April 16, 1908.

In Senate Bill No. 336, entitled "An act making appropriations for the support of the State government and for several public purposes for the fiscal year ending October 31, 1909," I disapprove the following items of expenditure therein authorized:

Item No. 43 is disallowed to this extent: "For additional allowance for the fish and game wardens, in-

cluding the fish and game protector, for compensation, \$7,500," as the bill providing for the increase of salary to these officers, which made necessary this appropriation, was not approved.

Item No. 77. This entire item is disallowed, for the reason that this board was abolished at the present session of the Legislature, and this appropriation is therefore unnecessary.

Item No. 95. This item is disapproved to the extent of \$6,000, and is approved for \$15,000 only. The reason for this is that the price to the State for the volumes furnished is excessive, and until further legislation is had upon the subject I shall disapprove \$6,000 of this item.

Item No. 107. I disapprove of the item for expenses incurred in connection with new or additional water supplies, \$3,500, to the extent of \$2,500, leaving the said item approved for \$1,000.

I disapprove of the item for engineers, inspectors, field work, etc., \$5,500, to the extent of \$3,000, leaving the said item approved for \$2,500.

Item No. 109. This item for salaries and expenses of a Public Utilities Commission, \$60,000, is disapproved, for the reason that the bill establishing such a commission did not pass the Legislature, and this appropriation is therefore unnecessary.

The court of last resort, by whatever name known, is hereby invested with exclusive original jurisdiction and with full power, under such procedure as it may by rules prescribe, to review any division and arrangement made by the Legislature into Assembly districts of the counties of this State for the purpose of determining whether such arrangement and division, or any part thereof, is in accordance or in conflict with this section, and, if in conflict herewith, to adjudge the same, or such part thereof as may be in conflict herewith, null and void. 8. Add to section 2 of article VII three paragraphs, to be known as paragraphs 12, 13 and 14.

12. All elections for Governor, members of the Senate and General Assembly, sheriffs, coroners, county clerks and surrogates of counties and all other officers now or hereafter necessary to be chosen by the electors of the whole State, or of any county thereof, shall be held every second year, on the first Tuesday after the first Monday in November, beginning A. D. 1910.

13. All elections for justices of the peace and all and any municipal officers, as distinguished from State and county officers as hereinbefore provided, now or hereafter necessary to be chosen by the electors of any city, borough, town, township, village or subdivision thereof, or any municipality of this State, except counties, shall be held every second year on the first Tuesday after the first Monday in November, beginning A. D. 1911.

14. The Legislature shall pass all necessary laws to arrange the terms of office of all statutory elective officers so that said terms may be in harmony with these amendments, and to carry into effect the provisions hereof.

These amendments, if adopted, shall take effect and go into operation on the 1st day of February, in the year of our Lord 1910.

ASSEMBLY CONCURRENT RESOLUTION NO. 4.

1. Strike out paragraph 10, of section 7, of article IV, and change the numbers of the following paragraphs to correspond.

2. Change paragraph 10 of article V so as to read as follows:

10. The Governor or person administering the government, and four citizens of the State appointed by the Governor, by and with the advice and consent of the Senate, shall constitute the Board of Pardons. The members of said board, or any three of them, of whom the Governor or person administering the government shall be one, may remit fines and forfeitures, and grant reprieves, commutations, pardons and paroles, after conviction in all cases except impeachment. The four members specially appointed shall hold office for five years, and receive for their services a compensation which shall not be diminished during the term of their appointment.

3. Change section 1 of article VI so as to read as follows:

SECTION I.

The judicial power shall be vested in a court for the trial of impeachments, a supreme court, county courts, and such other courts, inferior to the supreme court, as may be established by law, which inferior courts the Legislature may alter or abolish as the public good shall require.

4. Strike out all of sections 2, 4, 5, 6 and 7, of article VI, change the number of section 3 of article VI to section 2, and insert the following sections in article VI:

SECTION III.

Any judge of any of the courts of the State may be removed for disability continuing for one year, or for refusal to perform the duties of his office, by a vote of two-thirds of all the members of the Senate and of two-thirds of all the members of the House of Assembly, voting separately, after a hearing before both Houses in joint session.

SECTION IV.

1. The Supreme Court shall be organized in three divisions, namely: The Appeals Division, the Law Division and the Chancery Division. It shall consist of a Presiding Justice of the Appeals Division, who shall be styled the Chief Justice; a Presiding Justice of the Law Division, who shall be styled the President Justice, and a Presiding Justice of the Chancery Division, who shall be styled the Chancellor, and eighteen Associate Justices, which number may be increased by law.

2. The Appeals Division shall consist of the Chief Justice and six other Justices of the Supreme Court, to be assigned by the Governor. A Justice of the Supreme court assigned by the Governor to the Appeals Division shall serve in said division until the end of his term.

The remaining Justices shall be assigned by the Supreme Court to the Law or Chancery Division, as the business of the court may require.

3. Whenever the number of causes before the Appeals Division shall be so great that the division cannot promptly hear and determine them, the Governor shall, when authorized by statute, temporarily assign five of the Justices of the other divisions to sit in the Appeals Division, which shall thereupon sit in two divisions for the hearing and decision of causes pending at the time of such assignment.

4. Four Justices shall be necessary to constitute a quorum on the final hearing of any cause in the Appeals Division, but the Supreme Court may provide by rule for the making of interlocutory orders by a lesser number of Justices, or by one Justice; such orders to be subject to revision by the Appeals Division.

On the hearing of a cause in the Appeals Division, no Justice who has given a judicial opinion in the cause in favor of or against the judgment, order or decree under review, shall sit at the hearing to review such judgment, order or decree, but the reasons for such opinion shall be assigned to the court in writing.

5. A majority of all the members of the Supreme Court, to be presided over by the Chief Justice, shall constitute a quorum for the assignment of Justices,

and for the appointment of officers and the enactment of rules.

6. The Supreme Court shall appoint one or more reporters, not exceeding three, to report the decisions of the court, and shall by rule define his or their duties and powers. The reporters shall hold office for five years, subject, however, to removal at the discretion of the court.

SECTION V.

1. The Appeals Division shall have and exercise the appellate jurisdiction heretofore possessed by the Court of Errors and Appeals, the jurisdiction heretofore possessed by the Supreme Court on writ of error, and the jurisdiction heretofore possessed by the Prerogative Court on appeal, and by the Ordinary on appeal, and such further appellate jurisdiction as may be conferred upon it by law, together with such original jurisdiction as may be incident to the complete determination of any cause on review, saving, however, the right of trial by jury.

2. The jurisdiction heretofore possessed by the Supreme Court and the Justices thereof not hereby conferred on the Appeals Division, and the jurisdiction heretofore possessed by the Circuit Courts and the Judges thereof, and such further original jurisdiction not of an equitable nature, and such further appellate jurisdiction from inferior courts, as may be conferred by statute, shall be exercised by the Law Division of the Supreme Court and by the several Justices thereof, in accordance with rules of practice and procedure prescribed by statute, or in the absence of statute, by the Supreme Court.

3. The jurisdiction heretofore possessed by the Prerogative Court and the Ordinary, not hereby conferred on the Appeals Division, and the jurisdiction heretofore possessed by the Court of Chancery and the Chancellor, and such further original equity jurisdiction as may be conferred by statute, and such further original jurisdiction as is now conferrable on the Prerogative Court, shall be exercised by the Chancery Division, and by the Chancellor and the several Justices of said division in accordance with rules of practice and procedure prescribed by statute, or, in the absence of statute, by the Supreme Court, but the Justices of that division shall be under such control

and supervision by the Chancellor as shall be provided by the Supreme Court.

4. Terms of the Supreme Court presided over by a single Justice of the Law Division for the trial of issues joined in or brought to the Law Division of the Supreme Court, shall be held in the several counties at times fixed by the Supreme Court. Until so fixed, such trial terms shall be held at the places and times now fixed by law for the holding of the Courts of Common Pleas in the several counties.

5. The Supreme Court may provide by rule for the transfer of any cause or issue from the Law Division to the Chancery Division, or from the Chancery Division to the Law Division of the Supreme Court, and from the County Court to the Law Division or the Chancery Division of the Supreme Court, and for the giving of complete legal and equitable relief in any cause in the court or division where it may be pending.

6. Nothing herein contained shall prevent the alteration, by law of any statutory power or jurisdiction conferred upon any court or Judge since the adoption of Constitution, in the year 1844, and nothing herein contained shall prevent the Legislature from conferring upon any inferior court which may hereafter be established such power or jurisdiction as was exercised by or which may now be conferred upon the inferior courts mentioned in section 1 of article VI of the Constitution of 1844.

SECTION VI.

The County Courts shall have and exercise, in all cases within the county, such original common law jurisdiction concurrent with the Supreme Court, and such other jurisdiction heretofore exercised by courts inferior to the Supreme Court and the Prerogative Court as may be provided by law. The final judgments of the County Courts may be brought for review before the Supreme Court in the Appeals Division. Until otherwise provided, the jurisdiction heretofore exercised by the Courts of Common Pleas, Orphans' Courts, Courts of Oyer and Terminer, Courts of Quarter Sessions, or by the Judges thereof, shall be exercised by the County Courts, pursuant to rules prescribed by the Supreme Court. The Justices of the Law Division of the Supreme Court shall be ex-officio Judges of the

County Courts. All other jurisdiction or authority now vested in any court, Judge or magistrate with jurisdiction inferior to the courts in this section mentioned, and not superseded by this article, shall continue to be exercised by such court, Judge or magistrate until the Legislature shall otherwise provide.

SECTION VII.

This amendment to the Constitution shall not cause the abatement of any suit or proceeding pending when it takes effect. The Supreme Court shall make such general and special rules and orders as may be necessary for the transfer of all suits and proceedings to the appropriate division or court created by this amendment. Matters pending when this amendment takes effect shall be decided by the Judge or Judges to whom they were submitted, and the order, judgment or decree made or advised by said Judge shall be entered as that of the division or court to which the suit or proceeding shall have been transferred.

5. Strike out paragraphs 1, 2, 5 and 8 of section 2 of article VII, and substitute the following paragraphs in place of paragraphs 1 and 2, and change the numbers of the paragraphs following 5 to correspond:

1. The Chief Justice of the Supreme Court, the President Justice of the Law Division, the Chancellor and the Associate Justices of the Supreme Court shall be nominated by the Governor and appointed by him, with the advice and consent of the Senate. They shall not be less than thirty-five years of age, and shall have been practicing attorneys in the State for at least ten years. They shall hold office for the term of seven years; shall, at stated times, receive for their services a compensation which shall not be diminished during their term of office, and they shall hold no other office under the government of the State, or of the United States, and shall not engage in the practice of law during their term of office. The Chancellor and the Chief Justice of the Supreme Court, and the Vice-Chancellors and Associate Justices of the Supreme Court, in office when this amendment takes effect, shall be Justices of the Supreme Court until the expiration of their respective terms.

The Circuit Court Judges in office when this amendment takes effect shall be continued in office with the

powers of the Justices of the Supreme Court at the Circuit until the expiration of their respective terms. They may hold the County Courts, subject to assignment by the Law Division of the Supreme Court.

2. The Governor, by and with the advice and consent of the Senate, shall appoint one Judge of the County Court in each county, and such additional County Judge or Judges in any county as may be authorized by law. The county Judges may hold court in any county subject to the control of the Supreme Court. The county Judges shall not be less than thirty years of age, and shall have been practicing attorneys in this State for at least five years. They shall hold office for the term of five years; shall at stated times receive for their services such compensation, which shall not be diminished during their term of office, as the Legislature in its discretion shall fix for each county, and they shall hold no other office under the government of the State or of the United States, and shall not engage in practice of the law in the courts of the county where they hold court during their term of office. The Judges of the Common Pleas, in office when this amendment takes effect, shall be the Judges of the County Courts until the expiration of their present terms.

3. This amendment shall take effect on the first Monday in February, in the year next following its adoption by the people.

4. The Legislature shall pass all laws necessary to carry into effect the provisions of the Constitution and this amendment thereof.

ASSEMBLY CONCURRENT RESOLUTION NO. 9.

7. Members of the Senate shall receive, annually, the sum of \$1,000, and members of the General Assembly shall receive, annually, the sum of \$1,000, during the time for which they shall have been elected and while they shall hold their office, and no other allowance or emolument, directly or indirectly, for any purpose whatever. The President of the Senate and the Speaker of the General Assembly shall, in virtue of their offices, receive an additional compensation, equal to one-third of their allowance as members.

SYNOPSIS OF SCHOOL LAW.

The State Board of Education consists of two members from each Congressional District. It has control of the State Normal School, the School for the Deaf, the Farnum School, and the Manual Training and Industrial School for Colored Youth. It appoints the county superintendents of schools, decides appeals from the decisions of the State Superintendent, and makes rules for the granting of teachers' certificates and for carrying into effect the school laws of the State.

The State Superintendent of Public Instruction is appointed by the Governor and confirmed by the Senate. He decides controversies that arise under the school law; may withhold the State school moneys from any district for neglect or refusal to comply with the provisions of the school law, and has general supervision of the public schools. He is a member of all boards of examiners for teachers' certificates.

There is a superintendent of schools for each county, appointed by the State Board of Education. The County Superintendent apportions the school moneys among the districts in his county, has general supervision of the schools and, in connection with the local Board of Education, prescribes the course of study to be pursued in the district. He is the chairman of the County Board of Examiners and appoints the other members of the board.

Each municipality in the State constitutes a school district, unless by a vote of the people two or more municipalities decide to unite and form one district. There are two classes of school districts, cities forming one class and all other municipalities the other, but a district in either class may, by a vote of the people, be transferred to the other class. The members of the Board of Education in a city school district may be appointed by the Mayor or elected at the regular municipal election as determined by the legal voters, but until so determined the members shall be selected in the same manner as prior to the passage of the present law.

In order to be eligible to membership in the Board of Education, a person must have been a resident of the district for at least three years immediately preceding his election and must be able to read and write. A city school district may have a city superintendent, but until one is appointed the County Superintendent has supervision of the schools.

In each city school district there is a Board of School Estimate, consisting of the Mayor, two members of the body having the power to make appropriations for city purposes, and two members of the Board of Education. The Board of Education presents its estimate of the amount of local appropriation needed, and the Board of School Estimate certifies to the body in the city having power to make appropriations, the amount to be raised for school purposes.

In districts other than cities the Boards of Education consist of nine members each, elected by the people on the third Tuesday in March. The qualifications for membership are the same as in city school districts. The special district school tax is voted either at the annual meeting or at a special school meeting called by the Board of Education. Bonds for school houses are authorized by the legal voters. Women may vote at district meetings on all questions except the election of members of the Board of Education, which is prohibited by the Constitution.

Funds for the support of schools come from the following sources: First, from the income of the State School Fund. The principal of this fund is derived almost entirely from the sale and rental of lands under water belonging to the State. The principal cannot be used for any purpose, and the income can be used only for the support of public schools. This income amounts to \$200,000 per annum. Second, from State appropriation made by the Legislature to reduce the State school tax. Third, from State school tax, an amount which when added to the State appropriation will make a sum equal to two and three-fourths mills on each dollar of the taxable property in the State. Fourth, interest of surplus revenue, and, Fifth, local school tax.

The \$200,000 from the school fund is apportioned among the counties by the State Superintendent on the basis of the total days' attendance of pupils in the public schools. The State appropriation is apportioned among the counties by the State Comptroller on the basis of the ratables. Ninety per cent. of the State school tax paid by each county is returned to it, and the 10 per cent. received from all the counties forms the reserve fund, which is apportioned among the counties in the discretion of the State Board of Education.

The County Superintendent apportions to each district \$600 for the Superintendent or Supervising Principal, if there be one; \$400 for each Assistant Superintendent, and for each permanent teacher employed

in a high school having a full four-years' course of study; \$300 for each permanent teacher employed in a high school having a full three-years' course of study; \$200 for each permanent teacher employed in any kindergarten, primary or grammar grade or in a high school having less than three years' course of study; \$80 for each temporary teacher employed more than four months; \$80 for each evening school teacher; \$25 for each high school pupil for whom a tuition fee is paid to another district; \$5 for each pupil below the high school grade for whom such tuition fee is paid, and 75 per cent. of the cost of transportation of pupils to schools in other districts. The balance of the State school moneys received by the county is apportioned on the basis of the total number of days' attendance of the pupils.

The custodian of municipal funds is the custodian of school moneys, unless the Board of Education appoints the collector as custodian. In either case, the compensation of the custodian must be fixed by the municipal authorities and paid from municipal funds. If there are two or more municipalities in the district, the Board of Education may appoint its own custodian and fix his compensation, which then is paid from school moneys.

Each collector must pay to the county collector the amount of State school tax due from his taxing district not later than December twenty-second. If the tax is not paid by that date the County Superintendent must withhold the amount of reserve fund apportioned to the district and divide it the following year among all the districts in the county. The county collector must pay the State school tax to the State Treasurer not later than January twentieth.

If a district provides a course in manual training, and such course is approved by the State Board of Education, the State will give to such district each year a sum equal to that raised in the district for manual training, provided the amount raised is not less than \$250 or more than \$5,000.

Every district must provide free text-books and supplies for all pupils and must also provide a flag for each school house, which flag must be displayed every day the school is in session. The selection of a text-book requires the vote of a majority of the whole number of members of the Board of Education. A Board of Education may employ medical inspectors and truant officers.

Every school which raises \$20 to establish a school library may receive a like amount from the State. After

the first payment, the State will give \$10 each year that the school raises the same amount. Library moneys may be used for library books, reference books, apparatus, or educational works of art.

All plans for school houses must be submitted to the State Board of Education for suggestion and criticism. Every school house hereafter erected must comply with the following requirements: First, light must be admitted to the class rooms only from the left and rear. Second, the total light area must equal 20 per cent. of floor space. Third, there must be 18 square feet of floor space and not less than 200 cubic feet of air space for each pupil. Fourth, all rooms must have a proper system of ventilation which will supply 30 cubic feet of fresh air per minute for each pupil. Fifth, all ceilings must be at least 12 feet in height and all stairs must be at least 4 feet wide, with intermediate landings, enclosed in brick walls or by partitions of slow-burning construction, and without open wall holes. Sixth, a school house having eight rooms must have two flights of stairs, each four feet in width, or one flight not less than six feet in width, one having from eight to sixteen rooms, two flights of stairs not less than five feet in width, and one having sixteen or more rooms, four flights of stairs not less than four feet in width, or two flights not less than six feet in width. Seventh, all ceilings must be either metal, wood or plaster on metal laths and painted white or some light tint.

A person cannot be legally employed as a teacher unless he holds a teacher's certificate in full force and effect at the time he begins teaching. Before beginning to teach he must show his certificate to the Superintendent of Schools. A Board of Education may adopt rules governing the employment of teachers. In the absence of rules, the contract must be in writing in triplicate, one copy filed with the Board of Education, one with the County Superintendent, and one with the teacher. The employment, promotion or dismissal of a teacher requires the vote of a majority of the whole number of members of the Board of Education.

The State Board of Examiners consists of the State Superintendent, the Principal of the Normal School and a person appointed by the State Board of Education. This Board issues certificates valid in all parts of this State and in any school or grade.

The County Board of Examiners consists of the County Superintendent and three teachers appointed by him. This Board issues certificates valid in the county. The third grade certificate is valid in an ungraded school or primary

department; the second grade in an ungraded school or in any grade below the eighth; the first grade in any school in the county. City certificates are good only in the city. All kindergarten teachers must hold special kindergarten certificates: Special certificates may be issued for kindergarten, physical training, manual training, music, drawing, ancient or modern languages, and commercial branches. All applicants for certificates must file testimonials of good moral character, and in case of previous experience, of success as teachers.

Graduates of the Normal School receive State certificates. Graduates of normal schools in other States may have their diplomas endorsed, provided the course of study pursued is equivalent to the course in the New Jersey Normal School, and the State in which they were issued grants reciprocal privileges to graduates of the New Jersey Normal School.

All children between the ages of 5 and 20 are entitled to attend the public schools in the districts in which they reside. If a kindergarten has been established, children 4 years of age may attend. A Board of Education must provide suitable school facilities for all the children desiring to attend school. The Board of Education may provide for the education of pupils in the higher grades by payment of tuition fees to adjoining districts. If a child lives remote from any school in the district, the Board may transport such child to school or pay for its tuition in another district. A Board of Education may close a school and transport all the children to another school. When this is done the district continues to receive the \$200 theretofore apportioned for the teacher employed in the school which was closed. Children who have never attended any school can be admitted to a public school only during the ten days immediately following the opening of the school in the fall and during the first five days in January and April, except by the vote of a majority of all the members of the Board of Education.

All children between the ages of 7 and 14 must attend either a public or private school every day such school is in session, unless they are taught at home or are physically or mentally unfit to attend. The parent of a child who does not attend school may be proceeded against before a magistrate as a disorderly person. If the parent is unable to control the child, such child may be proceeded against as a disorderly person.

Corporal punishment in all public and private schools is absolutely prohibited.

BIOGRAPHIES.

GOVERNOR OF NEW JERSEY.

JOHN FRANKLIN FORT.

Governor Fort was born in Pemberton, Burlington county, N. J., on March 20, 1852, and is the son of Andrew H. Fort, who still lives in Mount Holly. His father was in 1866-67 a member of the House of Assembly, and his father's brother was Governor George F. Fort, who held the executive office from 1851 to 1854. Young Fort remained in Pemberton until he was twenty-one years of age, leading the life of a farmer's boy and having his share of the country boy's hardships. His early education was secured in Miss Nicholson's private school in Pemberton, and after that he went to Pemberton Academy, where his teacher was Charles E. Hendrickson, a warm personal friend and in recent years his associate on the Supreme Court bench.

Justice Fort's next tutor was William Hutchinson, afterward well known as "John Sands," under which name he wrote articles for the New York Sun. He then went to Mount Holly Institute, conducted by Charles Aaron, and from there he went to Pennington Seminary, where he graduated in 1869.

In the fall of 1869 he entered the law office of former Chief Justice Edward M. Paxton, who was then a well-known practicing lawyer in Philadelphia, but six months later he was compelled to return to New Jersey because of Mr. Paxton's appointment to a common pleas judgeship by Governor Gerry of the Keystone State. Upon his return he entered the office of Ewan Merritt in Mount Holly, and in order to help pay his expenses while studying he taught school at Ewanville. He was also in the office of Colonel Garrit S. Cannon at Bordentown, from which place he went to the Albany Law School, where he graduated in 1872 with the degree of LL.B. Among his most intimate friends and a roommate at the law school was former

Chief Judge Alton B. Parker, candidate on the Democratic ticket for President of the United States in 1904. This friendship still continues.

Returning from law school without having attained his majority, he again entered the office of Ewan Merritt, and in November, 1873, having just passed twenty-one by a few months, he was admitted to the bar.

When Mr. Fort returned from law school the Greeley-Grant campaign of 1872 was in progress, and he entered that campaign for General Grant with vigor. During the next three months he made twenty-seven speeches in South Jersey. In the winter of 1873 he was made Assistant Journal Clerk of the Assembly, and he also held the same position in 1874, earning money enough to reimburse his father for every cent the latter had spent on his education.

Mr. Fort went to Newark at the solicitation of John W. Taylor, then President of the Senate, who was at that time the Senator from Essex. Hardly had he settled in Newark before he became interested in politics, and in 1874 he went on the stump for George A. Halsey, the Republican candidate for Governor. In April, 1876, Mr. Fort married Miss Charlotte Stainsby, daughter of former State Senator William Stainsby, of Newark.

In 1878 Governor McClellan appointed Mr. Fort a Judge of the District Court in Newark, and he was reappointed by Governor Ludlow, but resigned the office in 1886 to engage solely in the practice of the law.

In 1884 he was elected a delegate at large by the Republican State Convention to the National Convention held at Chicago. At that place, with six others, he acted independently and voted for George F. Edmunds, of Vermont, for President, until the latter was dropped, and then voted with the rest of the New Jersey delegation for James G. Blaine, whom he loyally and vigorously supported after the convention. In 1889 he was chairman of the convention which nominated General E. Burd Grubb for Governor, and toured the State with him, and was greatly disappointed at his defeat. He was also chairman of the Griggs convention in 1895 and was a speaker with the latter in the "whirlwind" campaign of that year, which resulted in the election of the first Republican Governor in thirty years.

In 1896 Mr. Fort was a delegate to the National Convention at St. Louis, at which McKinley and Hobart were nominated, and speaking for New Jersey, he placed the name of Garret A. Hobart before the convention. He was also chairman of the committee on credentials at this convention and presented the majority report for that committee, which read J. Edward Addicks, of Delaware, out of the Republican party. Judge Fort's speeches denouncing Addicks and later nominating Hobart gave him a national reputation as an orator.

Governor Griggs appointed Mr. Fort Judge of the Court of Common Pleas of Essex county in December, 1896, and on May 4, 1900, he was appointed a Justice of the Supreme Court by Governor Voorhees. The date of his appointment was the anniversary of the date of his coming to Newark.

While a member of the Supreme bench Justice Fort sat in many of the counties of the State and made friends in all. He has presided over the courts of Morris, Monmouth, Middlesex, Ocean, Union and Hudson counties. While in Monmouth county he directed the movements which drove the gamblers from Long Branch in 1902.

Governor Fort has made speeches in different parts of the country on various subjects by request. In 1899 he made a tour of European prisons under a commission from the United States and reported on them upon his return. The idea of probation and indeterminate sentences was such a new one, that when Governor Fort drew the original bill providing for them for the Senate and House he had trouble in getting any one to father it. A hearing was given on the bill, and the Governor appeared in its behalf, with the result that it passed by unanimous vote in each house with the exception of one man.

Governor Fort removed from Newark to East Orange in 1889, and has lived at 51 Arlington avenue, north, in that city since that time. He has three children, Miss Margretta Fort, Franklin W. Fort, a lawyer in Newark, and Leslie R. Fort, editor of the Lakewood Times and Journal. The Governor attends the Presbyterian Church and is a trustee of the Munn Avenue Church at East Orange and the Spring Lake Presbyterian Church, at which latter place he owns a summer

cottage and spends five months in the year. He was active in St. Paul's Methodist Episcopal Church for many years when in Newark.

He is a man with few recreations; no sports of any kind. He was devoted to the law and his judicial duties, and he found them a delight.

He is no respecter of persons; rich and poor approach him with equal ease. He probably knows as many people as any man in the State.

The Governor has been President of the Sons of the American Revolution of New Jersey since 1905 and is a member of the American Bar Association and the New York and East Orange Republican Club and the Essex Club.

He was elected Governor of New Jersey for a term of three years, on November 5th, 1907, by a plurality of 8,013 over Frank S. Katzenbach, Jr., the Democratic candidate.

Fort, Republican, 194,313; Katzenbach, Democrat, 186,300; Mason, Pro., 5,255; Krafft, Soc., 6,848; Butterworth, Soc.-Lab., 1,568.

UNITED STATES SENATORS.

JOHN KEAN, Elizabeth.

Senator Kean was born at Ursino, Union county, New Jersey, in the house where he now resides, on December 4th, 1852. The house is historic, being known as "Liberty Hall," and was erected by Governor Livingston in 1772. Washington held many conferences with his Generals within its walls, and Alexander Hamilton studied law there. And in the same house John Jay was married to one of the daughters of the Governor. Another home, at 3 East Fifty-sixth street, New York city, also belongs to Mr. Kean, where he spends much of his time during the winter.

When a young boy the Senator was sent to a boarding-school in Stockbridge, Mass., and was transferred from there to a private academy at Sing Sing on the Hudson, where he received a much higher education than was necessary for him to enter Yale College, which he did in 1876. He afterward took a course in the Columbia College Law School, and was admitted to the bar of New Jersey in 1877.

Mr. Kean was elected to Congress in 1882, and again in 1886. In 1892 he was defeated for Governor by his Democratic opponent, George T. Werts.

The Senator is a prominent business man, and is engaged in numerous manufacturing, mercantile, railroad and financial enterprises, which furnish employment to a large number of mechanics and artisans, especially in the city of Elizabeth, where he is so well and favorably known. He has helped materially in promoting the growth of that city, and to him, more than to any other person, is due its present prosperity. He fills many positions of honor and trust in the banking and commercial communities. He is President of the National State Bank, of Elizabeth, and a director in the Elizabeth Banking Company. He is also President of the Elizabeth Water Company and the Gas Light Company of the same city. He holds the largest interest in the Elizabeth Street Railway Company, and his latest undertaking was the construction of a trolley line from Elizabeth to Plainfield, for the franchise of which he paid a large sum of money.

The Senator has always been an active Republican, and for several years he served as the Treasurer of the State Committee of his party. He was the unanimous choice of

the Republican caucus for United States Senator in January, 1899, and received the full vote of his party when he was elected to that office in a joint meeting of the Legislature, held soon afterward, his Democratic opponent being the then incumbent, James Smith. Senator Kean was elected for a term of six years in 1899 and was re-elected in 1905 for a similar term, which will expire in 1911.

FRANK O. BRIGGS, Trenton.

Senator Briggs was born at Concord, New Hampshire, in 1851. He is the son of Major James F. Briggs, who held a commission in the Eleventh New Hampshire Volunteers during the Civil War. The father served three terms as Congressman and was a prominent candidate for United States Senator before the New Hampshire Legislature in 1883. There was an exciting contest for the office which lasted from June until August. Senator Rollins, although the nominee of the caucus, was defeated. Other candidates were General Marston and General Stevens, and Congressman Pike, who was finally elected.

The Senator was a student at Phillips Exeter Academy in 1866, '67 and '68, and on September 1, 1868, entered the U. S. Military Academy at West Point, graduating sixth in rank in the class of 1872. He served in the Second U. S. Infantry as Second Lieutenant until 1877, when he moved to Trenton and became associated with the well-known firm of John A. Roebling's Sons Company, wire rope manufacturers, bridge builders, etc., of which he is assistant treasurer. He was elected Mayor of Trenton on April 11, 1899, by a majority of 816 over Joseph A. Corey, Democrat, and served as such until January 1, 1902. He was appointed a member of the State Board of Education by Governor Voorhees in 1901 for a term of three years, but resigned that office in 1902, upon his election to the position of State Treasurer.

On January 3, 1902, the Senator was appointed State Treasurer by Governor Voorhees to fill a vacancy caused by the death of George B. Swain, of Newark, which occurred on December 25, 1901. That was an ad interim appointment. On February 11, 1902, he was elected by a joint meeting of the Legislature for a full term of three years, and he was re-elected by the Legislature of 1905. He served in the office until

March 1, 1907, when he resigned and was succeeded by Daniel S. Voorhees. Mr. Briggs was elected United States Senator February 5, 1907, for a full term of six years.

During a residence of over thirty years in Trenton, Mr. Briggs has taken a deep interest in all matters which tended to promote the welfare of the city. As a public-spirited citizen he enjoys a high degree of popularity, and in politics he has always been a steadfast Republican. In 1904 he was elected chairman of the State Republican Committee. He displayed great ability and industry in the management of the successful campaign of that year. For several years he was President of the Inter-State Fair Association. In 1907 he resigned the presidency of that association and also that of the Republican State Committee. He is still a member of the latter body, representing Mercer county, and is chairman of the Executive Committee. His term as Senator will expire in March, 1913.

WILLIAM HUGHES.

(Dem., Paterson.)

Mr. Hughes was born in Ireland on April 3, 1872, and came to this country with his parents when a child. He obtained nothing more than a common school education, abandoning his studies in 1882 to take a position as reel boy with the Barbour Flax Spinning Company, of Paterson. When he worked there for two months he returned to school, but after a short period of study he resumed work in a silk mill. He worked as a weaver for various silk firms in the city of Paterson until 1893, when he entered Oakley's Business College, at Paterson, where he studied and made himself proficient in the practice of stenography and typewriting. He then secured a position with the American Grocery Company in New York City as stenographer, and remained with that firm for about a year, leaving it for the purpose of beginning the study of law in the office of William M. Rysdyk, of Paterson. In 1898 he abandoned his studies to enlist in Company A of the Second Regiment, N. G. N. J., V. I., and served with his company at Sea Girt and Jacksonville, Fla., during the five months the regiment was in the volunteer service. At Sea Girt Mr. Hughes was detailed as stenographer to

Governor Foster M. Voorhees, and at Jacksonville was assigned to the headquarters of the Seventh Army Corps, where for a period of three months he acted as stenographer to Major-General Fitzhugh Lee. Returning to Paterson when the regiment was mustered out of service, in September, 1898, he entered the office of William Nelson to resume his legal studies. After remaining with Mr. Nelson for a time he entered the office of former Attorney General John W. Griggs, where he remained until he was admitted to the bar, in June, 1900. During all his young manhood Mr. Hughes has been intimately connected with the cause of organized labor. He was president of the Eastside Workingmen's Association in 1897, and after his admission to the bar became the counsel for the Bricklayers and Masons' Union, the Bakers' Union, the Ribbon Weavers' Union and the United Silk Workers of America. Associated with Mr. James G. Blauvelt, he acted as counsel for the weavers in the celebrated Chancery case in which Vice Chancellor Pitney held a number of striking silk workers to be guilty of contempt of court and sentenced them to fines and imprisonment. Mr. Hughes married while a soldier in 1898, returning to Paterson from Jacksonville on furlough for that purpose. He was a candidate for Assembly on the Democratic ticket in Passaic county in 1901. He ran more than 800 ahead of his icket, but was defeated by Raymond Bogert, Republican, by 409 votes in the county. He was elected to Congress in 1902 by a plurality of 3,848 over Barbour, Republican; in 1904 he was again a candidate for Congress, when he was defeated by Henry Crosby Allen, Republican, by a plurality of 510. ERNEST R. ACKERMAN.

(Rep., Plainfield.)

Senator Ackerman was born in New York city, June 17, 1863, and has been a resident of Plainfield for the greater portion of his life. He was educated at the Plainfield public schools, graduating from the High School in the class of 1880. Mr. Ackerman's ancestors were actively engaged in the Revolution. Philip Markley, his great-great-grandfather, was appointed in 1777 a commissioner to collect supplies for the American army, and John Markley, his great-grandfather, served in the Pennsylvania militia in 1781. His father was J. Hervey Ackerman, of Plainfield, President of the Common Council, and at one time its City Judge.

Obtaining a position with the Lawrence Cement Company, in New York, Mr. Ackerman rose through its various offices to that of president, which position he still occupies. As a member of the Plainfield Common Council, in 1891-1892, he was opposed to the granting of unlimited franchises to public utilities corporations, and vigorously strove to limit the grants which were being considered at that time.

In 1907 Mr. Ackerman was appointed by the New Jersey Senate, with Senators Hutchinson and Price, a committee of three to investigate the subject of capital punishment, and he was delegated to pursue the European end of the inquiry. On this mission he visited Great Britain, France, Belgium, Germany and Spain. An exhaustive report on this subject was presented by the committee to the Senate of 1908.

The Civil Service Law is considered by some as being the most important act of the Legislature of 1908. Mr. Ackerman introduced the bill on the first day of the session. After continuous struggling throughout the winter and early spring, it was finally passed on the night of the last day of the session, and in a form to meet the approval of those advocating this reform, which has been so successful for many years in other States and in the United States Government.

Last year he served as chairman of the Senate Committees on Finance, Corporations and Riparian Rights, and for two sessions as a member of the Committee on Appropriations.

Mr. Ackerman was a Republican Presidential Elector in 1896, and was secretary of the New Jersey Electors in 1897. He has been chairman of the Republican City Executive Committee of Plainfield, and has been a delegate to city, county, State and National Conventions of the Republican party. He was selected by the National Convention, held in Chicago, June, 1908, to be New Jersey's representative on the committee to notify the Hon. James S. Sherman of his nomination to the office of Vice-President. For twenty years Mr. Ackerman has been a director of the Young Men's Christian Association, and is an honorary governor of the Muhlénburg Hospital, of Plainfield. He is a member of the New York Chamber of Commerce, the Union League Club of New York, the Lawyers' Club and the American Association for the Advance-

ment of Science. He is also an active philatelist and numismatist, an associate of the American Society of Civil Engineers, and a fellow of the American Geographical Society. Notwithstanding his many duties, Mr. Ackerman has found time to travel extensively, having made fourteen voyages to Europe, and also two trips encircling the globe.

He was elected to the Senate in 1905 by a plurality of 2,799 over Nugent, Democrat. He was re-elected to the Senate in 1908 by a plurality of 5,895 over Hyer, Democrat.

JOHNSTON CORNISH.

(Dem., Washington.)

Senator Cornish, one of the representatives and active young business men of the State, in the prime of life, and with a political and business experience unsurpassed by few of his age, returns to the Senate of New Jersey for the fourth term, having been chosen again, by the largest majority ever accorded him by the voters of Warren county. The holding of public office by Senator Cornish is not of his own seeking, but in response to a popular demand. When a very young man he was elected Mayor of Washington, and at the close of his first term was re-elected without opposition, and afterwards re-elected for another term, thus acting as Mayor for three consecutive terms. Following his final term as Mayor, in 1890, he was elected to the Senate for the first time, and at the expiration of his Senatorial term was elected to Congress from the Fourth District of New Jersey. After having served his constituents in Congress he took up the active management of the extensive piano and organ business of the Cornish Company, of which he was elected secretary and general manager. In 1899 he was again nominated and elected as the representative of Warren county in the State Senate by an increased majority. After

completing his term he again became a private in the ranks and resumed his business relations with the Cornish Company, until the fall of 1905, when he was again elected to the Senate. Last fall he was the unanimous choice of the Democrats, and received the nomination for Senator without a dissenting vote. The Republican party nominated as his opponent Ex-Mayor Robert M. Petty, of Washington, and a hard-fought contest followed, but Senator Cornish was elected by 1,821 majority, the largest majority he had ever received in Warren county, and carried every voting district in the county, with the exception of two small districts. Last year he served on the Committees on Appropriations, Elections, Militia, Railroads and Canals, State Home for Girls and State Library.

1908—Cornish, Dem., 5,639; Petty, Rep., 3,818; Moersch, Soc., 73; Richards, Pro., 266. Cornish's plurality, 1,821.

JOSEPH H. SCHARFF.
(Rep., Hasbrouck Heights.)

Mr. Scharff was born in Newark in 1866. His mother, Frances A. Scharff, was a daughter of E. P. Seward, a member of the well-known Seward family. His father, Christian H. Scharff, came with his parents when a child to this country, from Amsterdam, Holland, in the early forties. His parents located in Newark, and he graduated from Princeton, and became a prominent member of the Newark bar before he died, at the early age of thirty-five years, leaving a widow with six children, four boys and two girls, Joseph Henry being the youngest of the boys.

Mr. J. H. Scharff, after finishing the public school course in Exeter, N. H., went for one year to Phillips Exeter Academy, and in 1883 was forced to leave and begin his business career at seventeen years of age.

Being of a mechanical turn of mind, and as the electrical field at that time seemed most promising, he sought a position with the United States Electric Lighting Company, in Newark, N. J., with the intention of learning the business thoroughly, and worked energetically through several departments. He was diverted from this into channels of experimental work, and the original intention was thus destroyed. The next two years were passed drifting from one occupation to another without definite aim. During this period of varied experiences he served as a clerk in New York, as a farm hand in Orange county, and as a traveling salesman for the Backus Water Motor Company, of Newark. In 1885, when but nineteen years of age, he was given an opportunity to go to Southern California in a mining enterprise, having in charge the "teaming outfit." At the end of two years, after many hard and bitter experiences, the ore vein ran out, and the mine closed down. Mr. Scharff at that time held the position of superintendent. He returned to the East and procured a position with the State agency in the Mutual Benefit Life Company, of Newark, at Albany. Not liking the business, he went back as salesman for the Backus Water Motor Company. Later Mr. Scharff left the Backus Motor Company and organized a company of his own, under the name of "The Scharff Manufacturing Company," the purpose of which was the manufacturing of and installing continuous process drying apparatus in manufacturing plants. This company continued successfully until the business depression in 1892. In 1893 overtures were made to Mr. Scharff to go with the Fidelity and Casualty Company, which he did, in the capacity of special agent, operating in the territory of Paterson, Passaic and vicinity. Mr. Scharff's efforts on behalf of this company were successful from the start, and he was shortly made resident manager of Northern New Jersey, with headquarters at Newark. Since then Connecticut and Southeastern New York have been added to his field. For the past seventeen years he has been active in Republican politics, and is a member of the Bergen County Republican Committee. He is a member of both the Masons and Elks.

He was elected to the Assembly by a plurality of 6,023 over Burr, the highest candidate on the Democratic ticket.

He is president, also, of the Board of Education of his home town. He is connected with the law department of the Title Insurance Company of New York, 135 Broadway, New York City. THE JUDICIARY.

UNITED STATES DISTRICT COURT.

WM. M. LANNING, Trenton.

Judge Lanning was born on a farm in Ewing township, Mercer county, N. J., January 1, 1849. His ancestors were among the earliest settlers in New Jersey, the family having resided within the territory now embraced in Mercer county since 1698.

He was given a liberal education, graduating from the Lawrenceville High School in 1866. For six years subsequent to his graduation he taught in the district schools of Mercer county and from 1872 to 1878 he was engaged as a teacher in the old Trenton Academy; from 1878 to 1880 he was principal of the public school at East Trenton.

It was while acting as a justice of the peace in Ewing township that he acquired a taste for the law. He was elected as justice of the peace in 1876 and studied hard to fit himself for the place. From this study he decided to make law his life's work, and during the last four years of his position as a teacher he was also engaged in the study of the law with the late George A. Anderson and General Edward L. Campbell as his preceptors. He was admitted to the bar in November, 1880.

Mr. Lanning at once opened an office in Trenton and his ability was soon recognized. In 1883 he was admitted as a counselor at law, and the following year he was made City Solicitor of Trenton. He served in that capacity until 1887, when he was made Judge of the City District Court, a position he occupied until 1891, when, with other District Court judges, he was legislated out of office.

With Judge Vroom, Judge Lanning in 1887 compiled the "Supplement to the Revision" of the General Statutes of New Jersey. In 1894 they were authorized by legislative enactment to compile and publish an up-to-date set of the General Statutes.

In 1885 Judge Lanning published a standard work entitled "Help for Township Officers," which has run into a second edition. He was a member of the Special Commission that framed the present comprehensive township laws. Judge Lanning was a member of the Constitutional Commission of 1894 and has participated in many notable events of a legal character in the state.

He was a director and counsel for the Mechanics National Bank and for several years was also counsel for the Trenton Banking Company. He served for a time as President of the Mechanics Bank, being succeeded by Edward C. Stokes (since Governor) in that position.

Judge Lanning is a member of the Board of Managers of the Trenton Savings Fund Society, of the Board of Trustees of the General Assembly of the Presbyterian Church in the United States of America, of the Board of Directors of the Princeton Theological Seminary and of the Board of Trustees of the Lawrenceville School.

He was elected to Congress in 1902 by a plurality of 2,006 over Colonel Lewis Perrine, the Democratic candidate. After the first session of the Fifty-eighth Congress he resigned, in order to qualify for the judicial office he now holds as successor to Judge Kirkpatrick, who died May 30th, 1904. He took the oath of office June 6th, 1904. His salary is \$6,000 a year, and the office has a life tenure.

Judge Cross was born near Morristown, N. J., December 29th, 1843. He graduated from Princeton University in the class of 1865. Immediately thereafter he began the study of law in the office of William J. Magie, ex-Chancellor of New Jersey. He also took a course of lectures at Columbia College Law School, and was admitted to practice as an attorney-at-law in June, 1868, and as a counselor in 1871. Upon his admission to the bar he was taken into partnership by his preceptor, under the firm name of Magie & Cross, which relation existed until 1880, when Mr. Magie was appointed one of the Justices of the Supreme Court. Judge Cross has resided in Elizabeth since the spring of 1858, and has always been a staunch Republican. In 1888 he was appointed Judge of the District Court of the city of Elizabeth, but in common with all of the other Republican District Court Judges of the State, was legislated out of office in April, 1891.

Judge Cross was elected a member of the Assembly from Union county in the fall of 1893, and again in 1894. When Speaker Holt resigned the chair, May 26th, 1894, Mr. Cross was chosen his successor for the remainder of the session. In 1895 he was re-elected Speaker by the unanimous vote of his Republican colleagues. In November, 1898, he was elected Senator, to fill the vacancy caused by the resignation of Senator Voorhees, who had been nominated as the Republican candidate for Governor.

He was re-elected to the Senate for a full term in 1899 by a plurality of 2,471, being an increase of 491 over that of the previous year. He was again re-elected in 1902 by a plurality of 1,186 over James E. Martine, his Democratic opponent. WILLIAM H. VREDENBURGH, Freehold.

Judge Vredenburg comes from a very old New Jersey family, being the second son of the late Judge Peter Vredenburg. The first generation of the family on this side of the Atlantic, as appears from ancient records, sprang from William I. Vredenburg, who came to New Netherlands from The Hague in May, 1658, in the ship Gilded Beaver.

Peter Vredenburg, father of the present Judge, was a prominent jurist in both State and nation. He served two terms as an Associate Justice of the New Jersey Supreme Court, being first appointed by Governor Price, in 1855, and again by Governor Olden in 1862. Many of his decisions are regarded as being among the ablest reported.

Judge Vredenburg was born August 19th, 1840; was graduated at Rutgers College in 1859; studied law in the office of the late Governor Joseph D. Bedle; was admitted to practice as an attorney in June, 1862, and as a counselor in June, 1865. He is one of three sons, all of whom were lawyers.

After his admission, young Vredenburg began the practice of his profession at Freehold, his native town, and has continued to carry on the law business there ever since, with the exception of about a year, 1864, when he was located at Eatontown, to continue the business of his brother, Major Peter Vredenburg, Jr., who was absent in the military service, and who was killed September 19th, 1864, at the battle of Winchester, Va., at the head of his regiment.

In 1865 Mr. Vredenburg formed a law partnership with Philip J. Ryall, which continued for about five years, until Mr. Ryall's failing health compelled his retirement from practice. In the exciting general election of 1884, Mr. Vredenburg was nominated by the Republicans of Monmouth county for State Senator, and was only defeated by the retirement of the regular Democratic candidate a few days before the election and the fusion of the Democrats and Prohibitionists, and by a very narrow majority.

In 1897 he was one of the special Commissioners to consider the question of railroad taxation, whose report became enacted into the body of the tax laws.

In November, 1897, he was appointed a Judge of the Court of Errors and Appeals by Governor Griggs, to fill a vacancy caused by the death of Judge Dayton. On January 12th, 1898, he was nominated for a full term of six years by Governor Griggs, and he was confirmed by the Senate on the 18th of the same month. On January 18th, 1904, he was appointed by Governor Murphy for another term of office, and on the 25th was confirmed by the Senate. In politics the Judge is a Republican. Garretson, Justice of the Supreme Court. After studying law with his father, Mr. Vroom was admitted to the bar as an attorney at the June term, 1865, and three years later he was made a counselor. He at once began the practice of his profession in Trenton. He was elected City Solicitor of Trenton in 1866, and held that office until 1870, and again

from 1873 to 1876. He was appointed Prosecutor of the Pleas of Mercer county in May, 1870, to succeed General C. K. Hall, deceased, which office he resigned in December, 1873, on being appointed Reporter of the Supreme Court, a position he has held ever since. From 1881 to 1884 Mr. Vroom was Mayor of the city of Trenton, and on the creation of the Board of Public Works of that city, was appointed a member of that body, and held the office of President during its existence. In 1877, in conjunction with the late John H. Stewart, he prepared for publication the "Revision of the Statutes of New Jersey," under the direction of the Commissioners, which publication included the statutes revised as well as the entire body of the statute laws of the State. In 1887 Mr. Vroom and Judge William M. Lanning issued the supplement to the Revision, and in 1894 they were authorized to prepare a New Revision in three volumes, entitled "The General Statutes of New Jersey."

The nomination was made on February 5th, 1901, for a full term of six years, and it was confirmed by the Senate on the 12th of the same month. In 1907 he was reappointed by Governor Stokes.

Colonel Dickinson was born in Philadelphia, November 5, 1850. He was educated in School No. 1, Jersey City. For some time he was employed in the old Union Bank in that city and he was also in the real estate business. He was enrolled as a private in the Fourth Regiment Rifle Corps, April 21, 1868, became corporal of Company E, Fourth Regiment, National Guard, April 14, 1869, and then served through all the grades to the colonelcy, which he reached on April 22, 1885. In 1883 he was an officer of the

American Rifle Team and went to England in that year to compete in the international rifle match.

The Colonel has always been active in politics and for several years has been the recognized Republican leader of Hudson county. For a long period he has been in close relationship with the state leaders of his party and to an eminent degree enjoyed the confidence of the late General Sewell. He served as Comptroller of Jersey City for four years and until 1899. He was appointed Postmaster of Jersey City by President Harrison and served five years, one of which was under the Cleveland administration. He was City Treasurer of Jersey City for four years under an appointment made by Mayor Wanser. Upon leaving the Treasurer's office he was made agent for the Hoboken division of the United Electric Company, which position he held until his appointment as Secretary of State. The Colonel was Collector of the Port of Hudson county for one year.

The nomination of Franklin Murphy for Governor was brought about largely through the efforts of the Colonel. He started the movement in that direction and never tired until the State Convention of his party ratified his choice. The splendid endorsement given by the people at the polls to the selection of Mr. Murphy as a candidate was a demonstration of the wisdom displayed by the Colonel in the matter. As a fearless leader and experienced politician the Colonel has made an enviable record in that hot-bed of Democracy, Hudson county.

Colonel Dickinson was nominated for Secretary of State by Governor Murphy on March 17, 1902, and he was confirmed by the Senate two days later by an unanimous vote. In 1907 he was renominated by Governor Stokes and was again confirmed by the Senate for another term. His term of office is five years and will expire on April 1, 1912. His salary is \$6,000 a year.

Assistant Secretary of State.

J. B. R. SMITH, Trenton.

Mr. Smith was born at Branchville, Sussex county, in 1869, coming of a line of village merchants of that town, extending back to 1836. When ten years old he began a clerkship in his father's store, spending his evenings, holidays and vacations at that work, and attending the public

schools during the daytime until he entered Wyoming Seminary, Kingston, Pa., in 1887. After completing his course at that institution he became a partner in the Branchville business, which lasted until he purchased the newspaper known as the Warren Tidings, at Washington, N. J., in 1893, and became its editor. He was appointed court clerk in the Secretary of State's office May 1, 1897, and held that position until he was promoted to his present office. He studied law with Oscar Jeffrey and was admitted to the bar as an attorney at the June term, 1900. On April 8, 1902, he received his commission as Assistant Secretary of State, and it was renewed in 1907.

For several years Mr. Smith has been prominently identified with the New Jersey newspaper profession, and he feels very proud of that record. For some years he has taken an active part in the politics of Warren county and is recognized as one of the leaders there of the Republican party. Since his admission to the bar he has enjoyed a good practice at corporation law and in the Surrogate's Court.

Mr. Smith's powers and duties as Assistant Secretary of State, as defined by statute, are: "He shall, during the absence or inability, through sickness or other cause, of the Secretary of State, have the same powers and perform the same duties which are now imposed by law upon the Secretary of State."

State Treasurer.

DANIEL S. VOORHEES, Morristown.

Mr. Voorhees was born in Somerville, N. J., August 15, 1852. He is a descendant of Lucius Von Voorhees, who emigrated to this country in the year 1600. When a small boy he, with his family, moved to Elizabeth, Union county. He sold newspapers at the Elizabeth railroad station for some time and also worked in a hardware store. In 1869 he removed to Morristown, and on June 1, 1870, he became a clerk in the office of the Clerk of Morris county. In 1876 he was made Deputy Clerk by William McCarthy, the incumbent of the office, who was a Democrat. Mr. Voorhees held that office until 1898, when he received the Republican nomination for County Clerk and was elected by a majority of 1,200. He filled the office with so much satisfaction and made himself so very popular

throughout the county that he was renominated and re-elected by the surprising majority of 3,500. He spent thirty-seven years altogether in the County Clerk's office. Mr. Voorhees enjoys the distinction of having nearly as many Democratic as Republican friends in Morris county. Broad-minded in his views of all public questions, a loyal member of his party, appreciative of his numerous friends, a great favorite in social circles, a member of many clubs, and ardently fond of the art of Izaak Walton, the popularity of Mr. Voorhees is thus attested.

Mr. Voorhees was elected State Treasurer by a joint meeting of the Legislature on February 14, 1907, for a full term of three years to succeed Frank O. Briggs, who had resigned the office to become United States Senator. He assumed the duties of the office on March 1, 1907. His salary is \$6,000 a year and his term expires in 1910.

He served a regular apprenticeship in the machine shops and other departments of the works, after which he was made assistant in the management of the concern, retiring from that position in June, 1885. Mr. West was appointed Under Sheriff of Camden county, by Sheriff Baird, in November, 1887, and was elected Sheriff in 1890. In September, 1903, he was appointed by the then Attorney-General of the United States, William H. Superintendent of Public Instruction.

CHARLES J. BAXTER, Trenton.

Mr. Baxter was born at Glenwood, Sussex county, N. J., on November 8th, 1841. He attended the district school there until he was twelve years of age, after which he went to work on his father's farm, continuing his studies by himself and with the help of an uncle who had graduated from Lafayette College and then lived on the next farm. On his eighteenth birthday he started his educational work as a teacher in the district school at Frankfort

He gradually improved the condition of the school until it was converted into a High School, remaining in that position for thirteen years. After leaving Franklin Furnace, about thirteen years ago, he moved to Plainfield, where he became connected with the Provident Life and Trust Company, of Philadelphia.

In 1875 Mr. Baxter was nominated and renominated as County School Superintendent of Sussex county by the State Board of Education, but was rejected by the Democratic Board of Freeholders because of his party affiliations. This started the agitation which resulted in that power being taken from the Board of Freeholders and given to the Board of Education. He was appointed to his present position by Governor Griggs on March 24th, 1896, as a successor to Addison B. Poland, who had resigned. Two days later Mr. Baxter was confirmed by the Senate for a full term of three years. Keeper of the State Prison.

Mr. Osborne was born at Elmira, New York, June 24, 1845. His great-great grandfather on his father's side came to this country from England about 1780 and located at New Fishkill, New York, where his grandfather, Jonah Osborne, was born in 1791, who served in the war of 1812 and was wounded in the battle on Lake Ontario. At the close of the war he located near Elmira, N. Y., where Mr. Osborne's father was born in 1821.

On his mother's side he is descended from Ezra Earll and his wife, Mary Sabin, one of the oldest families in New York State. The pioneers of the Earll family came to this country from England in 1639 and located on the ground where the city of Boston is now situated. The Earll family are the present owners of Cromwell's Lake, New York, which has been in their possession since 1762.

was educated. Mr. Osborne, Sr., enlisted in the Union Army when his son was about 17 years of age. After his father had gone to the war Mr. Osborne ran away from home and enlisted twice, first in the Twelfth and afterwards in the One Hundred and Forty-first New York State Volunteers, but both times at the strong solicitation of his mother and through influence of friends, owing to his youth, he was discharged from the service and returned to his home, and then sent by his mother to a friend of the family, P. J. Powless, who had charge of the county institutions at Snake Hill, Hudson county, N. J. At this place he was employed as assistant to the superintendent from January, 1863, to November, 1865, at which date he was appointed Warden of the Hudson County Almshouse, to which position he was re-elected for ten consecutive years. He was nominated by Governor Murphy to the office of Keeper of the State Prison on March 5, 1902, to succeed Samuel S. Moore, and the nomination was confirmed by the Senate six days later. He entered upon his duties as State Prison Keeper March 18, 1902. In 1907 he was appointed and confirmed for another term of office. The term is for five years and will expire March 18, 1912, and the salary is \$3,500 a year.

State Prison Supervisor.

SAMUEL W. KIRKBRIDE, Asbury Park.

Mr. Kirkbride was born May 30th, 1848, at Mt Holly, Burlington county, N. J., and is a contractor and builder. He spent his boyhood days in Mt. Holly, and received his education in the public schools of that place. At the age of fifteen years he enlisted in the Union army, to do battle against the South, but was prevented by his family from going to the front. Twice afterward he re-enlisted, but each time he was thwarted by his family. From 1865 to 1869 Mr. Kirkbride was variously employed—as a news-boy on trains of the Pennsylvania Railroad Company, as clerk and as a carpenter's apprentice. Under his father he learned the trade of a carpenter, and so rapidly did he acquire a knowledge of the general work that in 1869 he was admitted into partnership with his father. He remained a member of the firm until 1871. He then began business on his own account, and in 1877 he formed a partnership with Joseph B. Kirkbride. A year later they engaged in business in Asbury Park, where they built several large hotels. He was a member of the Neptune Township Committee from 1884 to 1890, member of the Board of Health for five years, Township Treasurer for three years, member of the Board of Education for six years, and member of Common Council of Asbury Park for ten years and President of the latter body in 1898. He served as a member of the House of Assembly in 1900 and 1901 and was assigned to important committees. Mr. Kirkbride was nominated by Governor Stokes to the office of Supervisor of the State Prison on February 20, 1906, and was unaimously confirmed by the Senate on March 5th. He has always been a steadfast Republican. His term is three years and salary \$3,000.

State Librarian.

HENRY C. BUCHANAN, Trenton.

Mr. Buchanan was born in Falls township, Pa., within a few miles of Trenton, March 7th, 1851. His father was William Buchanan, who came to this country from Scotland in 1842, when a young man. The State Librarian attended the public schools in his native place until he was

about eleven years of age, when he entered the Trenton Academy. When thirteen years old he left school and learned the printer's trade, at which he was employed until January 1, 1882, when he became proofreader and news editor of the Trenton State Gazette, where he remained until his appointment as State Librarian.

Besides being city and news editor on the Gazette, Mr. Buchanan, for sixteen years, was the Trenton correspondent of the Paterson Press, and for five years he acted in a like capacity for the New York Sun. He was for several years also the Trenton correspondent of the Philadelphia Inquirer. On February 1st, 1899, he received his commission as State Librarian as successor to Morris R. Hamilton, for a term of five years. In 1904 he was appointed for another term of five years. His salary is \$3,000 a year.

Commissioner of Banking and Insurance.

DAVID O. WATKINS, Woodbury.

Mr. Watkins was born at Woodbury, N. J., June 8th, 1862. He worked on a farm in his neighborhood, studied law at night time and was admitted to the bar as an attorney at the November term of the New Jersey Supreme Court, in 1893, and as a counselor at the February Term: 1897. He was Mayor of Woodbury for four terms of one year each, from 1886 to 1890. He was Councilman from the Third Ward of Woodbury from 1892 to 1895, when he was re-elected and served until 1898. He was elected President of the City Council in March, 1895, again in 1896, and again in 1897. He has served for some time as Solicitor of the city of Woodbury, and counsel to the Board of Freeholders for Gloucester county. He was elected to the State Assembly in 1896 by a plurality of 1862, the largest ever given a candidate for public office in Gloucester. He was re-elected in 1897 and 1898.

Mr. Watkins served as Speaker of the House of Assembly in 1898 and 1899, when he made a record for dignity, uprightness and impartiality which has been seldom equalled in the Legislature of New Jersey. At the close of the session of 1898 he was presented on behalf of the members with a suitable testimonial in recognition of his worth, and the phrase, "As fair as Watkins" there and then originated to be handed down as an example for future occupants of the chair. And at the close of the session of 1899 he was

paid a similar compliment. On both occasions the Democratic minority vied with the Republican majority in bestowing the meed of praise.

Speaker Watkins became Acting Governor of the State on October 18th, 1898. That office had been held by President of the Senate Voorhees from January 31st, that year, and until the date mentioned, when his resignation as Senator from Union county was presented and filed, thus creating a vacancy also in the higher office, which was at once filled by the Speaker of the House, in accordance with the requirements of the Constitution of the State. The vacancy in the office of Governor in the first place was caused by the resignation of John W. Griggs, the then incumbent, that he might accept the position of Attorney-General of the United States. In his new sphere of duties Mr. Watkins gave eminent satisfaction, and he served in the office until January 16th, 1899, when Foster M. Voorhees was sworn in as Governor for a term of three years.

Mr. Watkins was appointed United States Attorney for the District of New Jersey in February, 1900, for a full term of four years, but resigned that office in March, 1903. He was nominated by Governor Murphy on March 10, 1903, to his present office and was unanimously confirmed by the Senate, two days later, for a full term of three years. He succeeded William Bettle, who held the office for eight years. He was reappointed by Governor Stokes in 1906. His salary is \$6,000 a year and his term will expire April 2, 1909. In 1904 he was elected a member of the State Republican Committee from Gloucester county, and continued in office until 1908.

Chief of the Bureau of Labor and Statistics.

WINTON C. GARRISON, Newark.

Mr. Garrison is a native Jerseyman, having been born April 3, 1850, in that section of Newark known as the "Old Ninth Ward."

He was among the first pupils that attended the Chestnut Street School. After finishing his studies in that institution he took the High School course, at the conclusion of which he entered the employ of a woolen house in New York. This was in 1866, and four years later he embarked in business for himself. Mr. Garrison carried on business successfully for thirty-one years, when, having amassed

a moderate competence, he retired from active participation in trade matters.

Mr. Garrison early manifested that interest in public affairs which has made him one of the best-known men in Newark, where he resides, but not until 1895, when he entered the City Council as the representative of the Eighth ward, did he hold a public office of any kind. He remained four years, or from 1895 to 1899, in the City Council, and during his last year of service was the recognized leader of his party in that body. He left the Council with the reputation of being one of the most painstaking and efficient members that had ever taken part in its deliberations.

The next position of responsibility and trust held by Mr. Garrison was membership in the Board of Street and Water Commissioners of Newark, to which office he was elected in 1900 for a term of three years. As a Commissioner Mr. Garrison is fairly entitled to a large share of the credit due the Board for many improvements, some already realized and others assured, in the lines of public service that came under its authority, chief among them being the elevation of the tracks of the Pennsylvania, Central, and D. L. & W. railroads; the settlement of the water supply contract, and the burying underground of electric light and trolley wires. While a Street and Water Commissioner Mr. Garrison was offered and urged to accept a position on the Passaic Valley Sewerage Commission, but declined on the broad ground that the people had elected him to serve three years in the Street and Water Board and that a relinquishment of his office before completing that term would be a breach of the contract which he regarded as morally existing between himself and them. He therefore served out his full term as a Street and Water Commissioner, during the last year of which he enjoyed the distinction of being President of the Board.

On April 4, 1903, or immediately after the end of his service in the capacity last referred to, Mr. Garrison assumed the office of Chief of the Bureau of Statistics, having been appointed to that position by Governor Murphy to succeed William Stainsby. The office is one of responsibility and importance because of the relations which exist between it and the great industrial interests of the state. The term is five years and the salary \$2,500 per annum. He was reappointed by Governor Fort in 1908. His term will expire in 1913.

Mr. Garrison is a member of Northern Lodge, No. 25,

F. & A. M.; Royal Arcanum, North End Club, a governor of Northern Republican Club, and director in the Eighth Ward and the Post Office Building and Loan associations. In 1904 he was elected treasurer of the State Republican Committee.

State Board of Assessors.

DAVID BAIRD, President, Camden.

Mr. Baird was born in Ireland, April 7th, 1839. When a lad he came to the United States, and in 1859 located in the city of Camden, which since has been his place of residence. Mr. Baird is pre-eminently a self-made man. Commencing life in this country in a very humble way, he is to-day, and has been for some years, one of the foremost business men of his section of New Jersey, being extensively engaged in the business of handling spars, timber, piling, etc., in the city of Camden as well as being largely interested in lumber operations in other parts of the country.

For the past thirty years Mr. Baird has been so closely identified with the politics of Camden city and county that the history of one would almost seem to be the history of the other. In 1874 he was elected a member of the Board of Chosen Freeholders, and was re-elected for and served four consecutive terms, during which period he was a member of some of the most important committees. In the fall of 1887 he was nominated and elected Sheriff of Camden county, at a time when, through existing conditions, nothing but the personal popularity of David Baird secured to the county a Republican Sheriff. And again he was elected to the same office in 1896, by the largest majority ever given any candidate for any office in the county. He was a delegate from New Jersey to the Republican National Convention of 1892, held at Minneapolis. He was chosen a Presidential Elector in 1900, when he cast his vote for McKinley and Roosevelt. For a number of years he has represented Camden county on the Republican State Committee and as a member of the Executive Committee of that body.

He was appointed a member of the State Board of Assessors by Governor Werts in 1895, for a term of four years, and served as such for one year and six months, when he resigned the office to become Sheriff of Camden county.

In 1901 he was again appointed a member of the same State Board, by Governor Voorhees, for a term of four years, beginning in May of that year, and in 1905 he was given another term by Governor Stokes. His term will expire in 1909.

Then he formed a co-partnership with his brother, Alan H. Strong, which has continued ever since. Mr. Strong was County Solicitor for Middlesex from May, 1895, to May, 1897. He was elected to the Senate in 1900 by a plurality of 2,072 over James H. Van Cleef, his predecessor in office. After serving nearly a full term of three years he resigned that office to accept his present position, to which he was nominated by Governor Murphy on April 1st, 1903, and was at once confirmed by the Senate. As a member of this Board he succeeded John C. Rankin, Jr., who died March 20, 1903. He was appointed for a full term of four years, and in 1907 he was reappointed by Governor Stokes. His term will expire in 1911.

Dr. Bogardus was born in Madison township, Middlesex county, N. J., December 19th, 1859, and is a dentist by profession. His father, Dr. S. W. Bogardus, who at that time was practicing dentistry at Stewartsville, N. J., was his preceptor. He entered the Pennsylvania Dental College, at Philadelphia, from which he was graduated in March, 1882. In May, 1882, he started the practice of his profession in Keyport, Monmouth county, where he established a large and lucrative practice, which he still continues.

He has always been active in politics in his county, and served as Sheriff of Monmouth county for a term of three years—1902-1905. HENRY J. IRICK, Vincentown.

Mr. Irick is a son of General John Stockton and Emeline S. Irick and was born on March 13, 1833, near Vincentown, N. J., being the oldest of eight children. At an early age he was sent to a primary school, with an attendant to care for him, and at the age of twelve years he entered an academical school at Norristown, Pa., under the care of Rev. Samuel Aaron, a co-laborer of Burleigh, Giddings, Lucretia Mott, Wendell Philips and other anti-slavery champions. During his five years under Mr. Aaron he imbibed the political doctrines which made it so easy for him to join the ranks of Republicanism, carrying with him, however, the old Whig protection ideas of his ancestors, which became a part of the fundamental principles of the great political party to which he has ever borne true allegiance.

At the early age of seventeen years he undertook the overseeing of large farming and timber interests. In 1863 he was elected to the House of Assembly from Burlington county and was twice re-elected. In 1865 the House was a tie, when he and Mr. Fisher, on the part of the Republicans, and Messrs. Abbett and Culver, on the part of the Democrats, were appointed a Special Committee on Or-

ganization. During the struggle for leadership Colonel Fowler, a Democratic member, died, when Mr. Irick had a resolution adopted requiring the vote of thirty-one members to organize the House. This action was so eminently fair that Mr. Irick earned great esteem from both sides of the House. Joseph T. Crowell, of Union, was subsequently elected Speaker. In 1870 Mr. Irick was elected to the Senate and served a term of three years. In 1873 he would have been elected President of the Senate but for the treachery of one whose political career he had done so much to promote. During his service as Senator he took a very active part in legislation, especially during the last year of his term, when there was great excitement over railroad matters. He served on the most important committees and was Chairman of the Republican Caucus during his term of office. He was the author of the bill allowing the New Jersey Volunteers the right to vote in the field, and of other bills furthering the cause of education. About fifteen years ago he succeeded Judge Clement as president of the Council Proprietors of West Jersey, the oldest corporation in the United States.

When his senatorial term closed he moved upon the old homestead, farmed its broad acres, and continued his profession as a land surveyor until the present time. He has always taken an active interest in politics and has ever been an unswerving supporter of the Republican party. Mr. Irick has always extended a helping hand to those in distress and feels that he has been amply paid for his charities. He is still hale and hearty and is engaged in active business pursuits. He is connected with the Great Interstate Fair Association and the Mount Holly Agricultural Fair. He has presided over more grand juries and political conventions than any living Jerseyman.

Mr. Irick was nominated as a member of the Board of Equalization of Taxes by Governor Stokes on March 30, 1905, and was at once confirmed by the Senate. He was appointed in 1907 for a full term, which will expire in 1912. His salary is \$3,500 a year.

fession. He was admitted to the bar as an attorney at the February term, 1876, and as a counselor at the February term, 1883. He has always practiced law in Sussex county, his office being at Newton. In 1892 he was a Presidential Elector for New Jersey and voted for Cleveland and Stevenson. Mr. Simonson served as attorney for Sussex county under an appointment by the Board of Freeholders. He is now vice-president of the Sussex National Bank and president of the Newton Library Association. Governor Stokes nominated him as a member of the State Board of Equalization of Taxes on March 30, 1905, and he was at once confirmed by the Senate. McCartin and with his brother, James W. McCarthy. lar movement that resulted in a special session of the Legislature for the passage of the anti-pigeon shooting bill.

He is and always has been an organization Republican. He was elected Alderman in 1894 by 1,013 majority over a popular opponent who had two years before been elected to the same office by a Democratic majority of 500. He served two years as Health Commissioner, and resigned to assume the duties of City Clerk, to which office he was elected by the Board of Aldermen in 1906. In May, 1908, Governor Fort appointed him to the State Tax Board. He is Hudson member in the Republican State Committee, secretary of the Hudson County Republican Committee, president of the Minkakwa Club, and a member of Mecca Temple, Mystic Shrine; Jersey City Lodge, B. P. O. Elks; Enterprise Lodge, F. and A. M.; New Jersey Consistory and Associate Scottish Rite bodies; Jersey City Aerie of Eagles, and other fraternal and political organizations.

Mr. McCarthy was Republican nominee for State Senator in 1904, and came nearer to election than any other Republican candidate before or since, with the exception of Thomas V. Cator, who got fourteen votes nearer to it in 1883. Hudson county has never elected a Republican Senator.

Mr. McCarthy while Health Commissioner, in 1905, made a secret investigation of the old Jersey City Hospital, and after unearthing a mass of evidence showing general carelessness, absence of management, alack of discipline and outrages and brutalities on patients, put it in the form of charges, headed a municipal investigating committee, and cleaned out the neglected institution, hastening the establishment of a new City Hospital under the management of capable public officials. His term expires in 1913.

New York University has given him, in recognition of his literary attainments, the degree of master of letters, and Dickinson College added thereto the degrees of master of arts and doctor of humane letters. J., near which city he taught school until the breaking out of the Civil War, when he enlisted in Company G of the First Regiment, New Jersey Volunteers, May, 1861. In 1863 he was commissioned lieutenant in the same regiment, serving in the Army of the Potomac from the first battle of Bull Run to the battle of Salem Church, near Chancellorville, in 1863, where he was wounded, captured and sent to Libby Prison in Richmond. He was appointed to his present office in April, 1905. His salary is \$3,600.

Commissioner of Reports.

WILLIAM CLOKE, Trenton.

Mr. Cloke has been in the newspaper business more than forty years. He was born near Canterbury, Kent county, England, in 1840, and came to this country with his parents in his infancy. He lived in New York until he was eight years old, when the family went to Monmouth county, in this State. As a young man he taught in a country school, but in 1861 became editor of the Monmouth Inquirer, at Freehold. In 1865 he became principal of the Freehold Academy, and two years later assumed a position as reporter or city editor of the Trenton State Gazette, comprising, at that time—1867—the entire city force of the paper. Mr. Cloke for several years did all the reporting for the Gazette, reported the Legislative proceedings in the Winter, read the proofs, and did about everything on the paper except write the editorials. On the death of Enoch R. Borden, in 1871, Mr. Cloke became editor-in-chief, and held that position without a break for twenty-seven years. In 1894 he was appointed a member of the State Board of Riparian Commissioners for five years by Governor Werts, was reappointed for another five years' term by Governor Voorhees, and again by Governor Murphy. He had over a year yet to serve when appointed Commissioner of Reports by Governor Fort. Mr. Cloke did not seek this position, directly or indirectly. In fact, he had three or four times urgently importuned the Governor in behalf of another man.

Mr. Cloke served over a dozen years as secretary of the Trenton Board of Health, in the work of which he was greatly interested. While serving in that capacity he secured the passage of an act of the Legislature making it compulsory on property owners

who lived on the line of sewers to connect therewith. About thirty years ago he was Assistant Secretary of the Senate for three years.

Mr. Cloke now writes political and other gossip for the New York Herald over the signature of "Trenton." This is the principal feature of the New Jersey edition of the Sunday Herald. His field is the State, and people who are interested in politics and public affairs consult his letters with great interest in all parts of New Jersey. He was appointed Commissioner of Reports by Governor Fort on August 31st, 1908, for a term of five years. His salary is \$2,000 a year.

Secretary to the Governor.

LESLIE R. FORT, Lakewood.

Mr. Fort is the youngest son of Governor Fort, and was born in Newark in 1883, from which place his parents moved to East Orange five years later. He received his early education in the public schools in East Orange, and went to Stevens' Preparatory School in Hoboken for four years, at that time intending to become a civil engineer.

In 1901 he entered Amherst College, and remained there through the sophomore year. During the first summer at college, Mr. Fort was made a correspondent of the Newark Evening News, at the State Camp at Sea girt, and it was while working there that he decided to take up newspaper work permanently.

Upon the completion of his second year at college, he again took up newspaper work, and since that time has been the Sea Girt correspondent of a number of State papers every year.

In September, 1905, Mr. Fort purchased the Times and Journal at Lakewood, and has been its editor and publisher since that time.

Executive Clerk.

CHARLES A. RANSOM, East Orange.

Mr. Ransom was born in Jersey City. He attended the Wesleyan Academy, Willraham, Mass., and the Wesleyan University, Middletown, Conn. He studied law with his father, the late Stephen Billings Ransom, of Jersey City, and was admitted to the New Jersey Bar. Preferring the newspaper business to the practice of the law, he went upon the city staff of the New York Tribune soon after his admission to the bar. When the New York Press was started by the late Postmaster-General Frank Hatton and Robert Porter, he became a member of the city staff of that paper, which he left in 1889, to assist in starting the Jersey City News. Prior to his appointment as Executive Clerk by Governor Fort, Mr. Ransom was for several years a Legislative correspondent at Trenton, and at different times represented, in that capacity, the Jersey City News, the Newark Evening News, the Hudson Observer, the New York Press, the New York Herald and the Evening Post, of New York. He is a lieutenant in the New Jersey Naval Reserves, a member of the Legislative Correspondents' Club of New Jersey, and of the New England Society, Orange.

State Board of Assessors.**FOR THE ASSESSMENT AND TAXATION OF RAILROAD AND OTHER CORPORATE PROPERTY.**

David Baird, President; Theodore Strong, Obadiah C. Bogardus, Charles E. Hendrickson, Jr.; Irvine E. Maguire, Secretary; George William Barnard, Assistant Secretary.

This department of the State Government was created under an act of the Legislature, entitled "An act for the taxation of railroad and canal property," approved April 10th, 1884.

The work of the Board was increased during the same year by the passage of another act, entitled "An act to provide for the imposition of State taxes upon certain corporations, and for the connection thereof," approved April 18th, 1884.

By an act of the Legislature of 1900 (taking effect January 1st, 1901), this Board is further charged with the assessment and apportionment of the municipal franchise tax to be paid by persons, copartnerships, associations or corporations using or occupying public streets, highways, roads or other public places.

The report of the Board for the year 1908 shows that 117 railroad and canal companies within the State are subject to taxation. These companies represent more than 2,350 miles of railroads and 173 miles of canals.

The following table is a summary of the valuation and assessment of railroad and canal property for the year 1908, subject to review by the Board, which review is now in progress:

First Annual Message of Governor Fort.

Gentlemen of the Senate and General Assembly:

By the express terms of the Constitution of our State adopted in 1844, it is made the duty of the Governor "to communicate, by message, to the Legislature at the opening of each session * * * the condition of the State, and recommend such measures as he may deem expedient."

Upon your assembling for the sixty-fifth time under that fundamental instrument, as the representatives of the people, you are not only to be personally congratulated on the honor which your fellow-citizens have conferred upon you, but upon the greatness of the State for which you are to legislate.

The growth of the State, during the sixty-four years of government under our present Constitution, demonstrates the wisdom of an adherence to a good governmental chart.

Our fathers made the Constitution of 1844 under circumstances which would make improbable, if not impossible, the creation in our day of such a terse, yet comprehensive and elastic, instrument.

There has been from time to time some spasmodic suggestions for a Constitutional Convention for the submission of a new Constitution, but so far without success.

Our Constitution has few, if any, serious faults, and these can be remedied in the way pointed out in that instrument for its amendment.

The mania for constitutional revision in our day has largely been one for placing in such instruments the various isms of certain theorists which should never be found in a Constitution. A Constitution should contain fundamental principles, not detailed theories—these should be left to statutes.

The Constitution of the United States, after which our State Constitution is largely modeled, has proven itself to be the greatest instrument ever drafted for the government of man, and that it has stood all tests and conditions up to the present time is due to the fact that it states principles only, and is susceptible of such construction as meets emergencies when they arise.

Four amendments were referred by the last Legislature for your concurrence.

Constitutional Amendments. The first increases the salaries of the Senators and Assemblymen to one thousand dollars per year, which should be done.

The second would make the term of the Governor and the Senators four years and the Assemblymen two years.

The third authorizes the districting of counties for the election of members of the General Assembly, and

The fourth relates to the reorganization of the judiciary.

New Jersey is the only State having a gubernatorial term of three years. Two States have a term of one year, twenty-one a term of two years, and twenty-two a term of four years. It matters not how industrious or attentive to duty a Governor may be, it will require at least a year for him to become familiar with affairs and sufficiently well informed to be helpful to the several departments of the State government, or able to wisely advise as to needed legislation. With a two-year term the Governor goes out of office just as his experience makes him useful to the people, and if he be eligible to re-election, several months of his second year are utilized in a canvass for a second term. A four-year term, with ineligibility to succeed himself, would be ideal. There are too many elections. The results do not compensate for the business disturbance resulting therefrom.

The election of Assemblymen by districts, under proper restrictions against a gerrymander, is almost universally demanded in the counties of the State having more than a single Assemblyman, and as the population increases, the necessity will become the greater. Another important feature about this proposed amendment is that it will make possible the selection of national and State officials at a different time from the election of local officials—a consummation greatly to be desired.

The proposed judiciary amendment embodies the best thought of the time, and it is believed by those having the most experience, and who have given it the greatest consideration, to meet existing conditions. It will give all the relief required, at reduced cost to the State, with added efficiency. I may be pardoned for the suggestion, if I state, that, after some years of experience in our courts, I believe fully in the proposed amendments, and consider that their adoption would prove of great advantage to a speedy and efficient administration of justice.

Concurrence in the amendments referred to you by the last Legislature is earnestly urged. That they have public approval is evidenced by the fact that they have been published the past year, and that during the vigorous political campaign, through which we have just passed, they were not criticised by any one. All the proposed amendments are without political significance and clearly in the interests of the people. It would seem to be difficult to find reason to justify the withholding from the people the right to express their will upon them.

In my inaugural address I earnestly urged the enactment of a law giving to the Governor the power of removal of public officials, not under the Constitution protected from removal, except by impeachment. I repeat that recommendation.

**Power of
Removal of
Officials.**

If the objection is to giving this power to the Governor, then give it to the courts or to the Senate or to a commission, consisting of the Governor, the President of the Senate and the Speaker of the House, or some other body which may commend itself to your judgment. The power should be somewhere.

It is humiliating for the Chief Executive of a great State to feel that no matter what the cause, nor how derelict in duty a public official may be, that there is no power of removal or method to remedy the condition.

If there be fear that the power will be abused, limit it to the following causes:

- (1) Malfeasance in office.
- (2) Offenses which are made misdemeanors by statute.
- (3) Misappropriation of public funds.
- (4) Conviction of crime.

Surely there can be no objection to such a power as this far such causes as these.

The Governor and other constitutional officers may be impeached and removed from office. A Senator or member of the General Assembly may be expelled and his office vacated by his associates, but there is no way now, except he resign, to get a statutory official out of office, even after conviction of crime.

Surely this cannot be thought to be right by any reasonable person.

Other States have constitutional provisions authorizing the removal of officials.

Extracts are here given from the Constitutions of the States of Illinois, Alabama, Colorado, Florida, Maryland, Michigan, Mississippi, Nebraska, New York, Pennsylvania, South Carolina, Texas, Virginia, West Virginia and Wisconsin, which show that the Governor is invested with the power of removal of officials for misconduct and malfeasance in office.

In my inaugural address last year I suggested, among others, the following matters for legislation:

**Former
Recommendations
Renewed.**

The abolition of the County Boards for the Equalization of Taxes.

The creation of a Department of Corporations and a Department of Motor Vehicles, separate and apart from the office of the Secretary of State, in which these duties are now lodged.

Time and experience have only tended to confirm the views then expressed.

So far as I know, no reasonable excuse exists for the further continuance of the County Boards for the Equalization of Taxes. They cost the taxpayers of the State and counties about one hundred and twenty thousand dollars per year. If they ever had any useful purpose, which I doubt, they have served it, and their further continuance can only be justified

upon the low and absolutely indefensible ground that places are provided for eighty-four persons to draw salaries from the public treasury which are not earned. * * *

The creation of the Department of Corporations, in accordance with the recommendation of the Commission on the Revision of the Corporation Laws, in its report of last Winter, is strongly urged. The fees for the organization of miscellaneous corporations and from the annual corporation tax thereon amounted last year to \$2,610,000, which makes this department the largest of the revenue earners of the State. If it were closely watched and carefully administered, the fees could be collected much more promptly and every detail looked after in delinquent cases, thus saving much of the expense and trouble incident to defaulting companies. It would also take considerable labor off the Attorney-General's Department. Much of the work now done there could be done through the Commissioner of Corporations.

But aside from the financial importance of a Department of Corporations to the State, the other features of control recommended to be given to this officer by the report of the Revision Commission of last year would be of the greatest importance in the administration of our corporation laws. * * *

What was said as to the creation of a Motor Vehicle Department in my inaugural address last year is especially commended to the Legislature. This department is constantly growing. It is sure to become one of the largest and most important departments in the State, with a revenue which is certain to reach a quarter of a million dollars per year within the next five years. It demands the constant and undivided attention of a distinct head, with the requisite inspectors and other officers to enforce the law. All such power should be exclusively in the hands of this department. * * *

The excise question is not so difficult as it seems. If we have the courage of our convictions the situation can easily be clarified. In our State there is no sentiment to justify prohibition legislation. There are many of our people who would be glad to aid prohibition legislation and support it if they believed, if enacted, it could be enforced and would actually prohibit.

We have difficulty in enforcing the restrictive features of the excise laws we now have. It is undoubtedly true that a public official should enforce all the laws, no matter whether they have public approval or not. But he cannot fully perform this duty if public sentiment is against the enforcement.

In a republic modeled on our form, where conditions as to law enforcement are localized by county lines, a law which a majority of the people of the State may

demand and their representatives enact, may in certain places, be so objectionable as to be very difficult to enforce.

While the excise question is a State, and not a local one, our State has always treated the granting or revoking of licenses, and the right to the revenue that comes therefrom as if a matter of local concern.

Enforcement of the excise laws has also, practically always, been stringent or lax, as local sentiment seemed to dictate.

Whatever legislation may be enacted this year, one thing is evident, that the majority party in the Legislature cannot, except in bad faith with the people, repeal the "Bishops' Law," so called. It is pledged to maintain that law, and the present Governor stands, irrevocably, committed to that statute.

There is need for greater uniformity in granting licenses and the present method of having licenses granted by an excise board, appointed by the mayor or court, in some places, and elected in others; and then in other places having the common council, or the court itself, grant the licenses, is wrong. The method of granting and revoking licenses should be uniform throughout the State. This would result in a general rule for fixing license fees and for granting or refusing licenses. A board or body, composed of men of character and independence, who were free from removal, at local political behest, would work out a solution of the whole problem on lines conforming to public sentiment.

Furthermore, I believe that this would remove the license question from local political controversy, and any plan that would accomplish that is greatly to be desired.

Under such a system as this, county boards of excise appointed by the Governor would seem to be the best adapted for the purpose, and they are recommended.

The following modifications of the excise laws are suggested:

(1) The minimum license fee should be fixed on the basis of the population of the local municipalities; provided, that in no case should it be less in any municipality than that at which licenses are now granted in such municipality, and each application for a license should be advertised once for at least ten days before action is taken thereon, that objection may be made thereto and heard.

(2) The number of licensed places allowed should be limited to not exceeding one for each five hundred people; provided, that no greater number of licenses should be granted in any place, where the present percentage is greater than this, than the present licensed places bear to the present population.

(3) A simple and definite form of procedure, to revoke a license, for the violation of the law; with a provision that a license shall be ipso facto revoked on conviction of any crime or on a plea of guilty or non vult.

(4) No license should be granted to any person not a native or naturalized citizen of the United States.

(5) No license should be granted to a person who had been convicted of any crime which would disfranchise him under our State Constitution.

(6) All right to transfer a license from one place to another should be prohibited.

(7) All licensed places should be closed from twelve o'clock midnight until six A. M.

Jury reform is needed in this State. For years public sentiment has approved it, and the more efficient administration of both the civil and criminal law demanded it.

There is but one way to accomplish this, and that is through a jury commission in each county. This commission should consist of the sheriff and two citizens appointed by the presiding justice of the Supreme Court sitting in each of the Circuit Courts of the State. The act should define specifically how the jury list is to be made up and the jury drawn, and the statute should relate to both grand and petit jurors. Such a statute would not be in conflict with the Constitution.

The last session of the Legislature, through a disagreement between the two houses, as to the terms of an act, failed to pass a public utilities bill such as public

Public Utilities. sentiment seemed to demand. On this subject I still adhere to the views expressed in detail in my inaugural address and in the special message sent to the Legislature on March 30, 1908. This commission can take the place of the present Railroad Commission, appointed under the act approved May 15, 1907, and which act should be repealed.

The point upon which the legislation failed at the last session seems to have been over the rate-making power. A bill without some control over rates, at least a correctional power as to them, would be of little, if any, more value than our present Railroad Commission act. The commission should have the power to revise and correct rates shown to be unreasonable, upon complaint and after hearing, subject to a review of any final order, as to rates, by the courts, with a provision for speedy hearing and determination on the appeal. The power which is now in the Court of Chancery to regulate grade crossings should also be transferred to this commission, when appointed. Such a commission can work no harm to legitimate and properly-managed public-serving corporations of any class. The people are entitled to the best service that such companies can give them, and the companies to the protection from unjust public criticism or unreasonable exactions.

An intelligent, conservative board of public utilities commissioners, with adequate powers, will strengthen public confidence in the securities of all such companies and prevent harm to any interests. There is absolutely no reason, not founded in cupidity, against a public utilities commission.

During the year practically all the penal, reformatory and charitable institutions of the State have been visited by me. The information obtained has served to furnish a good general knowledge of them and of their management and needs. Our institutions, as a whole, are a credit to the State, and as well managed as could be expected under existing conditions of government and supervision. The boards of managers of all our State institutions, except the State Prison, serve without pay. It is a thankless task, and one in the performance of which there may be at any time unpleasant criticism. It is difficult to get the right sort of men or women to serve on these boards, and those who do serve deserve the thanks of the people of the State and all public officials.

These institutions are becoming so large and requiring so much attention that it is unjust to the State to ask the assumption of so large a responsibility without remuneration. Each institution should have its separate board of managers to direct its general administrative work, looking to the admission and discharge of inmates and the employment and discharge of all officials; in fact, everything relating to the general operations of the institution.

I do not think that the board of managers of any State institution should exceed five. There is difficulty to obtain a quorum, and meetings now frequently fail for this reason.

But I am firmly convinced that the purchase of all provisions and supplies of a staple nature that are needed for these institutions should be under the control of a single board or department. The Commissioner of Charities and Corrections, together with two persons to be appointed, should constitute a board for the purchase of all supplies for the inmates which are of daily and general use. Of necessity, there can be no uniformity in purchases with as many separate purchasing agents as there are separate institutions. Nor can such purchases be so easily made by contract or in such large quantities as to obtain the low prices which the State should secure. All kinds of food, fuel and other like supplies, except probably those perishable, can be advertised for and secured by contract, to be delivered at the respective institutions on requisitions, as required.

The total cost of our State institutions last year was in excess of one million and five hundred thousand dollars. The estimates made show that a saving can be made under a uniform system of purchases of ten, and probably fifteen per cent., of the present cost of running the institutions. A departmental cost of fifteen thousand dollars per annum would, in my opinion, probably save to the State one hundred and fifty thousand dollars, and possibly in excess of that sum. Such a system in New York has caused a saving there in excess of the percentage here suggested.

Several new State buildings or institutions will be asked, and at least two are badly needed. These are a woman's reformatory and a house of detention for insane convicts.

Two New State Institution Buildings.

The hospitals for the insane in this State are each full and the State Prison is overcrowded. There are at the State Prison at this time fifty-one women inmates. The room occupied by them is greatly needed for male prisoners. The Home for Girls has in it a number of young women over seventeen years of age, who should not be there. The law increasing the age of the inmates of this home from sixteen to nineteen was a mistake. The State owns land enough at Jamesburg to build a suitable institution for women upon a location to be selected upon such land.

A building for insane convicts can be erected either near the hospital at Morris Plains or on land near the hospital at Trenton, and the building erected for this purpose could be placed under the management of the board of the hospital near which it may be erected.

The operation of neither institution need require, therefore, any additional employees, save a few guards or attendants.

The number of insane convicts in the State Hospital at this time is one hundred and ninety-six, of whom one hundred and ten are at Morris Plains and eighty-six at Trenton.

It is not right to continue the insane convicts at the hospitals for the insane. They are violent, dangerous and demoralizing to the discipline, and have a very bad effect upon the non-criminal insane. I personally witnessed exhibitions of this when visiting these institutions. In addition to that, neither hospital has the cell or corridor arrangement for retaining these insane criminals with safety either to the guards or other inmates, nor as against escape and consequent danger to the life of the citizen. The hospitals are not prisons and should not be treated as such. An insane criminal or convict is more dangerous to manage than a sane one, and requires closer guarding and an equally strong prison for confinement.

If the members of the Legislature would visit these institutions and see and hear for themselves, and inspect the deadly articles the convict insane have made to murder the guards, the object lesson would be all the proof needed to establish the potency of the statements here made.

Neither of the buildings here suggested need be large or expensive. A separate building for each purpose, with not exceeding two hundred steel cells, would suffice for some years. Each building could be of the most simple construction.

While on the subject of the State institutions, let me make another suggestion.

**Legislative
Committees
Should Visit.**

It seems to me that the joint committees of the Legislature appointed each session on these institutions should visit them. They should give the management a hearing as to their needs in the way of new or remodeled construction. They should go carefully into the cost of operating them and the causes, and they should recommend to the Appropriation Committee the sum needed, with the reasons, for running the institution the succeeding year.

I cannot impress this too strongly on the Legislature. It will be found to have excellent results.

The registration law needs amendment to protect against fraud. I recommend personal registration in all cities of the first and second class under the system now in operation in New York, which requires personal appearance and the answering of specific questions and the signature of the person registering, that, in case of challenge, founded on the identity of the voter, full protection will be had. That we do have repeating in our larger cities, I regret to say, I believe to be true, and every safeguard should be thrown about the election laws to prevent it. It is no hardship to compel a man to go to the polls and register in person. If citizenship is worth anything, it is worth protecting.

The primaries held in this State the past year, under the direct primary act, met with general public approval. This system gives the citizen a potent voice in selecting candidates. With the legal protection thrown around the ballot, fraud is prevented. The primary is the source of all political power, and it must be kept pure and in close touch with the people. To oppose throwing around the primary all the protection possible, by law, is to encourage fraud. There was abundant proof of the grossest frauds in the primaries held in certain places in this State in April last, when delegates were being elected to select delegates to the National Convention. This was clearly due to the fact that there was no law regulating that primary election. To me it is the most astounding thing in government that men, honorable in every other walk of life, will countenance fraud at the primary and, at times, in the general elections.

Fraudulent registration, illegal voting, repeating, voting on the names of others or upon the names of the dead or insane, marking ballots to make void a vote, and the like, are crimes of a character so detestable that no punishment is too severe. No party, and no organization in a party, is deserving of anything but defeat that resorts to these things. The remedy for it all is to keep near the people and enact the most stringent laws for the government of all general and primary elections.

**Direct
Primary Laws.**

The false and absolutely untrue statement is put forth in opposition to the direct primary, that it requires great expense to be a candidate at a primary election, and yet the real truth is that a candidate need not expend a single dollar. The State pays for the tickets and insures at the polls a fair election, conducted by competent election officers. If a man is not sufficiently well known to get votes, or has not the intelligence to make himself known by going about among the people and declaring for what he stands, he should not be nominated for any office; but if he has, he needs no money to exploit his virtues or his fitness. The curse of the old convention system was the known and undoubted manipulation of delegates by a few men, and at times by one man, coupled with their purchase, or the enormous expenditure of money to elect them and the trading by delegations in deals to nominate candidates. All that is gone under the direct primary.

I recommend the extension of the present direct primary to the selection of delegates to the National Conventions of the respective political parties and to the election of party committees. And, for myself, I thoroughly believe in its application to the nomination of candidates for Governor and Representatives in Congress. If an obligatory law could be passed applicable to the selection of United States Senators by the respective parties, I would be heartily in favor of that. Many States have petitioned the Congress, in the method provided by the Federal Constitution, asking that an amendment be submitted to the States for ratification by the Legislatures thereof, making United States Senators elective by the people of the States, as the Congressmen now are. The reason which history gives as that which prompted the fathers to establish the present method, which was the fear that otherwise popular government might be destroyed, has long since been demonstrated to be without force, and it is no longer unsafe to leave any question of the election of any representative official to the people.

I recommend that the present Legislature place New Jersey with the other States who have asked for the submission of this amendment to the Legislature of the respective States for their ratification.

The past Legislature, pursuant to the recommendation of the Governor, enacted a law permitting the people of the State to determine whether they desired the continuance of the voting machines in the districts where they now exist. Two hundred and fifteen districts took advantage of this act, and in every case where this was done, save three, the vote was to abolish them.

The unpopularity and objectionable character of the voting machine now in use was thus conclusively demonstrated. It is doubtful whether the objection of the people is to any machine that can be devised, or

only to the machine now in use. The fact that the voter in voting on the machine now used is unable to see for whom he votes, is probably the serious objection to it. If the party lever were eliminated and the machine so arranged that the voter could push a button, or move some other device, for each candidate for whom he desired to vote, and could see as he voted that his vote was effective, the machine would be ideal. This would give us the Massachusetts ballot on a machine, and result in a most intelligent, accurate and satisfactory voting system. The present Voting Machine act should be repealed, if not amended, in some such way as here suggested.

The ballot most generally in use is the blanket ballot. There are but six States using the single ballot similar to that in our State, the five other States being Connecticut, Georgia, New Mexico, North and South Carolina. Of the States using the blanket ballot, eleven require the voter to make his choice for each individual candidate, while the other States permit one mark to be made, if the voter so desires, for a "straight ticket. The marking of each name voted is the right method. The work of supplying the ballot, composed of as many separate pieces as there are party names is enormous and of great detail. There will be errors, no matter how careful the official, preparing the tickets, for the several voting districts, may be. We should have some system under which all voters use a similar piece of paper containing the names of all candidates, of all parties, for office at the election.

Under any system of voting, by paper ballot, the large number of ballots rejected, as marked ballots, should be in some way guarded against by statute. Even errors on the official ballot, caused by accident in preparing or printing them, are now held to be cause for either rejecting the ballot as marked or for refusing to count it for the person for whom it was plainly intended. An accidental mark by finger print, or an irregular marking off of the name of a candidate for whom the voter does not wish to vote, now voids the ballot. The statute should give the election officers some discretion in counting or rejecting such a ballot that the intent of the voter may always find expression. In one case lately, the erroneous omission of one letter, in the Christian name of a candidate, on some eighty-odd ballots, defeated his election, although it was self-evident that the candidate, whose name was rightly printed on the thousands of other ballots, was the one intended to be voted for by the voter.

The only marked ballot that should be rejected is one that shows a marking by clear design to identify it from other ballots in the box. A method frequently used for marking a ballot, and yet which is held not to be illegal, is to leave some office vacant on the

ticket and print the title of that office, and write many different names to identify each voter. The law should prohibit this, and provide that only offices for which nominations are made should be printed on a ticket. If no nominations are made, let the office be filled as vacancies are provided to be filled by law.

It should be made difficult for a voter to lose his vote, not easy, and the statute should provide that every intendment should be given to sustain and count the vote, as cast, unless the intent is clear that the voter, by some act of his own, meant to mark or destroy his ballot.

I earnestly recommend the enactment into law of the suggestions here made.

The last session of the Legislature established the Civil Service, or merit system, in this State, and created a Board of Commissioners to manage it.

The first report of the commission has been made and the work done is deserving of the highest praise. The abolition of the spoils system can have no other than an elevating tendency in public life. Everything should be done to encourage the commission and to strengthen its work. Already over eleven thousand persons are under Civil Service in this State, and many more will come under it as soon as the various cities and other municipalities of the State shall adopt the law, which, no doubt, will speedily be done. The wonder soon will be why any one should ever have thought of making opposition to such a statute.

The Governor is required by various statutes to approve all contracts before they are made, and many bills of departments before they are paid. This duty, it seems to me, should be placed on the department contracting them and the Attorney-General.

The Attorney-General is the law officer of the State, and is, or can make himself, familiar with all the statutes applicable to the State departments and institutions.

At this time many little bills, of the Board of Health, Inland Waterways, Oyster Commission, Incidental Expenses and the statements of the State Road Department, require the approval of the Governor.

Of necessity, the Governor has no means of knowing or ascertaining about these bills, except as the department may report to him.

I recommend that the Governor be relieved from all this class of contract and bill approval.

Almost every session of the Legislature either appoints or authorizes the Governor to appoint investigating committees or commissions which have inquisitorial powers. A study of the workings of these commissions and a general knowledge of those which have heretofore existed, causes me to doubt whether the creation of such commissions or committees is the best way to attain proper results.

Proceedings before these committees or commissions are not conducted in a judicial manner, nor are the rules of evidence observed, especially as to hearsay statements, with the result that injustice is often done. Beside, the investigations so conducted are made unnecessarily expensive. Counsel and all others assisting seem to expect, and I regret to say usually obtain, much more than they should be allowed. Yet, investigations are useful. If these investigations could be given a judicial character, and be made by a Supreme Court Commissioner, appointed by the court on petition of the Attorney-General at the direction of the Legislature or Governor, and there could be conferred upon such commissioner, when appointed, power to issue subpoenas, out of the court appointing him, to compel the attendance of witnesses, and he were clothed with power to pass upon the admission or rejection of evidence, we should have a useful system in the State, and a comparatively inexpensive one, and good results would flow from it.

On these hearings the Attorney-General could appear to represent the Legislature or Governor, or the Legislature could, if it preferred, direct that the investigations be conducted by a committee of its own or by a counsel appointed by itself.

There is no reason why members of the Senate or House could not be appointed as counsel for their respective bodies to conduct the examinations and receive reasonable compensation for such service.

The method would be similar to that pursued in proceedings in court, or before the Senate when sitting as a court of impeachment.

The passage of an act creating such a system is earnestly recommended to your favorable consideration.

The automobile is with us, and it has come to stay.

Automobiles. It must be given all highway rights, under proper restrictions to protect the public and the occupants of the machine. Railroad regulation as to the running of trains, safety appliances and the like, are intended for the protection of the passenger more, if anything, than the traveller crossing the tracks.

All vehicles upon the public highway should be required to carry lights.

Speed regulations in the open country should be liberal; thirty miles an hour could be allowed there with safety.

Arrest and trial should not be summary, but the right to stop should only exist to inquire as to the possession by the driver of the machine of the requisite authority, or to obtain its number, if violation of law is claimed.

Suit should only be instituted by direction of the department in proper courts near the residence of the alleged offender, or at convenient points within the State for the non-resident.

Willful injury to person or property by the driver

of a car, or such injury by an intoxicated driver, should be a misdemeanor, and punishable accordingly, without, of course, the loss of right to maintain a civil suit by the injured party or the owner of the damaged property.

The present license fees are not excessive and should not be modified by any reduction, unless it is through some system of uniform legislation between the States.

The enactment of an employers' liability act is in line with the best opinion of our time. **Employers' Liability Act.** Leading business men are advocating it, and the annual report of the Department of Commerce and Labor of the United States the present year, after a most thorough investigation and study of the question, strongly urges it. It will be found in operation to be productive of much good, and it is a simple matter of justice to the employee. It exists in Great Britain and in our own Nation in many States. The old common-law rule, which prevents an injured man, although innocent of any negligence himself, from recovery because some of his fellow-servants were negligent, is not adapted to our day. When that rule was promulgated by judicial decision, several centuries ago, the conditions in business and the character of public and industrial enterprises were quite different.

The steam and electric railroad, the steam boat, the machinery now in use, were none of them then existant. The acts for which a workman might then be held responsible, when occurring through the fault of a fellow-workman, were quite another thing from those occasioned under the conditions in our day. If you define fellow-workmen as men engaged in the common service of the same employer, you can see how unjust it is to hold a trainman responsible for the negligence of the man at the switch, or the man working at a lathe or other machine in a factory, for the negligent starting of the machine by the careless putting on of the power by a man charged with that duty in some distant part of the shop.

By the decisions in our State, the superintendent of the factory is a fellow-workman with the employee, under many conditions, and the unfairness of this rule in modern conditions of work is self-evident.

Another objectionable rule has grown up by court decision, namely: If a workman works at a defective machine or uses a defective appliance, knowing it to be defective, even though the master also knows it and puts him to work thereat or therewith, and the workman is injured, he cannot recover. The remedy, says the law, is for him to refuse to work at or with the defective machine or tool. Conditions are not equal that permit this. The master has no moral right to put a man to work at or with a defective machine or tool. He owes it to his employee to exercise reasonable care to see that his machinery and tools are proper and in good order at all times, and if he, to save the

expense of putting them in that condition, permits a man to work at a machine or appliance, known to be defective, even with the workman's consent, and injury results, the master should be liable.

The rule as to contributory negligence of the workman himself, which results in his injury, I would not relax. A man should not be able to hold his employer for injuries resulting from his own careless act or from dangerous conditions which are obvious to him, and against which the natural impulse of self-preservation should guard him.

I earnestly recommend the enactment of a law modifying the law of master and servant, at least in the two respects herein suggested.

An employers' liability act modeled on the British statute would, in my judgment, be wise legislation; but this is so important that it should be drafted through a commission appointed for that purpose, and not be undertaken in the hours of a hasty legislative session.

Since the convention of the Governors of the various States, held last May at the call of the President of the United States, a quickened interest, both in the nation and the State, has been taken in the matter of conserving our natural resources.

New Jersey has not been behind in this matter. We have great problems in this line. That part of our State on the west bank of the Hudson River, for a radius of twenty-five miles from the centre of Jersey City, is to become practically a solid city within a few years. The future water supply of such a mass of people as will here be found is a problem of great magnitude. Newark and Jersey City have gone into the hills and impounded a supply of pure water which will be sufficient for their needs for a few years; just how many depends largely upon the rapidity of their growth. In years past the State has stood by and allowed, not to say assented to, private corporations taking over to themselves much of the potable water of our great water sheds. We all can now see what an unfortunate and short-sighted policy this was. But wisdom in government is a matter of development, and at times, as in this case, at an experience of great cost.

Paterson, Passaic, Bayonne, Hoboken, and all the towns between Jersey City and the Passaic, and others within the twenty-five-mile radius mentioned, have no water supply of their own. They are compelled to rely upon a private corporation. However good this private company may be (and it does deserve credit for its courage and far-sightedness in developing its water supply), it is not a public supply of the kind that municipalities should have.

The cost of establishing a great water plant for supplying of all cities and towns in the section suggested,

would be very heavy. The great problem is how can it be done?

First and foremost, nothing can be done by the State, if the State is to do it, until all the water rights of the East Jersey Water Company, and its subsidiary and allied companies, and the Morris Canal are condemned and taken over by the State. It would be worse than folly for the State to go into the water business, so to speak, in competition with a number of private water-serving companies. If the State is to serve its people, or any special portion of them, with water, it must do so to the exclusion of all other agencies.

The water plant of the city of Newark, as it stands to-day, has cost about thirteen million dollars, and that of Jersey City probably eight millions. As to the value of the plant of the East Jersey Water Company and its water rights (including those of the society for useful manufacturers), and of the like rights of the Morris Canal, there are no figures that I care to accept, but five million dollars would probably more than cover them all. That would give a present value of twenty-six million of dollars in the plants and water rights in the hills of Northern New Jersey at this time, without counting franchise values.

Considering the enormous value of these rights in that section of the State, and the tremendous cost to New York City in securing a no better supply than could be obtained in these hills, this figure is certainly moderate.

If all the rights in the rivers and streams above the tide-water in this section of the State could be taken over under a single control, State or district, and proper storage reservoirs constructed to hold the flood waters for potable use, the value of such a plant to our people would be beyond estimation. If it is not done now, it will have to be done later. The people in our cities must have pure water. If the pollution of our rivers and streams had been prevented years ago, the water problem would not have been so serious as it now is. Possibly, with the purification of our rivers by the prevention of pollution, we shall have some relief in the water problem in the future. But the present demands action—united action. Each city should not be required to go into the hills and contract for a supply; in fact, it will soon be that they cannot. If the State could take the whole matter over it would be ideal, but the bonding feature of the Constitution is the difficulty. There is no power in the Legislature to incur the necessary State debt. The people could vote fifty millions of State bonds for the work, but it is doubtful if they would do so; it is questionable whether they should if they would. After all, it is not a State-wide enterprise. It is to supply water to certain parts of the State only. The municipalities of the counties of Hudson, Essex and Passaic are chiefly interested in this question, with probably the counties of Union and Bergen.

If a water supply commission, which would own and control, through condemnation, all the plants of the cities and private companies now operated, were created and clothed with full power, the territory embraced within the district could, through such a commission, solve the water problem. The value of the plant would many times exceed its cost, and a reasonable water rental to cities taking it, based on the cost of operating, interest charges and a reasonable percentage to meet and pay the bonded debt as it matured, would soon wipe out the debt, and, probably in fifty years, would practically give either free water or by the charges for water, greatly relieve the other burdens of taxation. The financing of such an enterprise, gigantic though it may seem, would be easy. The reservoir area could be selected farther back in the hills than the Little Falls suggestion, or even Mountain View.

Incidental to this the commission should purchase and control the forest land in upper Passaic, covering about forty thousand acres. This land is said to be now held by five people. The cost of this vast area would be comparatively infinitesimal now, as compared with twenty-five years hence, and its value to the district owning it would be many times over its cost.

The plan outlined may seem of great magnitude, but when fully considered, it is not. It is one of those important enterprises which, when undertaken, seems tremendous, but after completion causes one to wonder why it had not been done before. No greater problem confronts the future of the State than the conservation of its potable waters.

It is a matter worthy of careful consideration whether our State alone can do all that is necessary to protect the water rights in the hills of the northern part of our State. The boundary line between our State and New York runs through these hills. The streams from which our supply is to come rise in New York, and if that State does not join with us in action to conserve these waters and prevent their pollution, the results may be serious. If the two States could act by a joint commission, and take over the fifty thousand acres or more of water shed within New York, and the like acreage in our own State, the results would be a protected supply of great value. To accomplish this, it will of course be necessary for the two States to find some ground of mutual interest in the supply that each may take the necessary steps to conserve it. If a joint commission could be secured, and I feel sure it could, if steps were taken looking to a conference with New York on the subject, it would not be difficult to work out a result of great benefit to both States. I have every reasonable assurance that New York would be willing to meet with New Jersey, that some common basis might be found to further this great and far-reaching undertaking.

I recommend the abolition of the inspectors of the State Prison. I am at a loss to see any useful purpose that they serve, and they tend to confuse the management and discipline of the prison. The Warden and Supervisor need no such assistants, and the hampering of these officials by the inspectors is quite evident, and tends to the injury of the general working of the prison. The expense in salary of the inspectors is the same as the salary of the supervisor, and there is no reason why this should not be saved.

Consolidation and Abolition of Offices. It was my purpose to recommend, in my inaugural a year ago, the consolidation of the Bureau of Statistics of Labor and Industries with the Department of Labor, but at the earnest solicitation, both in writing and verbally, of the Chief of the Bureau, I withheld recommendation in order that I might observe the working of these two departments for a year. This experience has fully confirmed my original view, and I strongly recommend that the Bureau of Statistics of Labor and Industries be merged into the Department of Labor, and that proper provision be made for a deputy in that department, who shall have charge of what now is the Bureau of Statistics of Labor and Industries. There is no justification for the continued expense of both these bureaus.

Experience has also convinced me that there is no reasonable excuse for the continuance of five members of the State Water Supply Commission. This should be a department under a single head. The present cost of this department is \$2,500 to each of the five commissioners, besides clerical expenses incident thereto. If there were a single commissioner, with a salary of \$3,000, who should devote his time, or a large part of it, to the performance of his duties, equally good results would be attained at very much less expense. It does not look to me as if there would be very much for this commission to do for some time, and the State ought not be put to the expense of continuing it under the circumstances. Expenses of commissions like this, with no ground for their appointment at such salaries, is one of the just causes of complaint against alleged extravagant commissions that is made by the people.

I also think that there are too many Oyster Commissions in the State, and that there should be a bureau with a single head, having charge of all the oyster industry in New Jersey.

The Legislature should do everything in its power to foster the oyster industry, and nothing will be of more benefit than the creation of a responsible department and the putting in operation of a system of leasing the oyster lands of the State.

Inland Waterways. The Legislature, at its last session, by an act approved March 17, 1908, authorized the creation of a Department of Inland Waterways, and subsequently by an act approved April 6, 1908, the sum of \$300,000 was appropriated to cover the cost of the construction of a waterway, pursuant to a surveyed route from Cape

May to Bay Head. Of the sum appropriated, \$75,000 was made available in the supplemental and annual appropriation bills.

The act of April 6, 1908, authorized the Governor to determine the point or points at which construction should commence, and it was decided to begin first at the Bay Head section, where about one-half mile of excavation would open the entire length of Barnegat Bay, a distance of about twenty-seven miles, to free navigation of all craft drawing not more than five feet of water. This section was let to Richard Lamb on the basis of 14¼ cents per cubic yard. The excavation and the work is now well under way and almost completed. The people interested in Bay Head have also engaged the contractor to excavate a very large basin as a harbor for the anchorage of boats at Bay Head, and very great improvement has resulted from the work done there.

Another section of work was commenced at Cape May, to continue as far as the appropriation would warrant toward Ocean City. The work on this is being rapidly pushed by the American Dredging Company, to whom the contract was awarded. The contract taken by this company was one of the lowest in price for dredging work ever awarded, being but 8.2 cents per cubic yard. They have done a very large amount of work already, and the channel will undoubtedly be open from Cape May to Ocean City by next Summer, and if proper appropriation is made at this session of the Legislature, I hope that the entire channel will be open between Bay Head and Cape May within a year.

This work has met with universal approval in the counties lying along the route and by all the people who are interested in boating who visit our State in the Summer.

I earnestly recommend that provision be made for further continuance of the work by proper appropriation, and that a canal be dug between Bay Head and the Manasquan River. When this canal is completed the head waters of Barnegat Bay will be salt, and about nine thousand acres of oyster lands will come into use. At present the water at Bay Head is not sufficiently salt for oyster propagation.

Steps should be taken by the Legislature to request the Congress of the United States to open Manasquan Inlet, and dike and protect it, so that ships of quite heavy draft may find a harbor in the Manasquan River, and smaller craft use the inlet to approach the canal and Barnegat Bay, and thus on down to Cold Spring Harbor, at Cape May.

It is a question whether the State has ever undertaken an enterprise which has more popular approval than the improvement of the inland waterways of the State.

The problem of the future in our public roads is not so much that of road building as of **Public Roads.** road maintenance. There have been built in New Jersey about 1,400 miles of public roads by State aid, and the counties have built even a larger amount of roads without State aid. The cost of maintaining all these roads is becoming a serious item of local expense. If possible, the State should take over, with the consent of municipalities, of course, all of these roads which may be considered through highways from the chief points in the State and maintain them. It has seemed to me that if the counties and localities consent, that it would be wise for the State to have transferred to a proper body, to be designated for that purpose, the maintenance of all the highways connecting the various county seats of the State with one another. This would make a continuous roadway under maintenance by the State of about 745 miles.

A strong movement has been started by residents along the New Jersey coast for an ocean boulevard from the Highlands, in Monmouth County, to Cape May, in Cape May County, the idea being to eventually have a highway by the sea from the one point to the other. At the present time practically a continuous improved roadway exists from the Highlands to Atlantic City, except for about seven miles. From Atlantic City to Cape May the road exists, but it is unimproved. It is not all by the sea, but for present purposes the existing roadways could be taken over and maintained by the State, being widened where necessary and utilized as a splendid driveway from the Highlands to Cape May.

What this road would mean to New Jersey, one who has not given it serious thought cannot comprehend. It would be an hundred and twenty-seven miles in length. It would be attractive in every way. It would be unsurpassed by any continuous roadway in any State in the Union, and it would to our New Jersey coast reputation that nothing else could.

The State possesses no greater asset for the benefit of its people than its sea coast, and everything should be done to build it up.

I recommend that a commission be created, consisting of the Governor, the President of the Senate, the Speaker of the House and the State Road Commissioner, who shall have authority to take over all highways herein referred to, from county seat to county seat, and along the proposed shore boulevard route, that they may be maintained by the State, through the State Road Department, without expense to the localities through which the roads pass, the control of the surface of these roads being transferred to the commission by the local authorities. All the revenue derived from license fees for automobiles should be given to this commission to be used in the maintenance of these highways, and such additional sum added

thereto annually, by appropriation, as will furnish a sufficient fund to properly maintain them. An estimate of two hundred and fifty dollars a mile seems to be sufficient to guarantee the maintenance of these roads.

If this suggestion is adopted by the Legislature, appropriations for new roads can be omitted for the present, and the benefit to the localities from the care and maintenance of the highways here mentioned will be of much more value to them than the present amount allowed for State aid for road building. If lateral roads are desired by localities, connecting with the main thoroughfares which are maintained by the State, these roads can be constructed by them.

It is not an easy matter to determine upon a policy for the State as to the sale of its riparian lands. It is quite apparent, **Grants of Riparian Lands.** both from the title and body of the original act of April 11, 1864, that there is no legislative purpose to provide for the granting of the riparian lands by a conveyance in fee. The commissioners appointed by that act ere only to recommend to the Legislature "plans and provisions for improvement, use, renting or leasing of said lands under water as they shall deem necessary for, and most conducive to, the interests of the State." And it was provided by this act that until such report, "no further grant, lease or sale of said lands shall be made." The supplement of March 31, 1869, was under the same title as the act of April 11, 1864, and adopted the report of the commission appointed under that act as filed February 1, 1865. The provisos to the third and fourth sections of the act of 1869 are involved, no doubt intentionally so, but it seems clear that they only permit grants or leases in confirmation of grants made previous to the act of 1864 by legislative act or grant or other authority. They contain no clause that can by any forced construction be held to authorize a grant of riparian lands by the commissioners authorized to be appointed by the sixth section of that act, or by those previously appointed under the act of 1864. The act of March 21, 1871, does, however, subject to the limitations in its second section, give to the riparian commissioners authority to lease or grant, to a riparian owner on tidewater, the State's title to riparian lands. The act of April 6, 1871, goes still further and expressly enacts that the commissioners, with the concurrence of the Governor and Attorney-General (the Attorney-General has since been eliminated) may "grant or lease, or lease first with a covenant to grant and grant afterwards" any of the riparian lands of the State.

An act conferring even more general power of sale was passed March 27, 1874. By the fourth section of the act of March 20, 1891, the power of sale was further authorized and reasserted by the Legislature in unequivocal terms. While, from a review of these

statutes, I think it absolutely clear, that, prior to the act of April 6, 1871, there was no power of sale in the commissioners, and that the provisos in the third and fourth sections of the act of 1869 cannot, by any fair construction, be perverted into an authority to make sales; yet it is equally clear that since the act of 1871 that power has existed and been exercised, and that such conveyances as have been made since that date are valid. But I also think that all conveyances by the riparian commissioners appointed under the act of 1869, made prior to the act of 1871, except in confirmation of a previous lease or grant by special legislative act were without authority from the State, and void. This view is not founded upon the suggestion that the title of the act of March 31, 1869, does not sufficiently state its object, to justify a grant to be made under it, but solely upon the terms of the fourth section of the act of 1869, conceding the title to be broad enough to cover the power to grant; about which I express no opinion, in view of the fact that that question is now in the courts.

Shall the policy of the sale of State riparian lands be continued? That the State has sacrificed many millions of dollars by its policy of sale since 1871, I do not think any one can doubt, that is at all familiar with the enormous increase in the values of riparian lands on the Hudson River, Newark Bay and Kill von Kull. It can do no harm to try an experiment with the balance of these State lands on the leasehold system, and see what the result may be.

As to the riparian rights of the State in the tidal rivers of the State, which are very narrow strips, in most cases, I think the present system of granting, with greatly increased prices hereafter, should be continued, that factories may be developed and the industries of the State promoted.

A manufacturer on a river does not care to have the little strip between his land and low water mark subject to purchase by another, nor does he wish to have his approach to the water cut off by a right in any other than himself. This is reasonable and just.

I recommend that legislation be enacted prohibiting further grants on the Hudson River, Newark Bay or Kill von Kull, but that the commissioners be authorized to make leases of these lands, for one hundred years, at a definite rate of rental, per annum, and with the option to purchase at the end of the lease, or of a renewal for another hundred years, at a sale or rental price then to be fixed by mutual agreement, or in default of such agreement by commissioners appointed by the Court of Chancery.

Fifty-four thousand acres of the timbered lands in this State were burned over by fires the
Forest Fires. past year, and yet this is so much less than for many years before that, while still serious, is a hopeful improvement. Thirty per cent. of the fires are definitely traced to being started

by railroad locomotives, and it is believed by the State Forester that fully sixty per cent. is due to this cause

A bill was presented last year to the Legislature by the State Forestry Board seeking legislation providing for fire lines along the railways of the State through forest sections. This is wise legislation, and the present year where such lines have existed no fires have occurred.

The State now owns over ten thousand acres of forest lands in its preserves, and it no doubt will secure very much more, and everything should be done that can be, by legislation, to protect all forest lands against forest fires.

The opening of the Rahway Reformatory, in 1900, was welcomed by all interested in penal reform as a great step in advance. The results up to this time have not fully justified expectations. The difficulty has been within, and not without, the institution. The theory of the late head of the institution was not the right one. He seemed to be impressed with the idea that the institution was a prison, and that the inmates should be treated as prisoners. This idea was radically wrong. The institution itself is built in such a way as to support his theory. Especially is this true of the new wing just completed there. It is a steel cell construction, each cell being entirely too small, and it is in form the most improved kind of prison cell. To one interested in the objects of such an institution this is a source of great regret. The cells are small and dark and entirely improper for a reformatory. The original cells in the old wing are much better than the new ones. It is to me a serious problem as to whether the State should not turn this institution into an adjunct State Prison and relocate a reformatory, constructing it on modern lines.

A new State Prison will be a necessity very shortly. The rapid increase of the number of prisoners being sent to the State Prison foreshadows this result as a certainty. In 1907 513 were sent to State Prison, and in 1908, 664.

A reformatory should have about it not less than five hundred acres of land upon which the inmates could be employed. The new Sing Sing Prison has 1,800 acres. The Massachusetts Reformatory has 600 acres, and the Ohio 700. Other similar State institutions have like farms.

There is quite a little land yet purchasable about the Rahway institution, which the State should immediately secure, while it can be done at a reasonable price, at private sale, or condemn it by legal proceedings. Our present farm at Rahway has only about eighty acres. The inmates can work the farm and provide a very large percentage of their sustenance, beside raising considerable produce for the market. This is the best method of employing the prisoners and is perfectly safe and healthful.

The institution also needs a water supply of its own, and trade schools should also be established.

I earnestly urge upon the favorable consideration of the Legislature the recommendations of the Board of Managers of this institution in these regards.

The collections from the collateral inheritance taxes and transfers last year produced a revenue to the State of \$247,396.

Collateral Inheritance Tax.

Under the late decision of the Court of Errors and Appeals the State will probably lose some revenue from the transfer of stock held by estates prior to May 15, 1906, and we may be also compelled under this decision to reimburse for payments previously made, under protest, prior to this law. The inquiries and investigations that I have been able to make lead me to believe that we are not receiving all the revenue from the collateral inheritance tax which we should; this probably without the fault of any particular officials. The matter is largely now in the hands of the several surrogates of the counties, and the collections in some counties are looked after much more closely than in others. Counties of about the same population should return about the same average revenue, and an examination of figures show this not to be true. There should be some power somewhere for investigation into the estates and examination of executors, for the purpose of ascertaining what bequests or devises are subject to tax. I recommend that provision be made for the appointment of an official with full power as to collections under this law. He could save his salary many times over. * * *

It has been my purpose in preparing this message to make it as near as possible a business paper, founded solely upon what I have found and believe to be the needs of the State, with a few added matters which seem to be in the public mind.

It has been my intention to avoid any subject of a partisan character. Our State and its interests are too sacred to deal with them in any partisan spirit. It is well to give credit to others for the virtues we assume, and let us believe that the other is as interested in the State, and its growth and greatness, as are we. If we shall approach this session of the Legislature in this spirit, and shall exemplify it in our public acts, the session of 1909 will end with a record which our constituents will have cause to commend.
